

Submit the following information with all building permit applications:

- A completed Building Zoning Compliance Application (Condo's require an Application per unit)
- A completed Additional Information Checklist (for basement finish, pool, accessory building, or addition).
- A completed Statement of Intent
- A site plan indicating the following information:
 - The location of the proposed house, addition, deck, etc.
 - Side yard setbacks
 - Rear yard setback
 - Front yard setback (from property line or road right-of-way)
- Payment (by cash or check) for water, sewer and/or zoning fees (by signing the application the applicant acknowledges there are no refunds for any reason)
 - Total fee for new homes built in a plat - \$3,810. (For homes requiring a storm water connection inspection an additional fee of \$50.00 will be collected)
 - Total fee for additions, decks, shed etc. - \$50.00. Buildings greater than 1,000 sq. feet - \$100
- Driveway permit from Ottawa County Road Commission
 - Contact number: 669-9075
 - Required prior to releasing the building permit
- Soil Erosion permit from Ottawa County Drain Commission, if applicable
 - Contact number: 616-994-4528
 - If required, see number seven (7) on the building permit application
 - Required prior to releasing the building permit
- Two (2) set of construction plans or blue prints and **One copy Digital file in PDF Format**. They are to include the following: (Note: A \$50.00 fee for any permit application **not accompanied with a digital file in PDF format** of a site plan if one is required and/or building plans if required and a \$25.00 fee for minor construction)
 - Residential dwellings and additions: floor plan, foundation plan (*cement information*), a cross section diagram of the walls and a completed energy code form.
 - Modular and mobile homes: (*single or double wide*) floor plan and cement information (*pier diagram if not a full basement*) If a modular home, also submit the building system approval slip
 - Accessory buildings, including pole barns: Cross section wall diagram indicating pole depth or foundation and cement information, stud placement along with a material list and truss diagram
- Commercial projects will require two (2) sets of sealed plans and a Storm Water Drain permit obtained from the Ottawa County Drain Commission. (contact number above)

Submit all of the above items, with payment, to:

Georgetown Charter Township
1515 Baldwin Street, Jenison, MI 49429
Phone: 457-2690 ext. 241 Fax: 457-3670

A zoning review will be completed and, upon approval, the application packet will be forwarded to PCI for a building permit review. When the building review is completed, PCI will contact the applicant with a building permit fee.

The permit may be picked up from PCI at: Professional Code Inspections, Inc.
Phone: 667-8803 Fax: 667-8869 1913 Baldwin Street, Jenison, MI 49428

Sidewalk Construction Standards Within
Right-of-ways in Georgetown Township
as of September 25, 2006

All sidewalks constructed within the road right-of-way in Georgetown Township must comply with the specifications adopted by the Ottawa County Road Commission. Permits are not required for the construction of sidewalks within the right-of-way in an approved plat. Permits are required for the construction of sidewalks within the right-of-way on a metes and bounds parcel.

It is the responsibility of the property owner that the construction of sidewalks meets Ottawa County Road Commission specifications. If the sidewalks do not meet the specifications, the possibility exists that the sidewalks would have to be removed and replaced according to the correct specifications.

Sidewalks-Sidewalk construction shall be in accordance with section 803 of the MDOT Specification.

1. Location and Width

The sidewalk shall be 5' in width and the outside edge located 1' from the right-of-way line. Sidewalk elevations shall be determined by the existing elevation of the road. Construct the property side of the sidewalk at 6" above the centerline of the road.

2. Grade

Sidewalks are to have a traverse grade of 2% (1/4" per foot) draining toward the road. The maximum allowed longitudinal grade shall be 5%. This grade shall not be exceeded unless the road grade is of a steeper grade, in which case the longitudinal sidewalk grade shall not exceed the road grade.

3. Surface Material Requirements and Specifications

Sidewalks shall meet the following aggregate base course requirements and shall be hard surfaced with concrete materials as listed below:

- | | |
|---------------------------|--------------------------------------|
| (a) Aggregate Base Course | - M.D.O.T. Spec. 302 |
| Material | - 22A |
| Gradation | - M.D.O.T. 902-1 Minimum 25% crushed |
| Thickness | - 6" compacted in place |
| (b) Concrete Surface | - M.D.O.T. Spec. 802 |
| Material | - 5 sack mix design |
| Thickness | - 4" |
| | - 6" through residential driveways |
| | - 8" through industrial driveways |

4. Surface Drainage

All existing drainage shall be accommodated with the construction of new sidewalk. All connections to existing storm sewer systems shall be approved by the Ottawa County Drain Commission.

Non-Motorized Facility Construction Standards Within Right-of-way in Georgetown Township
as of November 15, 2004

Any non-motorized facility constructed within the right-of-way in Georgetown Township must receive Ottawa County Road Commission approval for alignment and grade and Township Board approval prior to beginning construction. It is the responsibility of the property owner that the construction meets Ottawa County Road Commission specifications. If the construction does not meet the specifications, the possibility exists that the construction would have to be removed and replaced according to the correct specifications.

Non-motorized facility construction shall be in accordance with section 806 of the MDOT Specifications.

1. Location and Width

The non-motorized facility shall be 8' in width and the outside edge located 1' from the right-of-way line. Non-motorized facility elevations shall be determined by the existing elevation of the road. Construct the property side of the non-motorized facility at 6" above the centerline of the road.

2. Grade

Non-motorized facilities are to have a traverse grade of 2% (1/4" per foot) draining toward the road. The maximum allowed longitudinal grade shall be 5%. This grad shall not be exceeded, unless the road grade is of a steeper grade, in which case the longitudinal non-motorized facility grade shall not exceed the road grade.

3. Vertical and Horizontal Curves

Non-motorized facilities shall be designed in accordance with the requirements of the AASHTO-Guide for Development of New Bicycle Facilities (1991 or current edition).

4. Surface Material Requirements and Specifications Non-motorized facilities shall meet the following aggregate base course requirements and shall be hard surfaced with either bituminous or concrete materials as listed below:

(a) Aggregate Base Course	- M.D.O.T. Spec. 302
Material	- 22A
Gradation	- M.D.O.T. 902-1 Minimum 25% crushed
Thickness	- 6" compacted in place
(b) Bituminous Surface	- M.D.O.T. Spec. 500
Material	- Bituminous Mixture 13A Leveling
	- Bituminous Mixture 36A Surface
Thickness	- 2 1/2" 275#/Sq. Yd. Min.
Asphalt Cement	- Performance Grade 58-28
Temperature & Seasonal Limitations	Table 502.03.J
(c) Concrete Surface	- M.D.O.T. Spec. 802
Material	- 5 sack mix design
Thickness	- 4"
	-6" through residential driveways
	-8" through industrial driveways

5. Surface Drainage All existing drainage shall be accommodated with the construction of non-motorized facilities. All connections to existing storm sewer systems shall be approved by the Ottawa County Drain Commission.

#060925-08 - Sidewalk Installation Standards

Moved by Daniel Carlton, seconded by Richard VanderKlok, to approve the following Sidewalk Installation Standards:

Sidewalk Specifications

Since the sidewalk ordinance states that specifications shall be on file in the Township Office, the following sidewalk specifications are adopted and are to be on file:

- The sidewalk specifications adopted, used and enforced by the Ottawa County Road Commission;
- At all intersections, sidewalks shall be installed as a "T" with connections to the intersected roads where permitted by the Ottawa County Road Commission;
- Where the road right-of-way changes, the last property owner to install sidewalks shall be the one responsible to merge with the existing sidewalk;
- Developers of plats shall be responsible to set the lot stakes at the elevation required for the sidewalks according to specifications and such stakes shall be visible.

Note: The Water/Sewer Committee recommends approval MOTION CARRIED.
