Motion: to open the public hearing.

Chance for public comment.

Motion: to close the public hearing.

Motion: to approve the Resolution to Terminate the Industrial Development District for the Property at 1765 Chicago Drive, 6722 18th Avenue, and 1725 Port Sheldon Street, as recommended by the Finance Committee.

OTTAWA COUNTY, Michigan

(Resolution No. _____)

At a regular meeting of the Township Board for the Charter Township of Georgetown held at the Township offices on _____, 2025 at _____ p.m., this Resolution was offered for adoption by Township Board Member _____ and was seconded by Township Board Member _____:

A RESOLUTION TO TERMINATE THE INDUSTRIAL DEVELOPMENT DISTRICT FOR THE PROPERTIES LOCATED AT 1765 CHICAGO DRIVE, JENISON, MICHIGAN; 6722 18th AVENUE, JENISON, MICHIGAN; AND 1725 PORT SHELDON STREET, JENISON, MICHIGAN.

RECITALS

WHEREAS, Georgetown Charter Township (the "Township") has previously established an industrial development district (the "Development District") for the properties in the Township commonly known as 6722 18th Avenue, Jenison, Michigan 49428 (PPN: 70-14-22-400-037); 1675 Chicago Drive, Jenison, Michigan 49428 (PPN: 70-14-22-400-038); and 1725 Port Sheldon Street, Jenison, Michigan 49428 (PPN: 70-14-22-400-042) (with these three parcel collectively referred to herein as the "Properties"), pursuant to the Michigan Plant Rehabilitation and Industrial Development Districts Act, PA 198 of 1974 (hereinafter, "PA 198"), as amended;

WHEREAS, the Township Board recognizes that there are no longer any industrial facilities exemption certificates remaining in effect for the Properties as of the date of this Resolution;

WHEREAS, due to the expiration of all previous industrial facilities exemption certificates, the Township Board no longer believes that it is necessary to maintain the Development District for the Properties and wishes to terminate it in accordance with Section 4 of PA 198;

WHEREAS, a public hearing has been held on the issue of the proposed termination of the Development District for the Properties, and written notice of the public hearing was provided by certified mail to the current owner(s) of the Properties, at least 14 days prior to the date of the public hearing.

RESOLUTION

NOW, THEREFORE, BE IT RESOLVED as follows:

1. The Recitals above are hereby incorporated into this Resolution as if restated herein verbatim.

2. The Township Board finds that the Development District located at 6722 18th Avenue, Jenison, Michigan 49428 (PPN: 70-14-22-400-037); 1675 Chicago Drive, Jenison, Michigan 49428 (PPN: 70-14-22-400-038); and 1725 Port Sheldon Street, Jenison, Michigan 49428 (PPN: 70-14-22-400-042), meets the legal qualifications to permit the Township Board to terminate the Development District for the Properties.

3. Having considered all of the comments presented at the public hearing on the proposed termination of the Development District, the Development District located at 6722 18th Avenue, Jenison, Michigan 49428 (PPN: 70-14-22-400-037); 1675 Chicago Drive, Jenison, Michigan 49428 (PPN: 70-14-22-400-038); and 1725 Port Sheldon Street, Jenison, Michigan 49428 (PPN: 70-14-22-400-042), is hereby terminated.

4. The Township Superintendent, or his/her designee, is hereby authorized to take any and all further reasonable action required to termination of the Development District for the Properties, as specified in this Resolution.

5. This Resolution is effective immediately, and it shall supersede any prior inconsistent resolutions of the Township Board.

NOVEMBER 2025

November Around District 4

Overview

During November 2025, the Ottawa County Sheriff's Office responded to a total of 2,034 calls for service within the eastern district of Ottawa County.

Traffic Activity

- Deputies responded to 229 traffic crashes across the district.
- A total of 964 traffic contacts were made throughout the month.

School Outreach

- School Resource Officers continue to have a presence in their districts.

Community Engagement

- Deputies maintained regular neighborhood patrols and selective enforcement initiatives throughout the district.
- High-visibility traffic enforcement was conducted along major roadways to enhance public safety.
- No events on the calendar ahead.

Training

- The Critical Response Team, Dive Team and Drone Team completed their monthly training sessions.
- Several online trainings were completed by staff. These trainings will assist staff as they prepare for January in-service.

Day-Time Road Patrol Supervision

I would also like to introduce the East District's daytime road patrol supervision team. Sergeant Michael Tamminga is assigned to A Squad, and Sergeant Jon Smoes is assigned to B Squad. You may see Michael or Jon visiting your township or city, they are available to assist with any questions or concerns if I am unavailable.

JHA QUARTERLY

Newsletter of the Jenison Historical Association Vol. 4 – 2025

A peaceful winter's day at Hager Park's picnic pavilion at 8212 - 28th Ave Jenison, MI 49428. This photo could have been taken any winter day from the last 65 years as not much has changed in this area of the park. Mr. and Mrs. Titus Hager donated 33 of the park's current 104 acres. Originally called Hager Hardwood Forest, over the years the park has been home to a lumbering museum, stump pullers, and an arboretum. The giant terrain map of the United States remains and was recently restored. The park hosts the Age of Discovery Playground built in 1992. For more information about Hager Park, visit miottawa.org. From the Editor

At our Holiday Open Houses, docents often get asked by museum guests about items in the house and if they were authentic to the early 1900s. During the last year there seemed to have been a lot of questions related to Christmas décor on display in the museum. Some of the questions were asked by children, some by adults and even a few docents had questions.

- * *What kind of ornaments were on trees in the early 1900s?*
- * *Were poinsettia plants around in 1902?*
- * *Did Christmas trees get flocked?*
- * *Did they have tinsel on the tree?*
- * *Did they bake Gingerbread men?*
- * *What did they use for wrapping paper?*
- * *Why don't the trees have any lights?*

Last January, we disposed of the children's tree that was on display in

the back parlor. A search for a new tree started the ball (or should I say ornament) rolling.

We researched ornaments, poinsettias, flocking, tinsel, gift wrap and gingerbread men to come up with answers to these questions.

We researched trees in the 1900s and purchased a new one that was similar to a natural tree that might have been found outdoors at that time. Those trees tended to be spindly, which provide a lot of space for hanging ornaments!

One of our volunteers made new period appropriate ornaments for our children's tree. We rewrapped Christmas presents in tissue. We hung garland and placed poinsettias around the house. And now we are looking forward to you joining us at one of our Holiday Open Houses. Until then, merriest of Christmas wishes to you!

Jenison Historical Association Hosts Holiday Open Houses

Join us December 6, 2025 from 1-4 p.m. or January 3, 2026 from 2-4 p.m. for our annual Holiday Open Houses. The museum is decorated for Christmas and docents will be dressed in period costumes. Guests are free to explore the museum and learn more about the displays, information and artifacts on each of the 4 floors. The West Michigan Community Chorale will be caroling with us at the December open house from 2-3pm.

There is no charge to attend, although donations are always welcome to help maintain the museum and the work of the Jenison Historical Association. If our parking lot is full, additional event parking is available in the lot of the church across the street.

Decking the Halls...

the parlors, the dining room, and the exterior of the museum is a big task but many hands make light work and we sure have a lot of hands to get the decorating done each year. Here is a bit of information about the accuracy of holiday decorating in the Jenison Museum from questions asked by volunteers and visitors.

Were poinsettia plants around and used as Christmas décor in 1902?

The quick answer is yes, they were around. Poinsettias are found on magazine covers and Christmas postcards from that time.

In the early 1800s, Joel Robert Poinsett, U.S. ambassador to Mexico, visited Taxco and was intrigued by the “red flower.” Poinsett took cuttings back to South Carolina and grew them in his greenhouse. He cultivated and shared this the plant, which was later named in his honor. The flowers are actually the yellow in the center of the colorful bracts (leaves). There are over 100 varieties of the plant and they can grow to be 10’ tall.

Did Christmas trees have flocking?

Surprisingly, yes. Flocked Christmas trees date back to the 1800s. The first flocked trees were created by German glass blowers who would flock their trees with a mixture of corn starch, cotton, and glue. The use of soap flakes or dustings of flour or cornstarch are also noted as ways to flock or powder a tree for the holidays. Feathers were also used but they didn’t stay attached to the branches very well.

Did they put tinsel on the tree?

Yes. Tinsel as we know it was started around 1610 and was originally made from extruded strands of silver which reflected light. Other shiny metals that didn’t tarnish were later substituted. Before trees had electric lights, individual candles were clipped to the tree branches. The tinsel magnified the twinkling of the candles on the tree. Tinsel was said to have been inspired by stars twinkling over snowy woods.

Did they bake Gingerbread men?

They sure did. Germany, France, the Netherlands and the British Isles are where gingerbread traditions started. English recipes used sugar instead of honey near the end of the 16th century and molasses by the mid-17th century. The addition of butter and cream gave us recipes that taste and have the texture of gingerbread cookies of today. The spices in gingerbread were thought to help keep one warm in Winter.

What did they use for wrapping gifts?

Gift giving became popular during the Victorian Era. Before that time, elaborately decorated Christmas cards were exchanged. Gifts were presented wrapped in plain paper tissue. In 1917, the Hall Brothers (of Hallmark) ran out of tissue at their store and substituted colorful envelope lining paper. They sold out of the paper immediately.

Happy Birthday Mrs. Margaret Husband

Margaret J. (Morrison) Husband was born in Ontario, Canada on Christmas Day in 1844. Her parents immigrated from Scotland. She was the oldest of ten children.

Before Margaret married Levi A. Husband in 1868, she taught school and considered missionary work. The Husbands eventually settled in Nashville, TN. In 1871, they had a daughter, Elizabeth, known as “Bessie,” and then a son, William, in 1874.

In early 1880, the family came to Michigan where Levi found employment with the Jenison family as a foreman/bookkeeper. In June of that same year, their 5 year old son died of pneumonia. Levi died in 1889 and Margaret took over as manager & bookkeeper of the businesses owned by the Jenison brothers. She was described as having a “rare business ability” and was “closely identified with both business and social life” in Jenison.

When Lucius and Luman Jenison died in 1899, they left Margaret and her daughter, Bessie, \$150,000. The house that is now home to the Jenison Museum was built by Margaret and her daughter in honor of the Jenison brothers at a cost of \$13,000.

Gifting Jenison History

The Jenison Museum offers a small selection of gifts including keyrings for \$3, a notecard set for \$3, and a brass ornament in a gift box featuring the Jenison Mills for \$10. A variety of prints priced \$10 or under are available including those featuring Jenison Mills, a Pride of the Valley Flour promotional poster and other local landmarks.

Also on our shelves is the newly reprinted *Bend in the River*. Originally published in 1973, the book covers the history of Grandville and Jenison from 1832-1972. The book sells for \$25 and is a great gift for local history buffs or those new to our area.

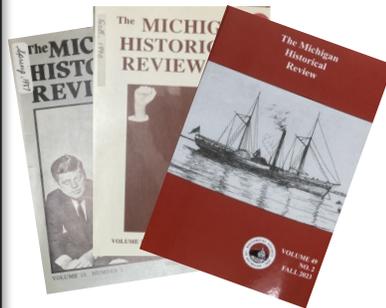

Jenison Electric Park, is an illustrated historical profile of the lakeside resort and its beloved amusement park that blossomed at the turn of the twentieth century. Located on the shores of Black Lake (Lake Macatawa since 1934), it rose to popularity during the gentle era of steamship travel, electric railroads, and the twilight of the horse and buggy. Families, church groups, and other vacationers sought refuge from the summer heat on the shaded lawns cooled by lake breezes. This book brings a life to a forgotten time in Michigan's fascinating history. This book sells for \$27.95.

Items can be purchased at the Holiday Open House or by calling (616) 457-4398 to make arrangements to stop by during work hours at the museum to purchase items.

LHR Seeking Michigan Historical Review Issues

Our year book search continues and we are also trying to fill the gaps in our Michigan Historical Review collection for the LHR (Local History Room). Please consider donating back issues to us if you have any that need a new home. Book donations may be given to a JHA board member, dropped off at the main desk of the Georgetown Library during library hours, or to the library's LHR on Wednesdays between 11 am and 1 pm. Be sure to leave your name and contact information with your items so that we may thank you properly.

A Recent Acquisition

This bedside chair was recently donated to the Jenison Museum by Mary Ann and Gary Church. The decoratively carved wooden chair is covered in fabric with a needlepoint design on the back and cushion.

Chairs were helpful in the bedroom, especially from the 17th to early 19th century, when dressing was a complicated and lengthy task for women who had to put their shoes on before their stays, as bending over after fully dressed was difficult, if not impossible.

Stays are structured undergarments similar to a corset, that helped support and shape the torso.

Often made of linen or cotton and stiffened with boning (like whalebone, wood, or cane), they were worn by people of all classes, from children to adults. They supported the bust, improved posture, and provided a base for fashionable silhouettes.

Discover Georgetown Library's Local History Room

In partnership with Georgetown Township Public Library, JHA maintains the Local History Room in the lower level of the library. Available in the history room are:

- Files & Books
- Newspaper Articles
- Genealogies
- Slide shows
- Maps and Pictures
- And many other types of resources

Members of the Jenison Historical Association staff the room on Wednesdays, from 11am to 1pm.

You may make arrangements to visit the room at other times by contacting history room staff by leaving a message at (616) 457-4398 or contacting us by email info@jenisonhistory.org.

The Jenison History Room is located in the Georgetown Township building at 1525 Baldwin. From the main library entrance, take the stairs to your left down. For elevator access, enter through the township offices.

JHA Members, Volunteers and Donors Keep Jenison and Georgetown History Alive

JHA membership dues and volunteers help maintain the house by funding and fulfilling the mission of the Jenison Historical Association. Membership is currently just \$10 per year and makes a great gift for local history buffs, those with connections to our area, or those new to the area who want to learn more about our history.

To renew or begin your membership, fill out the form below and return it with a check made out to Jenison Historical Association.

To get started volunteering, indicate your area of interest on the form and mail it or reach out to us via phone or email.

Tax deductible donations or gifts *in honor of* or *in memory of* someone are also a way to contribute to our mission. For more information, contact us at (616) 457-4398, visit jenisonhistory.org or send an email to info@jenisonhistory.org.

GEORGETOWN TOWNSHIP FIRE DEPARTMENT

December 2025 CRR Report

- Responded to 60 Fire & EMS calls for service and logged 7 hours of Training including online continuing education EMS training “EMS Rapid Secondary Assessment”
- Completed IT Security Awareness Training “How to Protect Credentials Using Multifactor Authentication”
- Completed Monthly AED checks for township buildings (Library, DPW, Cemetery/Parks building, Senior Center, Township Offices)
- Processed and Verified Payroll for Paid on call staff. This includes reviewing all pay sheets & verifying all information entered in Image Trend system was accurate and worked with officers and members to resolve any discrepancies. Starting on December 1, 2025, the Image Trend reporting system was updated to meet new reporting requirements. This caused some significant challenges for the Paid-on payroll as much of the data had to be re-entered.
- Conducted 3 Home safety Surveys and installed 6 Smoke Alarms, 9 CO/Gas Alarms. A total of 17 Alarms were installed. I am still waiting for more smoke alarms from MI Prevention. We are hoping to receive more alarms in January of 2026. We have 8 residents on the waiting list

(Resolution No. _____)

At a regular meeting of the Township Board for the Charter Township of Georgetown held at the Township offices on _____, 2025 at _____ p.m., this Resolution was offered for adoption by Township Board Member _____ and was seconded by Township Board Member _____:

A RESOLUTION TO TERMINATE THE INDUSTRIAL DEVELOPMENT DISTRICT FOR THE PROPERTY LOCATED AT 6778 18th AVENUE, JENISON, MICHIGAN.

RECITALS

WHEREAS, Georgetown Charter Township (the “Township”) has previously established an industrial development district (the “Development District”) for the property in the Township commonly known as 6778 18th Avenue, Jenison, Michigan 49428 (PPNs: 70-14-22-400-029; 70-14-22-400-030) (hereinafter, collectively the “Property”), pursuant to the Michigan Plant Rehabilitation and Industrial Development Districts Act, PA 198 of 1974 (hereinafter, “PA 198”),

as amended;

WHEREAS, the Township Board recognizes that there are no longer any industrial facilities exemption certificates remaining in effect for the Property as of the date of this Resolution;

WHEREAS, due to the expiration of all previous industrial facilities exemption certificates, the Township Board no longer believes that it is necessary to maintain the Development District for the Property and wishes to terminate it in accordance with Section 4 of PA 198;

WHEREAS, a public hearing has been held on the issue of the proposed termination of the Development District for the Property, and written notice of the public hearing was provided by certified mail to the current owner(s) of the Property, at least 14 days prior to the date of the public hearing.

RESOLUTION

NOW, THEREFORE, BE IT RESOLVED as follows:

1. The Recitals above are hereby incorporated into this Resolution as if restated herein verbatim.
2. The Township Board finds that the Development District located at 6778 18th Avenue, Jenison, Michigan 49428 (PPNs: 70-14-22-400-029; 70-14-22-400-030), meets the legal qualifications to permit the Township Board to terminate the Development District for the Property.

**GEORGETOWN CHARTER TOWNSHIP
OTTAWA COUNTY, MICHIGAN
(Resolution No. _____)**

At a regular meeting of the Township Board for the Charter Township of Georgetown held at the Township offices on _____, 2025 at _____ p.m., this Resolution was offered for adoption by Township Board Member _____ and was seconded by Township Board Member _____:

A RESOLUTION TO TERMINATE THE INDUSTRIAL DEVELOPMENT DISTRICT FOR THE PROPERTIES LOCATED AT 1765 CHICAGO DRIVE, JENISON, MICHIGAN; 6722 18th AVENUE, JENISON, MICHIGAN; AND 1725 PORT SHELDON STREET, JENISON, MICHIGAN.

RECITALS

WHEREAS, Georgetown Charter Township (the “Township”) has previously established an industrial development district (the “Development District”) for the properties in the Township commonly known as 6722 18th Avenue, Jenison, Michigan 49428 (PPN: 70-14-22-400-037); 1675 Chicago Drive, Jenison, Michigan 49428 (PPN: 70-14-22-400-038); and 1725 Port Sheldon Street, Jenison, Michigan 49428 (PPN: 70-14-22-400-042) (with these three parcel collectively referred to herein as the “Properties”), pursuant to the Michigan Plant Rehabilitation and Industrial Development Districts Act, PA 198 of 1974 (hereinafter, “PA 198”), as amended;

WHEREAS, the Township Board recognizes that there are no longer any industrial facilities exemption certificates remaining in effect for the Properties as of the date of this Resolution;

WHEREAS, due to the expiration of all previous industrial facilities exemption certificates, the Township Board no longer believes that it is necessary to maintain the Development District for the Properties and wishes to terminate it in accordance with Section 4 of PA 198;

WHEREAS, a public hearing has been held on the issue of the proposed termination of the Development District for the Properties, and written notice of the public hearing was provided by certified mail to the current owner(s) of the Properties, at least 14 days prior to the date of the public hearing.

RESOLUTION

NOW, THEREFORE, BE IT RESOLVED as follows:

1. The Recitals above are hereby incorporated into this Resolution as if restated herein verbatim.

2. The Township Board finds that the Development District located at 6722 18th Avenue, Jenison, Michigan 49428 (PPN: 70-14-22-400-037); 1675 Chicago Drive, Jenison, Michigan 49428 (PPN: 70-14-22-400-038); and 1725 Port Sheldon Street, Jenison, Michigan 49428 (PPN: 70-14-22-400-042), meets the legal qualifications to permit the Township Board to terminate the Development District for the Properties.

3. Having considered all of the comments presented at the public hearing on the proposed termination of the Development District, the Development District located at 6722 18th Avenue, Jenison, Michigan 49428 (PPN: 70-14-22-400-037); 1675 Chicago Drive, Jenison, Michigan 49428 (PPN: 70-14-22-400-038); and 1725 Port Sheldon Street, Jenison, Michigan 49428 (PPN: 70-14-22-400-042), is hereby terminated.

4. The Township Superintendent, or his/her designee, is hereby authorized to take any and all further reasonable action required to termination of the Development District for the Properties, as specified in this Resolution.

5. This Resolution is effective immediately, and it shall supersede any prior inconsistent resolutions of the Township Board.

The vote to adopt this Resolution was as follows:

#251208-04 – (PUD2501) (Ordinance No. 2025-08) Rubicon, LLC, is requesting (rezoning from LDR to PUD) approval for preliminary planned unit development for 44th St. & 8th Ave. PUD, a mixed use PUD with residential, commercial and office uses, on 12.11 acres, on parcels of land described as P.P. # 70-14-25- 100-051 and #70-14-25-100-052, located at 6124 and 6110 8th Ave. Georgetown Township, Ottawa County, Michigan.

Moved by Gary Veldink, second by Amy Grasman, to open the public hearing.

MOTION CARRIED UNANIMOUSLY

Members of the public were present. Comments were made by the following:

- Pam Westen, 640 44th St.
- Laura Johnson, 668 44th St.

Moved by Gary Veldink, seconded by Kelly Kuiper, to close the public hearing.

MOTION CARRIED UNANIMOUSLY.

**Georgetown Charter Township
Ottawa County, Michigan
(Ordinance No. 2025-08)**

At a regular meeting of the Georgetown Charter Township Board held at the Township offices on December 8, 2025, beginning at 7:00 p.m. and after the first public hearing was held by the Planning Commission and the second public hearing was held by the Township Board, Township Board Member Gary Veldink made a motion to adopt the staff report as finding of fact and to adopt this Ordinance, as recommended by the Planning Commission, which motion was seconded by Township Board Member Amy Grasman:

**AN AMENDMENT TO THE GEORGETOWN CHARTER TOWNSHIP ZONING
ORDINANCE, AS AMENDED, AND MAP**

THE CHARTER TOWNSHIP OF GEORGETOWN (the “Township”) ORDAINS:

ARTICLE 1. The map of the Georgetown Charter Township Zoning Ordinance, as amended, is hereby amended to read as follows:

(PUD2501) (Ordinance No. 2025-08) Rubicon, LLC, to approve (rezoning from LDR to PUD) a preliminary planned unit development for 44th St. & 8th Ave. PUD, a mixed use PUD with residential, commercial and office uses, on 12.11 acres, on parcels of land described as P.P. # 7 0-14-25- 100-051 and #70-14-25-100-052, located at 6124 and 6110 8th Ave., Georgetown Township, Ottawa County, Michigan.

As shown on the following documents:

1. Application dated 9-25-2025 and narrative dated rev 9-30-25;
2. Nederveld Site Plan Proj. No. 24201810 dated 9-30-25;
3. Elevations and floor plans provided for the townhomes, multi-family building, and commercial buildings.
4. Separate sheet to be provided to Zoning Administrator with additional greenbelt/existing garage information as stipulated.

Based on the determinations that:

1. **The proposal is consistent with the Master Plan.**
2. **The proposal meets the ordinance requirement for pedestrian walkways.**
3. **The proposal meets the ordinance requirement for architecture.**
4. **The proposal meets the ordinance requirement for traffic.**
5. **The proposal meets the ordinance requirement for open space.**
6. **The proposal meets the ordinance requirement for uses that are allowed.**
7. **The proposal meets the standards of approval.**

Based on the findings that:

1. The information as per Sec. 22.5 is provided.
2. The plan meets the ordinance requirements of Sec. 22.10 as follows:
 - a. The qualifying conditions in Sec. 22.2 are met;
 - b. The proposed PUD is compatible with surrounding uses of land, the natural environment, and the capacities of public services and facilities affected by the development;
 - c. The proposed uses within the PUD will not possess conditions or effects that would be injurious to the public health, safety, or welfare of the community;
 - d. The proposed project is consistent with the spirit and intent of the PUD District, as described in Section 22.1 and represents an opportunity for improved or innovative development for the community that could not be achieved through conventional zoning;
 - e. The proposed PUD meets all the site plan requirements of Chapter 22 including Section 22.8, D.

3. The deviations, regulatory modification from traditional district requirements, are approved through a finding by the Planning Commission that the deviations shall result in a higher quality of development than would be possible using conventional zoning standards. Deviations are as follows:
 - The site is 12.11 acres, and the application is for a mixed use PUD which is required to have a minimum of 20 acres per the qualifying conditions in Sec. 22.2 (A).
 - Keep the existing 546 SF garage located in the southeast corner of the lot, provided it will be updated to match the architectural theme of the PUD.

And with the following conditions:

1. **As per Sec. 22.2(B), the site shall be serviced by public water and sanitary sewer, which is to be coordinated with the Department of Public Works. Approval of the utility plans shall be obtained by the DPW and the \$15,000 escrow fee shall be provided to the township prior to the submission of any building permit applications.**
2. **A Storm Water Drain Permit (written approval by the Water Resource's office) shall be submitted to the Township prior to the submission of any building permit applications.**
3. **As per Sec. 22.11, a recorded PUD agreement shall be submitted to the Township prior to the submission of any building permit applications.**
4. **Approved permits are required for all signs and all signs shall meet ordinance standards if one is applied for in the future.**
5. **Approval from the Ottawa County Road Commission, along with any necessary permits, shall be obtained and submitted prior to the submission of any building permit applications.**
6. **The parcels 70-14-25-100-051 and 70-14-25-100-052 must be combined prior to the submission of any building permit applications.**
7. **The residential and commercial buildings shall provide for coordinated and innovative visually appealing architectural styles, building forms, and building relationships.**
8. **No deviation is requested for the elimination of the garage requirement because garages have been provided. There is a minimum of 200 SF attached garages on the residential units.**
9. **The PUD shall hold the zoning of NS, Neighborhood Service Commercial and uses in the NS district are allowed excluding: assembly buildings, vehicle service stations, mortuaries and funeral homes, outdoor storage, and drive-through facilities.**
10. **The existing garage in the southeast corner of the property may remain where it is built, so long as it is updated to become architecturally similar to the new development.**
11. **A greenbelt buffer shall be planted and maintained with the idea that its purpose is to block light and sound pollution from neighboring lots year-round with evergreen trees along the south property line.**

Severability. In the event that any one or more sections, provisions, phrases, or words of this Ordinance shall be found to be invalid by a court of competent jurisdiction, such holding shall not affect the validity or the enforceability of the remaining sections, provisions, phrases, or other words of this Ordinance.

Except as specified above, the balance of the Georgetown Charter Township Zoning Ordinance, as amended, and map shall remain unchanged and in full force and effect.

Effective Date. The provisions of this Ordinance shall take effect upon the expiration of seven (7) days from the date of publication of this Ordinance or a summary of its provisions in accordance with the law.

There was discussion among the Board members about screening concerns raised by the members of the public during the public hearing. The consensus of the Township Board was that it was understood that the language in the motion states that a greenbelt must be maintained along the entire adjacent residential property on all sides.

The vote in favor of adopting this Ordinance was as follows:

#251208-05 – (PUD2502) (Ordinance No. 2025-09) Nevada Creek Development, Ottawa Land Investments LLC, 1188 East Paris Ave., is requesting to change from PUD to REVISED (PUD) Planned Unit Development zoning for the Lowing Woods PUD for single-family detached home sites, townhomes, ranch condominiums, villa units, terrace units, clubhouse, open spaces and other amenities on the following parcels of land: P.P.# 70-14-05-400-050, P.P. # 70-14-05-400-051, P.P. # 70-14-05-400-052, P.P. # 70-14-05-400-053 P.P. # 70-14-05-400-055, P.P. # 70-14-05-445-013, P.P. # 70-14-05-445-014, P.P. # 70-14-04-300-043, P.P. # 70-14-04-300-041 and P.P. # 70-14-05-400-022, located north of Taylor St., Georgetown Township, Ottawa County, Michigan.

As per the motion at the beginning of the meeting, Kelly Kuiper recused herself due to a conflict of interest related to employment. She stepped down from the Board members' desk and sat in the audience.

Jim Weirenga stated the following. He appreciated all the background information that was provided regarding both PUDs. This PUD was initially approved around 2004 and has been revised throughout the years. This application is requesting to go from an already approved PUD to a modified PUD. There already has been an approval for this preliminary PUD and there will be something developed there. It is just a question of what and whether or not the Board members determine that this revised PUD meets ordinance requirements.

Moved by Gary Veldink, seconded by Amy Grasman, to open the public hearing.

MOTION CARRIED UNANIMOUSLY

Members of the public were present. Public comments were made by the following:

- Pete Plowman 6877 Creek Ridge Ct

Moved by Gene DeWitt, seconded by Amy Grasman, to close the public hearing.

MOTION CARRIED UNANIMOUSLY.

Jim Wierenga stated the following. Just like with the previous PUD, there are various standards that were brought to their attention. The Planning Commission has reviewed this plan and recommended approval of the PUD ordinance. He asked the applicant to give an overview.

Michael McGraw, Eastbrook Homes, Nevada Creek Development Company, 1188 East Paris Ave. SE, Ste. 100, represented the applicant and presented the request, including detailing the highlight of the plan and answering questions. He noted that there were a variety of different home types with around 1,500 to 2,000 square feet, some ranches and some two-stories, but no basements.

Gene DeWitt asked if any kind of shelter would be provided for a tornado shelter, or other such necessary things, for people to go to if needed.

The applicant stated no and they have been building slab on grade as a substantial part of their offering for about 10 years.

Amy Grasman asked where the six-foot privacy fences would be located and the applicant pointed it out, explaining the situation.

Gene DeWitt asked if there could be a connection to 36th Ave. for emergency vehicles and buses.

The applicant said there were more connections than other developments had and there were many different ways to get out and many internal connections.

Gene DeWitt stated that it would be easier if there was a connection to 36th Ave. even for construction.

The applicant stated that they already had connections here and it was planned out very well.

Jim Wierenga asked if he was talking about sequencing.

The applicant explained the two existing accesses.

Jim Wierenga asked how wide the other streets in the development were and the applicant stated that the public streets were the standard 66-foot rights-of-way with 30 feet of pavement, the same as all standard streets. Jim Weirenga asked what the width of the private street pavement was. He also stated he had his biggest concerns were with the width of the streets and alleys. He asked how many units there were and was told 121.

It was noted that the pavement of the alleys was only 20 feet wide and the perimeter private road was 26 feet wide.

Michael McGraw stated that 26 feet is consistent with the other private roads, the 20-foot roads were not at all uncommon, and there were developments with narrower roads. He said that the Fire Department reviewed and approved the roads.

Jim Weirenga stated that even if the minimum standards of the Fire Code were met, that does not necessarily mean the health, safety and welfare standard is met from the standpoint of the Board to protect the residents. He understood that it was passed by the Fire Department but he was still concerned with the width of the alleyways and asked if that was previously brought up.

The applicant said no concerns were raised by the Planning Commission in respect to the width of the alleyways.

Jim Weirenga asked if concerns were raised about traffic safety and pedestrian safety in general.

The applicant stated that no concerns were raised about safety with the alleys or the interior design, but only primarily concerns about Fillmore were raised at the Planning Commission, mostly concerning traffic and pollution, not related to the interior design.

Amy Grasman asked what the Fillmore people complained about and was told they were concerned with traffic and pollution.

Jim Weirenga stated that the single-family homes around the outside were more semi-traditional even though they were close together and they had access to the 26-foot private road, but his concerns were more about the alleyways because that is the street that they face. He asked if that was the front of the site.

The applicant stated the following. If you were asking him, no; however, the way the ordinance is written the front is on the road. He has never heard that before. But they do have the road in front and the alleys provided the only vehicular access to these sites that were not on the perimeter road.

Jim Weirenga asked where additional people park, other than in the garage or the two spaces on the driveway, when it is the holidays or a graduation party. He noted where additional parking was provided. However, he said he knows what they will do realistically, even though additional parking spaces are provided.

Michael McGraw stated that each site had two parking spaces in the garage and an additional two spaces on the driveway, which is similar to traditional single-family houses, and additionally extra parking spaces are provided at the ends of the alley.

Amy Grasman said that she agrees with Jim Weirgenga's concerns.

Jim Weirenga noted that if he was carrying food to one of these units in January, he would not carry it from one of additionally provided parking spaces that were a distance away, but rather would find a way to "jimmy" his car in one of the spaces in the driveway, or else he would find a way to park on the side of the alley. He said that there is little distance to the narrow alleyway. He also noted that if a child was playing, it would be dangerous if a ball went out in the alley.

Michael McGraw said that couldn't happen and they should go downtown to see how there are similar layouts. He can't say no one is going to do that, but they provided additional parking spaces.

Jim Weirenga asked if he had directed them to visit Macatawa Legends.

Michael McGraw stated that portions of Macatawa Legends were similar in some respects but not as good as Cooks Crossings.

Jim Weirenga stated the following. Macatawa Legends had more roadways and wider pavements. He lived in Grandville where there were alleys with small garages. But even those units had frontage on a public road where you could park, along with the alleys, which gave more space. There were more options. He doesn't see the proposed traffic and parking setup as safe.

Michael McGraw stated the following. Every time they had an opportunity to create a community with options to face greenspace, Macatawa Legends wasn't a great example, they designed the layout of the units to face greenspace. They are similar to those on the ends. The ones on the green space are more desirable and what customers wanted. They created those types of units every time they had the opportunity because those are most desirable. This meets all the requirements of the Fire Department, who is the most important agency to look at it. When roadways are developed, they must talk to the Road Commission. When drains are constructed, they must talk to the Water Resources Commission as to how to design it. The Fire Department is the one who has the say in the roadways and alleys.

Jim Weirenga stated that when talking about a potential fire truck or other larger emergency vehicles driving in the alleys, it is different than the general day-to-day safety of vehicles driving on the alleys. It is part of the Board's responsibility to make sure all of it is safe.

Gary Veldink said that these are not Road Commission roads because they are private roads.

Michael McGraw said that he understands that but was just making a point that the Fire Department has purview over this aspect, including radius and width. They did look at the width, eyebrows, geometry and specifically the design. That is how and why they designed it and he did not expect a lengthy discussion because they thought they had discussed this with the agency that has the purview over that. It was approved by the agency he thought had to approve it.

Gary Veldink stated the following. His concern is that it looks great right now, but it is so dense, what about when there is snow. He sees a huge issue when trying to remove snow from this area. Snowbanks do create issues for fire trucks and other vehicles because if the corners are not cleared out there are problems.

Jim Weirenga stated that he wouldn't limit that comment to fire trucks because it is a general issue for the health, safety and welfare of residents for additional vehicles.

Gary Veldink stated that it is pretty dense when they had to start taking snow away from those areas. Those areas are not going to be plowed by the Road Commission, but rather private companies.

Michael McGraw said that he didn't want to argue with the Board, but rather he just came to present what they designed. He doesn't have concerns about this. He visited a site today and there was not a problem. They hire professionals to plow snow.

It was clarified that there were at a minimum two stall garages and some units had three stall garages.

Jim Weirenga stated the following. They are not arguing but rather giving the applicant an opportunity to address some of the Board's concerns. Regarding the applicant's point about the roads being the purview of the Fire Department, the Board has to evaluate this entire plan based on

the standards in the ordinances. He understands that they are reviewing the Planning Commission's recommendation as well and they do a great job. He appreciates what they bring to the Board. However, the Board must independently as a body review these applications for their determination of compliance with ordinance standards.

Michael McGraw stated the following. The conversation at the Planning Commission related to the alley width was basically that there were some things that still had to be resolved about how fire and safety are handled for the center six-unit buildings in each run. Outside of that they placed faith that the Fire Department had done their review and approved it from that standpoint.

Jim Weirenga asked the applicant to address sidewalks and the fact that there might be some requests for waivers from the sidewalk ordinance. He asked if the plan depicts all the sidewalks that will be in the plan or are some required sidewalks just not shown on the plan in anticipation of them being waived.

Michael McGraw stated the following. This is a depiction of how they would like to build the project, not showing some of the required sidewalks that they would be requesting waivers for, and this was how it was presented to the Planning Commission. (*He pointed out the areas where sidewalks are required but not shown.*) Sidewalks were shown on the inside throughout the project and waivers would be needed because they would be required on both sides of the road on the outside ring. The sidewalks were put on the inside with the thought being that pedestrians would not cross the driveways like they would if they were installed as required. They have never provided sidewalks for a rear loaded development but technically they would be needed in the alley. It makes more sense to place sidewalks on the greenspace and not on the alley. They consider the front to be on the greenspace and the side adjacent to the street as the rear, even though that does not meet the definitions in the ordinance for front and rear yards. They have never put sidewalks in any alleys in any projects ever because it made more sense this way to not have them in the alley.

Gary Veldink asked if the entire project would be condominiums.

Michael McGraw said yes, there will be multiple condominium associations and snowplowing, fertilization, trash, mowing and weed removal will be taken care of by the association other than what he pointed out.

Gary Veldink asked about mail and was told there would be a central area, dictated by the postal carrier, with no individual mailboxes.

Jim Weirenga asked about garbage and trash pickup and was told it would be individually picked up at each site.

John Schwalm stated the following. He is on the Utilities Committee and is concerned about the following: lack of required sidewalks shown, the 20-foot width of the alleys which are considered the private streets providing the only access to some of the units, snow removal, garbage trucks using the narrow 20-foot alleys, visitors having to drive to one of the other parking areas and walk to the home. If a person goes to visit a homeowner and there is no spot available in the driveway, they will just park on the alley. Then if a snowplow truck or a garbage truck tries to get down the ally, it won't work. Plus, he is concerned with snowplowing. He said that this is unique but is worried about traffic and about safety.

Michael McGraw stated the following. This layout may be unique to here, but it is not unique to many places. It is not uncommon in other residential communities to have alley-loaded homes that front on park space. He wished they would have spent more looking at the photography because he thinks the Board members are missing the benefit of something that is not the same as everything else around here. With some of the dimensional challenges aside, he asked if it would make a difference if the alley was 26 feet. They still would not want people to park there, and people would be directed to not park there. He has never once driven through a community like this where people have parked in the alley and that is the reason that there are other transient spaces available for visitors. The longest distance to walk is about 200 feet.

Gene DeWitt asked if signage would be installed about no parking in the alley.

Michael McGraw said that the Zoning Administrator would know more about the requirements for signage than he knows, but they would fulfill the requirements.

John Schwalm said that children have to cross the street to get to the sidewalk.

Michael McGraw said the following. Yes, but there are multiple condominium projects within the Township that have no sidewalks, two of which exist inside Lowing Woods. These were built and approved by the Township with no sidewalks. So, it is not without precedent. Yes, they have to cross a street once, but they do not have to cross 46 driveways as they are going around the perimeter when people are backing out. This is just a different way, and they are not totally opposed to adding more sidewalks but just showed how they want to develop this land.

John Schwalm asked if the Township Board approved a variance for those developments to not have sidewalks or was that before there was a requirement.

Michael McGraw said that he didn't know and he has been a part of the company since 2005 but was out of state for ten years. He didn't know, but if the previous applications were contentious, he would have been here and not the engineer. There are two streets that do not have sidewalks.

Gene DeWitt said the following. He was in favor of this plan. He went to the Planning Commission meeting and they will be able to meet the deviations. He understands the concerns, but he likes the sidewalks on the interior and through rather than the outside. If a child has to cross a street that is only 24 feet. It is not like crossing a four-lane street like Baldwin. He would not be interested in this type of development because he doesn't want to go through a snowstorm to get to the house. But if the interest is there, we could try this concept to see how it goes. It is the perfect setting for this. It is not the way the entire Township should go, but we can try a different concept for a housing development. Plus, a concern of the Planning Commission was traffic, and this cuts it down by 47 units. That equals probably 100 plus cars that will not be there. It will be less vehicles using the Fillmore and 36th Ave. intersection and that was a concern of a lot of people. He is in favor of this, especially with the Planning Commission saying yes.

Jim Weirenga asked if he had attended the Planning Commission meeting or meetings and asked about his comments about traffic and safety concerns.

Gene DeWitt said the following. Yes, he had attended the meeting, and a concern was noted for school buses, but kids would come to the end of the road anyway. It would not be any harder to do that than go through Georgetown Forest. A concern was raised about fire, but going through the

Fire Inspector, it was met. Height was an issue, but they also guaranteed that the structures would not be over 30 feet high. If they went over 30 feet in height, they would definitely have to widen the road a little. They are working on being able to access a hundred-foot line.

Jim Weirenga asked if the Planning Commission discussed some of the concerns that Board members were raising.

Gene DeWitt said that sidewalk was talked about, but they thought that with it being provided in the interior, the other could be waived. He didn't really hear much about snow and garbage and that type of thing. If you read the minutes, they accurately describe what was said at the meeting. He did drive out to other sites at Byron Center, but he thinks this is a better layout because the other was on a hill and was more confusing.

Amy Grasman asked about the people on Fillmore and what their concerns were.

Gene DeWill said that their concerns were about water retention, but the Water Resources Commission required more storm water detention to address this. There was also a concern about streetlights, but now without leaves on the trees they could see more of the lights. Another thing was all the traffic on Fillmore. Grand Valley is getting so big they contribute to the traffic.

Jim Weirgega stated the following. The currently approved PUD is for more units than this proposal. Many times the Zoning Administrator sets up pre-application meetings for PUDs. However, this was already an approved PUD. So it was not unusual that the pre-application meeting was not held. But sometimes that flushes out some concerns. There is a dual process of approval where this application is reviewed by the Planning Commission and then comes before the Board. So sometimes it is unknown what one body thinks until it is reviewed by the other. Looking at this independently and looking at the requirements in the ordinance, Sec. 22.10 in particular, he is going to be particular and precise and not just generally come up with opinions. Looking at sections A and C of Sec. 22.10, they are standards of PUD approval, the ordinance reads that the proposed PUD must comply with all the qualifying conditions of Sec. 22.2 and also that the proposed uses within the PUD will not possess conditions or effects that would be injurious to the public health, safety, or welfare of the community. So A and C are relevant here. Looking at the qualifying conditions in Sec. 22.2, the ones that are relevant would include pedestrian requirement in letter E and traffic requirement in letter G. Moreso traffic, but also pedestrian requirements. Letters E and G of Sec. 22.2 fall under A in Sec. 22.10, standards for approval. Letter C in Sec. 22.10 which includes the health, safety, and welfare of the community. The answers provided tonight do not provide satisfaction that these standards are met. He heard that this layout works great in other places, but it works great until it doesn't, when an issue occurs. The risk is heightened, especially with the width of the alleys. It is not sufficient for the uses are intended, for parking or for pedestrians or for traffic at cross purposes, for example a garbage truck or other uses that are foreseeable. Practically speaking, people are not going to necessarily park and walk. It is a creative idea. Eastbrook does a great work. We have seen their work in this community and other communities. We are dealing with an experienced, capable, creative successful builder. The Township has a very good Planning Commission and they do a good job. They are careful. This is a judgement call and the Board is charged with exercising their judgement on behalf of the residents. The configuration of the alleyway are especially injurious to the public health, safety and welfare of the community. It can be done better, safer. He isn't going to prescribe how to do it better. What he sees with what is being proposed, he does not determine that it is in the best interest of the residents, including those who would be buying in there with eye wide open, and those that

would come after them and the guest that would come to visit them, and the third parties that would come to fix things and pick things up like garbage and the like. The pedestrian and traffic qualifying conditions are not met under Sec. 22.2 and letter A under Sec. 22.10 is met. Letter C under Sec. 22.10 is not met either.

Michael McGraw stated the following. They had the Zoning Administrator and the Fire Department review these things. This was how this was designed based on that. He thought they were the ones that had the say on the road design. They are willing to listen and to have some flexibility. This is how they got to this point. No one tonight or the other night showed up specifically for this project. Public comments were not related to this, but rather their comments were related to the people on Fillmore being able to see the houses behind them in Lowing Woods No. 15. But this is not surprising because the leaves are off the trees. Their comments were more general in nature and not specific to this. This is a 47-house reduction and that is not going to make it worse.

Gary Veldink stated that this is too close, too narrow roads, and there is no room for movement. He hasn't seen such a dense development.

Kevin Kelly said the following. He agrees. The first time he looked at this, he thought you are right on top of your neighbors. He lived in his house for 20 years and has a shared driveway and he wouldn't do it again. It is so dense that if one caught fire, it would go from unit to unit.

John Schwalm stated that he appreciates the work of this developer; however, the alley is only 20 feet wide and there is a concern, especially for garbage trucks, snow removal, and lack of sidewalks. There are very narrow alleys.

Jim Weirenga said that he had an alley too, but they had a public street out front.

Gene DeWitt stated the following. The proposal before this looks like the road might connect to 36th Ave. and that is a lot in a small space as well. An additional 47 units was crammed into that space. The Planning Commission approved this.

Jim Weirenga stated that the current PUD was approved by the Board in office at that time and this Board may have looked at it differently. The concerns raised are materially different and with the current way it is configured it presents a unique threat. Or using health, safety and welfare, he could use the work injurious. Reasonable minds are different; however, the Board is charged with considering our own residents.

Moved by Gene DeWitt to approve the proposal as presented, as recommended by the Planning Commission and with the deviations as proposed. The motion failed for lack of support.

**Georgetown Charter Township
Ottawa County, Michigan
(Ordinance No. 2025-09)**

At a regular meeting of the Georgetown Charter Township Board held at the Township offices on December 8, 2025, beginning at 7:00 p.m. and after the second public hearing was held (the first held at the Planning Commission), Township Board Member Jim Weirenga made a motion to **deny**

the application for this Ordinance which is to revise the existing PUD, which motion was seconded by Township Board Member Gary Veldink, based on the following findings:

Pursuant to Section 22.10, subsections A and C, as well as A pointing to Sec. 22.2 subsections E for pedestrian and G for traffic for the reasons as previously stated because the finding is that those standards are not met.

Sec. 22.10 STANDARDS FOR APPROVAL (both preliminary and final).

A PUD shall be approved only if it complies with each of the following standards:

(A)The proposed PUD complies with all qualifying conditions of Section 22.2.

(C)The proposed uses within the PUD will not possess conditions or effects that would be injurious to the public health, safety, or welfare of the community.

Sec. 22.2 QUALIFYING CONDITIONS.

Any development that fails to meet the following qualifying conditions, at a minimum, shall not be considered for the PUD District:

(E)Pedestrian: The PUD must provide for integrated, safe and abundant pedestrian access and movement within the PUD and to adjacent properties. (In addition, the township has a stand alone ordinance covering certain sidewalk requirements)

(G)Traffic: The PUD must provide for safe and efficient vehicular movements within, into and off of the PUD site. In addition, the PUD should integrate traffic calming techniques, along with suitable parking lot landscape islands and other similar techniques to improve parking lot aesthetics, storm water management, traffic flow and vehicular/pedestrian safety.

Jim Weirenga stated that this is not to say this can't be revised or that they have to remain with what was previously approved, but rather states that what is before them does not meet the standards in the ordinance.

The vote in favor of denying this application for the Ordinance and PUD revisions was as follows:

Yeas: John Schwalm, Jim Weirenga, Amy Grasman, Gary Veldink and Kevin Kelly

Nays: Gene DeWitt

Absent: None

Abstained: Kelly Kuiper

#251208-07 – Supervisor Comments regarding Public Comments

Jim Weirenga stated the following. They were not prepared to answer questions about specifically where this should go from here. He brought up some of his concerns to the Zoning Administrator and they get more specific when a decision needs to be made, like they just did. He used the work “opinion” but subsequently changed it to “judgment” because they are exercising their sound discretion and judgement in their positions as Board members charged with the duty and empowered by the ordinance to make the judgements that they did. He doesn’t want it to be seen as merely one’s opinion. He asked each Board member, for the purposes of this meeting, did each of the Township Board members vote on his very specific motion that sited very specific provisions of the ordinance or did they vote based on their personal preference, whether it be about density or otherwise. He asked if they voted on personal preferences.

Kevin Kelly said no.

Gary Veldink said no.

Amy Grasman said no.

#251208-10 – Preliminary Plat of Lowing Woods No. 15

As per the motion at the beginning of the meeting, Kelly Kuiper recused herself due to a conflict of interest related to employment.

Moved by Jim Weirenga, seconded by Amy Grasman, to grant approval of the layout of the Preliminary Plat of Lowing Woods No. 15, on the following parcels of land that are zoned PUD: P.P. # 70-14-05-400-050, P.P. # 70-14-05-400-052, P.P. # 70-14-05-400-053 and part of P.P. # 70-14-05-400-022 located north of Taylor St., Georgetown Township, Ottawa County, Michigan, as recommended by the Planning Commission, based on the findings that Township Ordinances have been met, as shown on the following documents:

- Sheet C-101 dated 10.22.25,
- Sheet C-102 dated 10.22.25,
- Sheet C-103 dated 10.22.25,
- Sheet C-104 dated 10.22.25
- And with the following conditions:
 - All previous approvals for signs remain in effect. Signage must meet previous approvals and sign permits must be obtained for all new signs (other than signs approved by the Road Commission for use in the road right-of-way).
 - The individual building envelopes appear to meet the minimum standards of the PUD setbacks with 25 foot front, 25 foot rear and 7 foot side setbacks. However, each building permit application will be reviewed at the time it is submitted for conformance for each individual site.
 - Sidewalks will be constructed per applicable Township Ordinances.
 - Attached garages with a minimum of 400 square feet shall be provided.
 - The open space shall be maintained by the developer and/or an association.

#251208-11 – Love Your Neighbor Resolution

Two members from Love Your Neighbor gave a presentation about what they are and what they do.

**GEORGETOWN CHARTER TOWNSHIP
 OTTAWA COUNTY, Michigan
 (Resolution No. 251208-11)**

At a regular meeting of the Township Board for the Charter Township of Georgetown (the “Township”) held at the Georgetown Township office on Monday, December 08, 2025 at 7:00 p.m., this Resolution was offered for adoption by Township Board Member Amy Grasman and was seconded by Township Board Member Gary Veldink, as recommended by the Finance Committee.

A RESOLUTION OF SUPPORT FOR LOVE YOUR NEIGHBOR

WHEREAS, Georgetown Township recognizes the importance of fostering community rooted in compassion, faith, and dignity; and

WHEREAS, Love Your Neighbor is a 501c3 organization that serves the greater Georgetown Township area with a mission of “Following Jesus Christ, who transforms lives, we equip the community to love, serve and connect with dignity”; and

WHEREAS, Georgetown Township promotes local solutions where possible and that the mission of Love Your Neighbor aligns with the Township’s commitment to civic responsibility, neighborly care, the well-being of all residents, and community building; and

ACKNOWLEDGING, the positive impact that such efforts have on public health, safety, and community cohesion, especially in challenging times; and

ACKNOWLEDGING, the successful role Love Your Neighbor played in mobilizing the community and churches to support families affected by the Federal Government shut down;

NOW, THEREFORE, BE IT RESOLVED, that the Georgetown Township Board hereby expresses its support for Love Your Neighbor and encourages residents, businesses, churches, schools, and civic organizations to participate actively in its mission; and

BE IT FURTHER RESOLVED, that the Township will explore opportunities to collaborate with Love Your Neighbor to provide greater value to all residents of Georgetown and support those who are most vulnerable.

The vote to adopt this Resolution was as follows:

Yeas: John Schwalm, Jim Weirenga, Amy Grasman, Gary Veldink, Gene DeWitt, Kevin Kelly, and Kelly Kuiper

#251208-13 – Water and Sewer Connection Rate Resolution

Gary Veldink explained that they were raising connection fees for residential and commercial connection rates because the Township needs to take in more money to repair more pipes.

Jim Weirenga stated that the Township was on the lower end of fees and this moves the Township more into the middle of the mix, and development on the Blendon side of 48th Ave. will be contributing.

Gary Veldink said that there are not as many homes being built.

Jim Weirenga clarified that this has nothing to do with water rates for the residents.

(Resolution No. 251208-10)**

At a regular meeting of the Township Board for the Charter Township of Georgetown held at the Township offices on December 08, 2025 at 7:00 p.m., this Resolution was offered for adoption by Township Board Member Amy Grasman and was seconded by Township Board Member Gary Veldink, as recommended by the Utilities Committee.

**A RESOLUTION TO UPDATE THE CHARGES FOR CONNECTION TO THE
TOWNSHIP'S PUBLIC WATER AND SEWER SYSTEMS.**

RECITALS

WHEREAS, the Code of Ordinances for Georgetown Charter Township (the “Township”) permits the Township Board, by resolution, to set the rates for property owners to connect to the Township’s public water and sewer systems;

WHEREAS, the Township Board must occasionally review and update the charges assessed to property owners for making such connections, to reflect the increases in the cost of parts, equipment, and labor to complete such connections;

WHEREAS, the Township Board now wishes to update the charges assessed for connections to the Township’s public water and sewer systems.

RESOLUTION

NOW THEREFORE, BE IT RESOLVED as follows:

1. The Recitals above are hereby incorporated into this Resolution as if restated verbatim.
2. The Township Board hereby adopts the new schedule for water and sewer connection charges, as set forth in the attached “Exhibit A.”
3. This Resolution is effective immediately, and it shall supersede any prior inconsistent resolutions of the Township Board.

#251208-14 – Resolution to Authorize Issuance of Refunding Bonds

Justin Stadt gave a brief summary and stated the following. Ottawa County Public Utilities issued bonds on behalf of the Township. Interest rates have gone down since the bonds were issued and the Township was able to save money for water utility rate user. This is in the best interest of the Township.

CHARTER TOWNSHIP OF GEORGETOWN
RESOLUTION TO AUTHORIZE ISSUANCE
OF REFUNDING BONDS

WHEREAS, pursuant to the provisions of Act No. 342, Public Acts of Michigan, 1939, as amended, the Charter Township of Georgetown (the “Township”), the Charter Township of Holland, the Charter Township of Jamestown, the Township of Olive, the Township of Park, the Charter Township of Zeeland, and the City of Hudsonville (hereinafter referred to, with the Township, collectively as the “Municipalities”) and the County of Ottawa (the “County”), acting by and through its Board of County Road Commissioners as county agency, have entered into the 2007 Water Supply System Improvements Contract, dated as of January 1, 2007 (the “Contract”); and

WHEREAS, pursuant to the Contract the County issued its Ottawa County Water Supply System Bonds, Series 2007 dated May 24, 2007 in the original principal amount of \$38,145,000 (the “2007 Bonds”); and

WHEREAS, the 2007 Bonds were issued in anticipation of payments to be made to the County by the Municipalities, pursuant to the Contract; and

WHEREAS, the County issued its Water Supply System Refunding Bonds, Series 2015 (the “2015 Refunding Bonds”) dated April 8, 2015 in the original principal amount of \$30,845,000, to refund the 2007 Bonds outstanding as of the date of issue of the 2015 Refunding Bonds; and

WHEREAS, the 2015 Refunding Bonds are payable from payments made and to be made to the County by the Municipalities, pursuant to the Contract; and

WHEREAS, the 2015 Bonds remain outstanding in the aggregate principal amount of \$18,480,000, mature in various principal amounts in the years 2026 through 2032 and bear interest at rates per annum which vary from 3.00% to 5.00%; and

WHEREAS, the Municipalities have been advised that conditions in the bond market have now improved from the conditions which prevailed at the time the 2015 Bonds were sold and that part of the outstanding 2015 Bonds could be refunded at a considerable savings to the Municipalities; and

WHEREAS, it is the determination and judgment of this Township Board that all or part of the outstanding 2015 Bonds should be refunded to secure for the Municipalities the anticipated savings.

THEREFORE, BE IT RESOLVED:

1. The County is requested and authorized to issue its refunding bonds in the aggregate principal amount of not to exceed \$18,960,000 (the “Refunding Bonds”) pursuant to the provisions of Act

No. 34, Public Acts of Michigan, 2001, as amended, for the purpose of refunding all or part of the outstanding 2015 Bonds and paying the costs of issuing the Refunding Bonds.

2. The proceeds of the Refunding Bonds shall be sufficient, together with other funds available to the Municipalities, if any, to pay the costs of issuing the Refunding Bonds and to establish an escrow Fund in an amount that will be sufficient to pay the principal of, redemption premiums, if any, and the interest on the 2015 Bonds that are refunded.
3. The Township covenants and agrees to continue to make payments to the County in accordance with the requirements of the Contract, said payments to be in amounts sufficient to pay its percentage share of the principal of and interest on the Refunding Bonds and any of the 2015 Bonds that are not refunded as the same shall become due and all paying agency fees and other expenses and charges (including the county agency's administrative expenses) that are payable on account of the Refunding Bonds and those 2015 Bonds that are not refunded. The Township acknowledges and agrees that its obligations as set forth in the Contract shall continue for the Refunding Bonds and the County shall have all rights and remedies set forth in the Contract to enforce the obligations of the Township with respect to the Refunding Bonds in the same manner and to the same extent that such rights and remedies are available with respect to the 2015 Bonds.
4. The Township specifically (but not by way of limitation) reaffirms its pledge of its full faith and credit for the payment of its obligations with respect to the Refunding Bonds and its obligation to levy taxes for the payment of its percentage share of the principal of and interest on the Refunding Bonds in accordance with the provisions of the Contract.
5. The Supervisor is authorized, if necessary, to file an application for State Treasurer's approval to issue the Refunding Bonds.
6. The Supervisor or the Clerk is authorized, if necessary, to approve the circulation of a preliminary and final official statement for the Refunding Bonds, to cause the preparation of those portions of the preliminary and final official statement that pertain to the Township, and to do all other things necessary for compliance with Rule 15c2-12 issued under the Securities Exchange Act of 1934, as amended (the "Rule"). The Supervisor or the Clerk is authorized to execute and deliver such certificates and to do all other things necessary to effectuate the sale and delivery of the Refunding Bonds.
7. The Supervisor or the Clerk is authorized, if necessary, to execute a certificate of the Township, constituting an undertaking to provide ongoing disclosure about the Township for the benefit of the holders of the Refunding Bonds as required under paragraph (b)(5) of the Rule, and amendments to such certificate from time to time in accordance with the terms of the certificate (the certificate and any amendments thereto are collectively referred to herein as the "Continuing Disclosure Certificate"). The Township hereby covenants and agrees that it will comply with and carry out all of the provisions of the Continuing Disclosure Certificate.

The foregoing resolution was offered by Amy Grasman and supported by Gary Veldink, as recommended by the Utilities Committee.

Amy Grasman said that the budget amendment is not a mandate to spend the money but it is there just in case needed.

Kelly Kuiper said that she wanted to be sure they had a higher-level employee.

Jim Weirenga stated that it was not necessary for the Board to make a motion, but they could just give direction to the Superintendent.

Public Notice

Ottawa County, Georgetown Township

Proposed Application

For State Operating/and or Capital Assistance

All citizens are advised that Ottawa County has prepared an application for State of Michigan financial assistance for Georgetown Townships for fiscal year 2027 as required under Act 51 of the Public acts of 1951, as amended and for federal assistance as required under the Federal Transit Act, as amended.

Funding Source	Capital	Total Amount
State Specialized 5310	Vehicle Replacement	\$671,529.71
State Specialized	Georgetown Township	\$70,302.00

Ottawa County, & Georgetown Township ensure that the level and quality of transportation service is provided without regard to race, color, or national origin in accordance with Title VI of the Civil Rights Act of 1964. For more information regarding our Title VI obligations or to file a complaint please contact us at the address given below.

The proposed applications are on file at Georgetown Senior Center at 7100 8th Avenue, Jenison MI 49428 and may be reviewed during a 30-day period. (Feb 1-March 2, 2026), between the hours of 8:30a.m.-3:30p.m.

Written comments regarding the application and/or written requests for a public hearing to review the application must be received by Feb 1, 2026. If a hearing is requested, notice of the scheduled date, time, and location will be provided at least 10 days in advance.

Submittals should be sent to Pam Haverdink, [phaverdink@georgetown-mi.gov](mailto:p_haverdink@georgetown-mi.gov)

Terms & Conditions - Interphase Office Interiors, Inc.

Payment Terms

Interphase, Inc. shall make every effort to deliver and install all products as quickly as possible. However, any delivery and/or installation dates quoted to Customer are approximate and the Interphase obligation shall be only to deliver and/or install the products within a reasonable time. Also, due to certain factory shipment schedules, it is possible that Interphase will be able to deliver and install only portions of the job at a time. Therefore, payment shall be made in accordance with the following terms:

1. All prices are FCA manufacturer point of shipment unless otherwise specified.
2. Terms are net 10 days from date of invoice. Customer will be invoiced for items as delivered. In no case is payment to be withheld for acceptable products should any portion of the job be unacceptable or undelivered. If any products are unacceptable or undelivered, the Customer must pay the balance of the invoice within 10 days, but may withhold the lesser amount of 10% of the total invoice or the value of the unacceptable products. The remaining balance is due 10 days after final delivery.
3. All materials are subject to Michigan State Sales Tax or other applicable State Sales Tax.
4. Interphase requires a deposit equaling 50% due at time of order (100% deposit for COM & COL). Said deposit will be applied to Customer's account until such product is delivered and invoiced. Each invoice, less its proportionate share of the deposit, will be due and payable according to the above terms and conditions. Other progress payments, as well as a deposit for delivery and/or installation, may be required throughout the order cycle depending on specific circumstances for each Buyer and order.
5. All orders are subject to credit approval.
6. An order is not cancelable once the order is confirmed by the vendor or manufacturer of the product, regardless of whether such confirmation is provided to Customer. Quick ships and fabric orders are not cancelable.
7. Customer agrees that the seller may pass through to Customer any charges, costs or fees that it incurs as result of Customer paying Seller through use of a credit card, debit card, credit facility or wire fees, and that such passed through charges, costs or fees may be subject to sales or use tax.
8. If Customer is unwilling or unable to accept delivery or installation of the products according to the specified schedule, the products will be stored at Customer's expense. Customer agrees to be invoiced for 100% of the invoice, to be paid within 10 days. In addition, Customer shall pay a warehouse charge payable monthly beginning after 30 days of warehouse storage. Extra handling of product will be charged at our normal hourly rate. This could be a result of Customer's site not being ready or site conditions that impair installation.
9. Interphase retains, and Customer hereby grants to Interphase, a security interest in the products to secure the purchase price therefore. The products shall remain personal property regardless of being fixed to any real property. If Customer defaults in the payment of the purchase price when due, Interphase shall have all rights and remedies granted by the Uniform Commercial Code. A finance charge of 1.5% per month (annual percentage rate 18%) will be charged on all past due balances. Customer shall pay all collection costs and attorney's fees in the event that the debt or any part thereof is referred to a collection agency or attorney.

General Terms

10. The quotation contained herein has been reviewed and approved by an authorized Customer representative for correct product, fabric, finishes and quantities. In addition, Interphase must have the opportunity to physically take its own measurements of the space to assure accuracies of custom ordered products. If actual measurements are not possible and Interphase must order from construction drawings and they are inaccurate, any extra expenses are Customer's responsibility. Any services rendered to Customer to change or modify the specification and layout before or during installation will be charged to Customer at prevailing rates. If such changes or modifications result in additional products, parts, materials or labor, they will be billed to Customer at prevailing rates. A restocking fee, based on product cost and vendor policies, will be assessed on all changes made after acknowledgement date, or for any product cancellations.

11. Customer acknowledges that the products are manufactured by others. AS BETWEEN CUSTOMER AND INTERPHASE, THE GOODS ARE OTHERWISE "AS IS WHERE IS" WITH ALL FAULTS AND INTERPHASE MAKES NO EXPRESS, IMPLIED OR STATUTORY WARRANTIES, ALL OF WHICH ARE DISCLAIMED AND EXCLUDED BY INTERPHASE INCLUDING, WITHOUT LIMITATION, ANY WARRANTY OF MERCHANTABILITY, NON-INFRINGEMENT, SUITABILITY FOR A PARTICULAR PURPOSE OR USE, EXCEPT THOSE MADE BY THE MANUFACTURER OF THE PRODUCTS. No third party, including any employee or agent of Interphase, is authorized to

make any representation, promise, or warranty concerning the goods and any statements made by those parties are not binding on Interphase unless in writing signed by an authorized representative of Interphase. Any technical advice furnished by Interphase or its employees or agents is for Customer's convenience only and Interphase assumes no obligation or liability for the advice given or the results obtained from that advice. Any claim must be made to Interphase in writing within five (5) days after delivery or installation of the products and if no claim is received by Interphase, Customer will have waived any such claim.

12. No liability shall accrue against Interphase as a result of breach of terms and conditions caused by any strike, act of God, lockout, accident, or delay beyond its control.

13. Merchandise shipped direct to Customer will be the responsibility of Customer except as otherwise agreed in writing. The receiving Customer is responsible to inspect merchandise immediately upon receipt and file any necessary freight claims with freight provider.

Installation & Delivery Terms

14. Delivery and installation charges will be billed to Customer by separate invoice. Delivery and installation charges are not incurred by Customer until such services are provided by Interphase.

15. Change of Scope - Before or during installation, Customer may request additional services outside of the original project scope. A signed Change Order is required before additional services can commence. Layout changes during installation may result in additional product needs that could cause delays in the completion of the furniture installation and may result in additional charges.

16. Floor Protection - Interphase will provide necessary floor protection per building requirements. If other specific or extraordinary protection is needed, Customer must notify Interphase before the work begins.

17. Electrical Work - Unless specifically indicated, electrical work in the following areas is not included:

- a. Electrical Wiring to the Space
- b. Hardwiring of Feeds

Interphase can make arrangements for these services and Interphase will bill Customer accordingly.

18. Delivery - Free and clear access to docks and elevators for deliveries is required. Special arrangements or considerations must be noted prior to accepting the service proposal. Carry up delivery will result in additional charges.

19. Work Environment - Free and clear access to the work site for delivery, staging and installation is required. Electricity, heat, hoisting, lighting and elevator service will be furnished as required without charge to Interphase. Floors covered by this proposal shall be smooth, level and free from debris, and concrete subject to dampness shall be waterproofed prior to delivery and installation of merchandise.

NOTE: Furniture deliveries/installations should not be performed side-by-side with other construction trades. The overlap in building construction and furniture installation increases the potential of additional costs brought about due to the quantity of personnel and equipment with simultaneous deadlines. Any damage caused by other trades will be the Customer's responsibility.

20. Working Hours - Normal delivery and installation services (including drive time) are conducted between the hours of 7:00 AM and 4:00 PM Eastern Time, Monday through Friday, excluding holidays. Services performed times and/or days other than normal may result in additional charges which may or may not include overtime billed at 1.5 times standard billing rates.

21. Staging Areas - Staging areas will be provided by Customer on the same floor and within the workspace.

22. Timeframes - Changes in the number of days allowed to complete the delivery and installation may result in additional charges.

23. Rework Preparation - Workstations, files, drawers, etc. shall be emptied/boxed/clear of space before the arrival of installation crews.

24. Trash Removal - Interphase will remove and discard trash related to the delivery and installation of furniture.

25. Final Cleaning - Interphase will wipe down the installed furniture after installation. Excessive cleaning necessary due to debris and dust by other trades is not included.

26. Punch List - Interphase will provide a project punch list to Customer upon significant completion of the installation.

27. Interphase will not be liable for damages not caused by its actions or negligence.

28. Insurance – Interphase will carry public liability, worker's compensation, property damage and automobile/truck insurance. Fire, tornado, earthquake, flood, vehicle, general liability and other causality insurance related to the job site, the product, or the transit of the

Item	Qty.	Product	Price	
			Unit	Extended

product will be provided and paid by Customer. Customer shall be solely responsible for insurance coverage for the product from the time ownership passes to Customer, under these Terms and Conditions.

Pricing subject to change daily. A 50% deposit is required at time of order entry.

Frequently Asked Questions

- 1. I have a limited budget and I know what I need. Do I need to work with one of DBI's Interior Designers?**

DBI's Interior Designers will save you time and money in the long run, freeing you up to focus on the important work that you do. Their Interior Designers have extensive knowledge of the State's furniture contracts, and their expert-level of technical knowledge in terms of product specifications, installation practices, and overall design, means less opportunity for potential and/or expensive errors by the customer. DBI's Interior Designers will also optimize your space, making the best use of your existing furniture by integrating the old with the new.

- 2. I need to reconfigure my office space and may have to purchase new modular furniture components. Are there any suggestions for how I can control costs?**

Contact Keith Hawes from the DTMB Real Estate Division at hawesk@michigan.gov to see if any furniture is available for use from the DTMB warehouse located at 3111 W. St. Joseph Street in Lansing. Agencies typically send furniture that is no longer needed to the warehouse to be redeployed and utilized by other agencies.

SCHEDULE B – PRICING - REVISED

The Contractor must provide a pricing schedule for the proposed Contract Activities using this document. The pricing schedule should be submitted in a modifiable format (e.g., Microsoft Word or Excel); however, you may also submit an additional pricing schedule in a non-modifiable format (e.g., PDF). Failure to complete the pricing schedule as requested may result in disqualification of your proposal.

1. Price proposals must include all costs, including but not limited to, any one-time or set-up charges, fees, and potential costs that Contractor may charge the State (e.g., shipping and handling, per piece pricing, and palletizing).
 - a. The Contractor is encouraged to offer quick payment terms. The number of days must not include processing time for payment to be received by the Contractor's financial institution.
2. By submitting its proposal, the Contractor certifies that the prices were arrived at independently, and without consultation, communication, or agreement with any other Contractor.
3. Haworth February 2023 Seating Price List: [February 2023 Seating](#)
4. Haworth February 2024 Seating Price List: [February 2024 Seating](#)
5. Haworth February 2024 Health(care) Price List: [February 2024 Health\(care\)](#)
6. Effective June 1, 2025, Schedule B – Pricing is hereby amended to add a line item to each quote for a 1.75% tariff passthrough off List Price on imported commodities purchased off this contract. The tariff must only be applied if active at the time of shipment and cannot be applied to commodities that were in the Contractor's inventory prior to the tariff being enacted. The Contractor must list the tariff passthrough as a separate line item on the invoice. Written justification must be provided to the Contract Administrator for review and approval for any increases to the tariff passthrough. Contractor must promptly notify the State, and the tariff passthrough must immediately be reduced to reflect the reduction or elimination of the tariff. Failure to notify the State is a material breach of Contract.

Change Notice 3, Attachment 1
Haworth, Inc. Contract No. 240000000497
Ergonomic and General Office Seating - Statewide

1. The following updates have been made to **SCHEDULE G – WARRANTY**:
 - a. Verbiage that said “end-user purchaser” was changed to “customer”.
 - b. Some clarity was added about what happens with product that was replaced related to disposition. It was vague so we added a note that “disposition would be directed by Haworth”.
 - c. User weights for seating have been removed from the warranty and will now be added to the price books.
 - d. Balance of changes relate to new product introductions and discontinuances of others.

Great Expectations

You have them as a Haworth customer and so do we. And because we value our customers, we cover our products with this **Product Compatibility and Limited Warranty Policy**.

OUR COMMITMENT TO PRODUCT COMPATIBILITY – INTEGRATED PRODUCT PLATFORMS - OBSOLESCENCE POLICY

As a market leader in the design and manufacture of workspaces that adapt to change, we strive to maintain product compatibility within our various generations of integrated product platforms. As we develop new products there is an emphasis to provide solutions that are compatible yet allow for enhancement of previous generations of products. This benefits the customer who desires to leverage their existing products but enhance their work environment at the same time. With this mindset, under our obsolescence policy, Haworth takes reasonable steps to provide our customers with products of comparable form, fit, and function. As with any material or component, supply chain challenges can impact our ability to offer previous or existing products. In addition, fabrics and finishes are significantly impacted by design trends resulting in shorter life cycles. In these situations, we will make reasonable efforts to find coordinating solutions.

OUR COMMITMENT TO PRODUCT QUALITY – THE HAWORTH NORTH AMERICA LIMITED WARRANTY

To ensure customer satisfaction and peace of mind, we stand behind our products with the following Haworth North America Limited Warranty ("Limited Warranty").

What Products are Covered?

This Limited Warranty applies to new products manufactured by Haworth, Inc. or Haworth, Ltd. (individually, "Haworth") after August 1, 2022, that are sold to an end-user purchaser by Haworth or an Authorized Haworth Dealer ("Covered Products"). Covered Products also include new products manufactured by a company other than Haworth after August 1, 2022, that are sold to an end-user purchaser by Haworth or an Authorized Haworth Dealer as part of the Haworth Collection line of products, but only if such products are specifically listed below in the "What are the Warranty Periods? - Haworth Collection of Products" section of this Limited Warranty. For products manufactured on or before January 1, 2019, please refer to the applicable Haworth warranty published in the Haworth North America Price List when the product was purchased, for products manufactured after January 1, 2019 please refer to www.haworth.com for the applicable Haworth warranty or contact your local Authorized Haworth Dealer.

In this Limited Warranty, the terms "us," "we," "our" and similar terms refer to Haworth, and an end-user purchaser refers to the first person who purchases a Covered Product for such person's own internal use and not for resale or distribution.

The following products are excluded from the definition of "Covered Product" and not covered by this Limited Warranty, and neither Haworth nor its affiliates will have any obligation or liability relating to them: (a) software; (b) consumable items, such as batteries and bulbs/lamps; (c) the customer's own material (COM), or any material specified by the purchaser that is not a standard Haworth product offering, such as Haworth Alliance fabrics; (d) other than Haworth Collection products not manufactured by Haworth as described above, any item manufactured by a third party from whom Haworth purchases the item for resale without incorporating it into a Haworth product as a component or part (in those situations, if the purchaser is not a direct beneficiary of the manufacturer's warranty, then Haworth will assign to the purchaser any warranty that the manufacturer provides, to the extent the warranty is assignable); (e) Ergotron® products included in the Accessories North American Price List, regardless of whether incorporated into a Haworth product as a component or part (if the purchaser is not a direct beneficiary of any applicable Ergotron® warranty, Haworth will assign such warranty to the purchaser, to the extent assignable); and (f) field painted walls and Pergola products.

What Problems are Covered?

Subject to the terms of this Limited Warranty, Haworth warrants to the end-user purchaser of a Covered Product that the Covered Product, at the time of purchase, will be free of any defect in design or workmanship that materially impairs the performance or functionality of the Covered Product under normal use (a "Defect"). This warranty is for 24-hour / 7-day multiple shift use of the applicable Covered Product; for seating products, such use is by individuals up to 325 lbs., 400 lbs. for Zody II and LX models. In this Limited Warranty, normal use means use of a Covered Product in accordance with all the following: (a) Haworth's standards instructions, guidelines, and recommendations for that Covered Product; (b) if the Covered Product is part of the Haworth Collection and not manufactured by Haworth, then the applicable manufacturer's standard instructions, guidelines, and recommendations for that Covered Product; and (c) applicable laws, rules, regulations, and ordinances.

A Defect excludes, and Haworth and its affiliates will not have any responsibility or liability for, the following: (a) normal wear and tear; (b) any damage, wear or failure of the Covered Product that occurs during transport of the Covered Product, or that is caused by improper use, care or maintenance of the Covered Product or by an act of God or other event outside of Haworth's reasonable control; (c) the natural variation of color, grain or texture found in wood and leather; (d) the natural aging of materials such as wood, fabric and leather which results in colors changing over time or during use; (e) dye lot variations in fabric, leather or wall coverings; (f) the natural patina of leather during use; (g) "puddling" or wrinkling of fabrics, leather, or faux leather; (h) reverse crocking of dyes from clothing onto seating materials; (i) change in color (including fading) or other surface effects resulting from exposure to chemicals (such as chemicals in cleaning solutions) or exposure to sunlight or other sources of ultraviolet rays; (j) any damage, wear or failure of the Covered Product caused by the integration or use of any non-Haworth materials, components, devices or other products into or with any Covered Product; or (k) any damage, wear, or scratching to flooring from glides, casters, or other components.

What Remedies are Available?

If a purchaser makes a valid claim under this Limited Warranty for a Defect to a Covered Product, Haworth, at its option, will either (a) repair the Covered Product at Haworth's cost, (b) replace the Covered Product at Haworth's cost with a new or refurbished product with comparable function and performance, or (c) refund or credit the purchase price of the Covered Product (excluding taxes, duties, fees, and other amounts). All repair and replacement work will be performed by Haworth or a third party engaged by Haworth to perform the specific repair or replacement work relating to the Defect; repair or replacement work performed by any other person will void this Warranty. Haworth will not be responsible for any cost or expenses incurred by the purchaser relating to repair or replacement of a Covered Product due to a Defect, including without limitation freight, insurance, inspection, storage and similar costs and expenses. Any Covered Product that is replaced or whose purchase price is refunded or credited will become the sole and exclusive property of Haworth.

What Conditions Apply?

All the following conditions must be satisfied to make a valid claim under this Limited Warranty for a Defect to a Covered Product:

- the purchaser must have notified Haworth in writing of the Defect within 30 days after the purchaser first learns or has notice of the Defect, and in any event not later than three (3) business days after the last day of the applicable warranty period; all such notices must be sent to Haworth at One Haworth Center, Holland, Michigan 49423, Attention: Customer Service/ Warranty Claims;
- the purchaser must provide original Haworth order number and have fully complied with all instructions, requirements, and directions provided by Haworth, an Authorized Haworth Dealer or their respective agents regarding (a) the inspection, preservation or safeguarding of the Covered Product and (b) the transportation and delivery of the Covered Product to Haworth or, if directed by Haworth, to an Authorized Haworth Dealer or other party;
- the Covered Product must have been installed by Haworth or an installer certified by Haworth to install that Covered Product;
- all prior repairs of the Covered Product must have been performed by Haworth or an installer certified by Haworth to install that Covered Product;
- the repair of the Defect of the Covered Product pursuant to this Warranty must be performed by Haworth or a third party engaged by Haworth to perform the specific warranty-repair work;
- at all times the Covered Product must have been in a building that is (a) dry, fully closed-in and protected from the natural elements, and (b) adequately heated, ventilated and air conditioned to maintain an internal temperature between 40°F and 90°F (4°C and 32°C) and relative humidity levels between 25% and 55%;
- the Covered Product must not have been modified, and the purchaser must have used and maintained the Covered Product in full conformity with all of Haworth's written specifications, instructions and guides regarding use, care, and maintenance.

- if the Covered Product is replaced or its purchase price is refunded, all bills of sale, assignments, releases, consents, approvals, and other documents and/or actions required by Haworth to assign and transfer to Haworth sole and exclusive title in the Covered Product, free and clear of all liens, claims and encumbrances, must have been executed, delivered and/or made, as applicable; and
- all other conditions and requirements in or arising under this Limited Warranty, applicable law or a written agreement between Haworth and the purchaser, must have been fully satisfied.

What are the Warranty Periods?

A Covered Product's warranty period begins on the Covered Product's date of manufacture and ends on the expiration of the time period identified below for that particular Covered Product. In addition, the warranty period will automatically terminate at the time that the end-user purchaser ceases to solely own, possess, control, and use the Covered Product.

- **Lifetime.** Except for those Covered Products or related components or materials identified below as having a different warranty period, the warranty period of a Covered Product is as long as the end-user purchaser continues to solely own the Covered Product.
- **Twelve (12) Years.** The following Covered Products have a 12-year warranty period:
 - seating products (excluding fabrics, tablet arms, and gel arm caps)
 - thermally fused laminates (Be_Hold Be_Hold Be)
 - Premium Textured HPL
 - wood or wood-framed products
 - Casgood mechanisms (hinges, slides, latches, glides, casters, etc.)
 - Planes®, Planes VM, Upside™, and Echo height adjustable product mechanisms¹
- **Ten (10) Years.** The following Covered Products have a 10-year warranty period:
 - wall products (excluding door closer mechanisms, wallcoverings, locksets, markerboards, and glass)
 - Pergola products (excluding drapes, drape track hardware, PET tiles, wallcoverings, markerboards, and glass)
 - Adjustable keyboard pads and monitor arms
 - Power Base™ Electrical (excluding Power Base AI and USB receptacles)
 - products that are at any time used in a classroom or educational environment (other than administrative areas) except as limited or described below
 - Belong Plug Strip
 - electrical (non-USB) and A/V accessories

 - Pergola PET tiles
 - Belong Power Cube and Power Suite

¹ Troubleshooting procedures provided by Haworth must be used to determine if a mechanism is defective, the associated error code needs to be included in the Service Notification. Programmable handsets required to read error codes.

² The tempering process for glass results in stronger glass and allows it to fracture into smaller, less harmful pieces when it breaks. Tempered glass often is referred to as "safety glass" because of this breakage feature. Although stronger, it is still important to handle tempered glass with care and avoid impact damage. Small impurities introduced during the tempering process or damage to edges during handling or use can result in spontaneous glass breakage at unpredictable times and are excluded from warranty coverage.

- **Three (3) Years.** The following Covered Products have a 3-year warranty period:
 - Power Base AI Electrical product
 - painted MDF product
 - USB retrofit kits or products incorporating USB charging outlets (Except Power Base)
 - wall product locksets
 - fabrics rated General Contract (a) under the Association of Contract Textiles Guideline
- **Two (2) Years.** The following Covered Products have a 2-year warranty period:
 - walls door closer mechanisms
 - Pergola drapes and associated track hardware
 - products manufactured of Polyethylene Terephthalate (PET) excluding Pergola tiles
- **One (1) Year.** The following Covered Products have a 1-year warranty period:
 - horizontal use markerboard laminates
 - acrylic tops/surfaces
 - soft palm rests
 - electronic locks and components
 - tablet markerboards
 - mouse pad inserts
 - Translucent edging
 - glass used in walls product (see note ² above for more details and exclusions)
 - Openest™ Plume Screens
- **No Warranty.** The following Products and conditions are excluded from the definition of "Covered Product" and not covered by this Limited Warranty:
 - acrylic or corrugated screens
 - exclusions noted or defined in sections "What Products are Covered" and "What Problems are Covered"
- **Specific Product Lines.**
 - **Tailored Solutions™.** A Covered Product that is modified under Haworth's "Tailored Solutions" program will have a warranty period that is the same as the standard catalog product that is modified; however, any material modification of the standard catalog product's features, construction, function, or aesthetics will have a 1-year warranty period.
 - **Haworth Healthcare Products.** The warranty period of a Covered Product within the Haworth Healthcare line of products is as follows (textiles and coverings are not covered by this Limited Warranty):

GENERAL TERMS

This Product Compatibility and Limited Warranty Policy extends solely to end-user purchasers of Covered Products and not to their successors, assigns, employees, agents, or affiliates. This Policy is not assignable or transferable in whole or in part, whether voluntarily, by operation of law or otherwise, and any purported assignment or transfer will be void.

All determinations regarding the scope, applicability, and interpretation of this Policy, including without limitation the satisfaction of and compliance with any of its conditions and requirements, will be made solely by Haworth in its discretion. All such determinations made by Haworth will be final, non-appealable and binding on all persons.

EXCEPT FOR THE EXPRESS LIMITED WARRANTY STATED ABOVE, TO THE EXTENT ALLOWED BY LAW, HAWORTH DOES NOT MAKE, AND IT EXPRESSLY DISCLAIMS, ANY WARRANTY OR REPRESENTATION, EXPRESS OR IMPLIED, STATUTORY OR OTHERWISE, AS TO ANY PRODUCT OR SERVICE AND, IN PARTICULAR, DOES NOT MAKE, AND EXPRESSLY DISCLAIMS, ANY WARRANTY OR REPRESENTATION OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE. ANY LEGALLY REQUIRED WARRANTY THAT MAY NOT BE DISCLAIMED WILL BE LIMITED IN DURATION TO ONE (1) YEAR FROM THE DATE OF MANUFACTURE.

AS SET FORTH IN THIS POLICY, REPAIR OR REPLACEMENT, OR REFUND/CREDIT OF THE PURCHASE PRICE, AT HAWORTH'S OPTION, OF A COVERED PRODUCT ARE THE EXCLUSIVE REMEDIES FOR ANY DEFECT TO THAT COVERED PRODUCT OR ANY OTHER ISSUE RELATING TO ITS MANUFACTURE OR INSTALLATION. IN NO EVENT SHALL HAWORTH OR ANY OF ITS AFFILIATES HAVE ANY LIABILITY IN TORT OR FOR ANY CONSEQUENTIAL, ECONOMIC, INDIRECT, SPECIAL, PUNITIVE, OR INCIDENTAL DAMAGES, OR FOR LOSS OF PROFITS, REVENUES, USE OR REPUTATION, WITH RESPECT TO ANY COVERED PRODUCT OR ANY OTHER PRODUCT, WHETHER CAUSED BY, ARISING FROM OR RELATING TO A DEFECT OR OTHERWISE.

Applies to U.S. only: Some states do not allow limitations on how long an implied warranty lasts or do not allow the exclusion or limitation of incidental or consequential damages, so the limitations or exclusions in the immediately preceding paragraph may not apply to a purchaser. This Limited Warranty gives the purchaser specific legal rights, and the purchaser may also have other rights which vary from state to state.

3. The attached **SCHEDULE B – PRICING - REVISED** updates and replaces the previous SCHEDULE B – PRICING, which incorporates:

Effective June 1, 2025, Schedule B – Pricing is hereby amended to add a line item to each quote for a **1.75% tariff passthrough off List Price** on imported commodities purchased off this contract. The tariff must only be applied if active at the time of shipment and cannot be applied to commodities that were in the Contractor’s inventory prior to the tariff being enacted. The Contractor must list the tariff passthrough as a separate line item on the invoice. Written justification must be provided to the Contract Administrator for review and approval for any increases to the tariff passthrough. Contractor must promptly notify the State, and the tariff passthrough must immediately be reduced to reflect the reduction or elimination of the tariff. Failure to notify the State is a material breach of Contract.

SCHEDULE B – PRICING - REVISED

The Contractor must provide a pricing schedule for the proposed Contract Activities using this document. The pricing schedule should be submitted in a modifiable format (e.g., Microsoft Word or Excel); however, you may also submit an additional pricing schedule in a non-modifiable format (e.g., PDF). Failure to complete the pricing schedule as requested may result in disqualification of your proposal.

1. Price proposals must include all costs, including but not limited to, any one-time or set-up charges, fees, and potential costs that Contractor may charge the State (e.g., shipping and handling, per piece pricing, and palletizing).
 - a. The Contractor is encouraged to offer quick payment terms. The number of days must not include processing time for payment to be received by the Contractor's financial institution.
2. By submitting its proposal, the Contractor certifies that the prices were arrived at independently, and without consultation, communication, or agreement with any other Contractor.

SCHEDULE B – PRICING (REVISED)

The Contractor must provide a pricing schedule for the proposed Contract Activities using this document. The pricing schedule should be submitted in a modifiable format (e.g., Microsoft Word or Excel); however, you may also submit an additional pricing schedule in a non-modifiable format (e.g., PDF). Failure to complete the pricing schedule as requested may result in disqualification of your proposal.

1. Price proposals must include all costs, including but not limited to, any one-time or set-up charges, fees, and potential costs that Contractor may charge the State (e.g., shipping and handling, per piece pricing, and palletizing).
2. The Contractor is encouraged to offer quick payment terms. The number of days must not include processing time for payment to be received by the Contractor's financial institution.
3. By submitting its proposal, the Contractor certifies that the prices were arrived at independently, and without consultation, communication, or agreement with any other Contractor.

STANDARD CONTRACT TERMS

This STANDARD CONTRACT (“**Contract**”) is agreed to between the State of Michigan (the “**State**”) and Haworth, Inc. (“**Contractor**”), a Michigan Corporation. This Contract is effective on March 1, 2024 (“**Effective Date**”), and unless terminated, will expire on February 28, 2029 (the “**Term**”).

This Contract may be renewed for up to 2 additional one (1) year period(s). Renewal is at the sole discretion of the State and will automatically extend the Term of this Contract. The State will document its exercise of renewal options via Contract Change Notice.]

The parties agree as follows:

- 1. Duties of Contractor.** Contractor must perform the services and provide the deliverables (the “**Contract Activities**”) described in a Statement of Work; the initial Statement of Work is attached as Schedule A – Statement of Work. An obligation to provide delivery of any commodity is considered a service and is a Contract Activity.

Contractor must furnish all labor, equipment, materials, and supplies necessary for the performance of the Contract Activities unless otherwise specified in a Statement of Work.

Contractor must: (a) perform the Contract Activities in a timely, professional, safe, and workmanlike manner consistent with standards in the trade, profession, or industry; (b) meet or exceed the performance and operational standards, and specifications of the Contract; (c) provide all Contract Activities in good quality, with no material defects; (d) not interfere with the State’s operations; (e) obtain and maintain all necessary licenses, permits or other authorizations necessary for the performance of the Contract; (f) cooperate with the State, including the State’s quality assurance personnel, and any third party to achieve the objectives of the Contract; (g) return to the State any State-furnished equipment or other resources in the same condition as when provided when no longer required for the Contract; (h) assign to the State any claims resulting from state or federal antitrust violations to the extent that those violations concern materials or services supplied by third parties toward fulfillment of the Contract; (i) comply with all State physical and IT security policies and standards which will be made available upon request; and (j) provide the State priority in performance of the Contract except as mandated by federal disaster response requirements. Any breach under this paragraph is considered a material breach.

Contractor must also be clearly identifiable while on State property by wearing identification issued by the State, and clearly identify themselves whenever making contact with the State.

2. **Notices.** All notices and other communications required or permitted under this Contract must be in writing and will be considered given and received: (a) when verified by written receipt if sent by courier; (b) when actually received if sent by mail without verification of receipt; or (c) when verified by automated receipt or electronic logs if sent by facsimile or email.

If to State:	If to Contractor:
See Contract Administrator information shown below.	See Contract Administrator Information shown below.

3. **Contract Administrator.** The Contract Administrator, or the individual duly authorized for each party, is the only person authorized to modify any terms of this Contract, and approve and execute any change under this Contract (each a “**Contract Administrator**”):

State:	Contractor:
Susan Watt-Smith 320 S. Walnut St., 2 nd Floor North Lansing, MI 48933 WattSmithS@michigan.gov 517-230-0535	Matthew Corl One Haworth Center Holland, MI 49423 Matt.corl@haworth.com ContractsPricing@haworth.com 616-393-3000

4. **Program Manager.** The Program Manager for each party will monitor and coordinate the day-to-day activities of the Contract (each a “**Program Manager**”):

State:	Contractor:
Curt Myers 3111 West St. Joseph St. Lansing, MI 48917 MyersC@michigan.gov 517-719-8168	Becky Przedwojewski One Haworth Center Holland, MI 49423 Becky.przedwojewski@haworth.com 517-281-5826

5. **Performance Guarantee.** Contractor must at all times have financial resources sufficient, in the opinion of the State, to ensure performance of the Contract and must provide proof upon request. The State may require a performance bond (as specified in a Statement of Work) if, in the opinion of the State, it will ensure performance of the Contract.

6. **Insurance Requirements. See Schedule C**

- 7. Administrative Fee and Reporting.** Contractor must pay an administrative fee of 1% on all payments made to Contractor under the Contract including transactions with the State (including its departments, divisions, agencies, offices, and commissions), MiDEAL members, and other states (including governmental subdivisions and authorized entities). Administrative fee payments must be made online by check or credit card at: <https://www.thepayplace.com/mi/dtmb/adminfee>

Contractor must submit an itemized purchasing activity report, which includes at a minimum, the name of the purchasing entity and the total dollar volume in sales. Reports should be mailed to MiDeal@michigan.gov.

The administrative fee and purchasing activity report are due within 30 calendar days from the last day of each calendar quarter.

- 8. Extended Purchasing Program.** This contract is extended to MiDEAL members. MiDEAL members include local units of government, school districts, universities, community colleges, and nonprofit hospitals. A current list of MiDEAL members is available at www.michigan.gov/mideal.

Upon written agreement between the State and Contractor, this contract may also be extended to: (a) other states (including governmental subdivisions and authorized entities) and (b) State of Michigan employees.

If extended, Contractor must supply all Contract Activities at the established Contract prices and terms. The State reserves the right to impose an administrative fee and negotiate additional discounts based on any increased volume generated by such extensions.

Contractor must submit invoices to, and receive payment from, extended purchasing program members on a direct and individual basis.

- 9. Relationship of the Parties.** The relationship between the parties is that of independent contractors. Contractor, its employees, and agents will not be considered employees of the State. No partnership or joint venture relationship is created by virtue of this Contract. Contractor, and not the State, is responsible for the payment of wages, benefits and taxes of Contractor's employees and any subcontractors. Prior performance does not modify Contractor's status as an independent contractor. Neither party has authority to contract for nor bind the other party in any manner whatsoever.

- 10. Intellectual Property Rights.** If a Statement of Work requires Contractor to create any intellectual property related to new and novel products, Contractor hereby acknowledges that the State is and will be the sole and exclusive owner of all right, title, and interest in the Contract Activities and all associated intellectual property rights, if any. Such Contract Activities are works made for hire as defined in Section 101 of the Copyright Act of 1976. To the extent any Contract Activities and related

intellectual property do not qualify as works made for hire under the Copyright Act, Contractor will, and hereby does, immediately on its creation, assign, transfer and otherwise convey to the State, irrevocably and in perpetuity, throughout the universe, all right, title and interest in and to the Contract Activities, including all intellectual property rights therein.

- 11. Subcontracting.** Contractor may not delegate any of its obligations under the Contract without the prior written approval of the State. Contractor must notify the State at least 90 calendar days before the proposed delegation and provide the State any information it requests to determine whether the delegation is in its best interest. If approved, Contractor must: (a) be the sole point of contact regarding all contractual matters, including payment and charges for all Contract Activities; (b) make all payments to the subcontractor; and (c) incorporate the terms and conditions contained in this Contract in any subcontract with a subcontractor. Contractor remains responsible for the completion of the Contract Activities, compliance with the terms of this Contract, and the acts and omissions of the subcontractor. The State, in its sole discretion, may require the replacement of any subcontractor.
- 12. Staffing.** The State's Contract Administrator may require Contractor to remove or reassign personnel providing services by providing a notice to Contractor.
- 13. Background Checks.** Pursuant to Michigan law, all agencies subject to IRS Pub. 1075 are required to ask the Michigan State Police to perform fingerprint background checks on all employees, including Contractor and Subcontractor employees, who may have access to any database of information maintained by the federal government that contains confidential or personal information, including, but not limited to, federal tax information. Further, pursuant to Michigan law, any agency described above is prohibited from providing Contractors or Subcontractors with the result of such background check. For more information, please see Michigan Public Act 427 of 2018. Upon request, or as may be specified in a Statement of Work, Contractor must perform background checks on all employees and subcontractors and its employees prior to their assignment. The scope is at the discretion of the State and documentation must be provided as requested. Contractor is responsible for all costs associated with the requested background checks. The State, in its sole discretion, may also perform background checks.
- 14. Assignment.** Contractor may not assign this Contract to any other party without the prior approval of the State. Upon notice to Contractor, the State, in its sole discretion, may assign in whole or in part, its rights or responsibilities under this Contract to any other party. If the State determines that a novation of the Contract to a third party is necessary, Contractor will agree to the novation and provide all necessary documentation and signatures.

15. Change of Control. Contractor will notify the State, within 30 days of any public announcement or otherwise once legally permitted to do so, of a change in Contractor's organizational structure or ownership. For purposes of this Contract, a change in control means any of the following: (a) a sale of more than 50% of Contractor's stock; (b) a sale of substantially all of Contractor's assets; (c) a change in a majority of Contractor's board members; (d) consummation of a merger or consolidation of Contractor with any other entity; (e) a change in ownership through a transaction or series of transactions; (f) or the board (or the stockholders) approves a plan of complete liquidation. A change of control does not include any consolidation or merger effected exclusively to change the domicile of Contractor, or any transaction or series of transactions principally for bona fide equity financing purposes.

In the event of a change of control, Contractor must require the successor to assume this Contract and all of its obligations under this Contract.

16. Ordering. Contractor is not authorized to begin performance until receipt of authorization as identified in a Statement of Work.

17. Acceptance. Contract Activities are subject to inspection and testing by the State within 30 calendar days of the State's receipt of them ("**State Review Period**"), unless otherwise provided in a Statement of Work. If the Contract Activities are not fully accepted by the State, the State will notify Contractor by the end of the State Review Period that either: (a) the Contract Activities are accepted but noted deficiencies must be corrected; or (b) the Contract Activities are rejected. If the State finds material deficiencies, it may: (i) reject the Contract Activities without performing any further inspections; (ii) demand performance at no additional cost; or (iii) terminate this Contract in accordance with Section 24, Termination for Cause.

Within 10 business days from the date of Contractor's receipt of notification of acceptance with deficiencies or rejection of any Contract Activities, Contractor must cure, at no additional cost, the deficiency and deliver unequivocally acceptable Contract Activities to the State. If acceptance with deficiencies or rejection of the Contract Activities impacts the content or delivery of other non-completed Contract Activities, the parties' respective Program Managers must determine an agreed to number of days for re-submission that minimizes the overall impact to the Contract. However, nothing herein affects, alters, or relieves Contractor of its obligations to correct deficiencies in accordance with the time response standards set forth in this Contract.

If Contractor is unable or refuses to correct the deficiency within the time response standards set forth in this Contract, the State may cancel the order in whole or in part. The State, or a third party identified by the State, may perform the Contract Activities and recover the difference between the cost to cure and the Contract price

plus an additional 10% administrative fee.

- 18. Delivery** Contractor must deliver all Contract Activities F.O.B. destination, within the State premises with transportation and handling charges paid by Contractor, unless otherwise specified in a Statement of Work. All containers and packaging become the State's exclusive property upon acceptance.
- 19. Risk of Loss and Title.** Until final acceptance, title and risk of loss or damage to Contract Activities remains with Contractor. Contractor is responsible for filing, processing, and collecting all damage claims. The State will record and report to Contractor any evidence of visible damage. If the State rejects the Contract Activities, Contractor must remove them from the premises within 10 calendar days after notification of rejection. The risk of loss of rejected or non-conforming Contract Activities remains with Contractor. Rejected Contract Activities not removed by Contractor within 10 calendar days will be deemed abandoned by Contractor, and the State will have the right to dispose of it as its own property. Contractor must reimburse the State for costs and expenses incurred in storing or effecting removal or disposition of rejected Contract Activities.
- 20. Warranty Period.** The warranty period, if applicable, for Contract Activities is a fixed period commencing on the date specified in a Statement of Work. If the Contract Activities do not function as warranted during the warranty period, the State may return such non-conforming Contract Activities to the Contractor for a full refund.
- 21. Invoices and Payment.** Invoices must conform to the requirements communicated from time-to-time by the State. All undisputed amounts are payable within 45 days of the State's receipt. Contractor may only charge for Contract Activities provided as specified in a Statement of Work. Invoices must include an itemized statement of all charges. The State is exempt from State sales tax for direct purchases and may be exempt from federal excise tax, if Services purchased under this Agreement are for the State's exclusive use. Notwithstanding the foregoing, all fees are exclusive of taxes, and Contractor is responsible for all sales, use and excise taxes, and any other similar taxes, duties and charges of any kind imposed by any federal, state, or local governmental entity on any amounts payable by the State under this Contract.

The State has the right to withhold payment of any disputed amounts until the parties agree as to the validity of the disputed amount. The State will notify Contractor of any dispute within a reasonable time. Payment by the State will not constitute a waiver of any rights as to Contractor's continuing obligations, including claims for deficiencies or substandard Contract Activities. Contractor's acceptance of final payment by the State constitutes a waiver of all claims by Contractor against the State for payment under this Contract, other than those claims previously filed in writing on a timely basis and still disputed.

The State will only disburse payments under this Contract through Electronic Funds Transfer (EFT). Contractor must register with the State at <http://www.michigan.gov/SIGMAVSS> to receive electronic fund transfer payments. If Contractor does not register, the State is not liable for failure to provide payment. Without prejudice to any other right or remedy it may have, the State reserves the right to set off at any time any amount then due and owing to it by Contractor against any amount payable by the State to Contractor under this Contract.

Excluding federal government charges and terms, Contractor warrants and agrees that each of the fees, economic or product terms or warranties granted pursuant to this Contract are comparable to or better than the equivalent fees, economic or product term or warranty being offered to any commercial or government customer (including any public educational institution within the State of Michigan) of Contractor. If Contractor enters into any arrangements with another customer of Contractor to provide the products or services, available under this Contract, under more favorable prices, as the prices may be indicated on Contractor's current U.S. and International price list or comparable document, then this Contract will be deemed amended as of the date of such other arrangements to incorporate those more favorable prices, and Contractor will immediately notify the State of such fee and formally memorialize the new pricing in a change notice.

22. Reserved.

23. Stop Work Order. The State may suspend any or all activities under the Contract at any time. The State will provide Contractor a written stop work order detailing the suspension. Contractor must comply with the stop work order upon receipt. Within 90 calendar days, or any longer period agreed to by Contractor, the State will either: (a) issue a notice authorizing Contractor to resume work, or (b) terminate the Contract or delivery order. The State will not pay for Contract Activities, Contractor's lost profits, or any additional compensation during a stop work period.

24. Termination for Cause. (a) The State may terminate this Contract for cause, in whole or in part, if Contractor, as determined by the State: (i) endangers the value, integrity, or security of any facility, data, or personnel; (ii) becomes insolvent, petitions for bankruptcy court proceedings, or has an involuntary bankruptcy proceeding filed against it by any creditor; (iii) engages in any conduct that may expose the State to liability; (iv) breaches any of its material duties or obligations under this Contract; or (v) fails to cure a breach within the time stated by the State in a notice of breach, if in its sole discretion the State has chosen to provide a time to cure. Any reference to specific breaches being material breaches within this Contract will not be construed to mean that other breaches are not material.

(b) If the State terminates this Contract under this Section, the State will issue a termination notice specifying whether Contractor must: (i) cease performance

immediately. Contractor must submit all invoices for Contract Activities accepted by the State within 30 days of the date of termination. Failure to submit an invoice within that timeframe will constitute a waiver by Contractor for any amounts due to Contractor for Contract Activities accepted by the State under this Contract or (ii) continue to perform for a specified period. If it is later determined that Contractor was not in breach of the Contract, the termination will be deemed to have been a Termination for Convenience, effective as of the same date, and the rights and obligations of the parties will be limited to those provided in Section 25, Termination for Convenience.

The State will only pay for amounts due to Contractor for Contract Activities accepted by the State on or before the date of termination, subject to the State's right to set off any amounts owed by the Contractor for the State's reasonable costs in terminating this Contract. Contractor must promptly reimburse to the State any fees prepaid by the State prorated to the date of such termination, including any prepaid fees. The Contractor must pay all reasonable costs incurred by the State in terminating this Contract for cause, including administrative costs, attorneys' fees, court costs, transition costs, and any costs the State incurs to procure the Contract Activities from other sources.

- 25. Termination for Convenience.** The State may, with thirty (30) days' advance written notice, terminate this Contract in whole or in part without penalty and for any reason or no reason, including but not limited to, appropriation or budget shortfalls. The termination notice will specify whether Contractor must: (a) cease performance of the Contract Activities immediately. Contractor must submit all invoices for Contract Activities accepted by the State within 30 days of the date of termination. Failure to submit an invoice within that timeframe will constitute a waiver by Contractor for any amounts due Contractor for Contract Activities accepted by the State under this Contract, or (b) continue to perform the Contract Activities in accordance with Section 26, Transition Responsibilities. If the State terminates this Contract for convenience, the State will pay all reasonable costs, as determined by the State, for State approved Transition Responsibilities to the extent the funds are available.
- 26. Transition Responsibilities.** Upon termination or expiration of this Contract for any reason, Contractor must, for a period of time specified by the State (not to exceed **180** calendar days), provide all reasonable transition assistance requested by the State, to allow for the expired or terminated portion of the Contract Activities to continue without interruption or adverse effect, and to facilitate the orderly transfer of such Contract Activities to the State or its designees. Such transition assistance may include, but is not limited to: (a) continuing to perform the Contract Activities at the established Contract rates; (b) taking all reasonable and necessary measures to transition performance of the work, including all applicable Contract Activities, training, equipment, software, leases, reports and other documentation, to the State

or the State's designee; (c) transferring title in and delivering to the State, at the State's discretion, all completed or partially completed deliverables prepared under this Contract as of the Contract termination date; and (d) preparing an accurate accounting from which the State and Contractor may reconcile all outstanding accounts (collectively, "**Transition Responsibilities**"). This Contract will automatically be extended through the end of the transition period.

- 27. Return of State Property.** Upon termination or expiration of this Contract for any reason, Contractor must take all necessary and appropriate steps, or such other action as the State may direct, to preserve, maintain, protect, or return to the State all materials, data, property, and confidential information provided directly or indirectly to the Contractor by any entity, agent, vendor, or employee of the State.
- 28. Indemnification.** Contractor must defend, indemnify and hold the State, its departments, divisions, agencies, offices, commissions, officers, and employees harmless, without limitation, from and against any and all third party actions, claims, losses, liabilities, damages, costs, attorney fees, and expenses (including those required to establish the right to indemnification), arising out of or relating to: (a) any breach by Contractor (or any of Contractor's employees, agents, subcontractors, or by anyone else for whose acts any of them may be liable) of any of the promises, agreements, representations, warranties, or insurance requirements contained in this Contract; (b) any infringement, misappropriation, or other violation of any intellectual property right or other right of any third party; (c) any bodily injury, death, or damage to real or tangible personal property occurring wholly or in part due to action or inaction by Contractor (or any of Contractor's employees, agents, subcontractors, or by anyone else for whose acts any of them may be liable) and only to the extent not caused by the action or inaction of the State or other third party from whom Contractor is not liable; and (d) any acts or omissions of Contractor (or any of Contractor's employees, agents, subcontractors, or by anyone else for whose acts any of them may be liable).

The State will notify Contractor in writing if indemnification is sought; however, failure to do so will not relieve Contractor, except to the extent that Contractor is materially prejudiced. Contractor must, to the satisfaction of the State, demonstrate its financial ability to carry out these obligations.

The State is entitled to: (i) regular updates on proceeding status; (ii) participate in the defense of the proceeding; (iii) employ its own counsel; and to (iv) retain control of the defense, at its own cost and expense, if the State deems necessary. Contractor will not, without the State's prior written consent (not to be unreasonably withheld), settle, compromise, or consent to the entry of any judgment in or otherwise seek to terminate any claim, action, or proceeding.

Any litigation activity on behalf of the State, or any of its subdivisions under this Section, must be coordinated with the Department of Attorney General. An attorney designated to represent the State may not do so until approved by the Michigan Attorney General and appointed as a Special Assistant Attorney General.

The State is constitutionally prohibited from indemnifying Contractor or any third parties.

- 29. Infringement Remedies.** If, in either party's opinion, any piece of equipment, software, commodity, or service supplied by Contractor or its subcontractors, or its operation, use or reproduction, is likely to become the subject of a copyright, patent, trademark, or trade secret infringement claim, Contractor must, at its expense: (a) procure for the State the right to continue using the equipment, software, commodity, or service, or if this option is not reasonably available to Contractor, (b) replace or modify the same so that it becomes non-infringing; or (c) accept its return by the State with appropriate credits to the State against Contractor's charges and reimburse the State for any losses or costs incurred as a consequence of the State ceasing its use and returning it.
- 30. Limitation of Liability and Disclaimer of Damages. NEITHER PARTY WILL BE LIABLE TO THE OTHER PARTY, REGARDLESS OF THE FORM OF ACTION, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY OR BY STATUTE OR OTHERWISE, FOR ANY CLAIM RELATED TO OR ARISING UNDER THIS CONTRACT FOR CONSEQUENTIAL, INCIDENTAL, INDIRECT, OR SPECIAL DAMAGES, INCLUDING WITHOUT LIMITATION LOST PROFITS AND LOST BUSINESS OPPORTUNITIES. IN NO EVENT WILL EITHER PARTY'S AGGREGATE LIABILITY TO THE OTHER UNDER THIS CONTRACT, REGARDLESS OF THE FORM OF ACTION, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY OR BY STATUTE OR OTHERWISE, FOR ANY CLAIM RELATED TO OR ARISING UNDER THIS CONTRACT, EXCEED THE GREATER OF \$7 MILLION OR THE MAXIMUM AMOUNT OF FEES PAYABLE UNDER THIS CONTRACT.**
- a. Exceptions.** Limitation of Liability and Disclaimer of Damages, above, shall not apply to Contractor's obligation to indemnify the State as provided in Section 28 General Indemnification.
- 31. Disclosure of Litigation, or Other Proceeding.** Contractor must notify the State within 14 calendar days of receiving notice of any litigation, investigation, arbitration, or other proceeding (collectively, "Proceeding") involving Contractor, a subcontractor, or an officer or director of Contractor or subcontractor, that arises during the term of the Contract, including: (a) a criminal Proceeding; (b) a parole or probation Proceeding; (c) a Proceeding under the Sarbanes-Oxley Act; (d) a civil Proceeding involving: (1) a claim that might reasonably be expected to adversely affect

Contractor's viability or financial stability; or (2) a governmental or public entity's claim or written allegation of fraud; or (3) any complaint filed in a legal or administrative proceeding alleging the Contractor or its subcontractors discriminated against its employees, subcontractors, vendors, or suppliers during the term of this Contract; or (e) a Proceeding involving any license that Contractor is required to possess in order to perform under this Contract.

- 32. State Data.** All data and information provided to Contractor by or on behalf of the State, and all data and information derived therefrom, is the exclusive property of the State ("**State Data**"); this definition is to be construed as broadly as possible. Upon request, Contractor must provide to the State, or a third party designated by the State, all State Data within 10 calendar days of the request and in the format requested by the State. Contractor will assume all costs incurred in compiling and supplying State Data. No State Data may be used for any marketing or commercial purposes.
- 33. Reserved.**
- 34. Non-Disclosure of Confidential Information.** The parties acknowledge that each party may be exposed to or acquire communication or data of the other party that is confidential, privileged communication not intended to be disclosed to third parties.
- a. Meaning of Confidential Information.** For the purposes of this Contract, the term "**Confidential Information**" means all information and documentation of a party that: (a) has been marked "confidential" or with words of similar meaning, at the time of disclosure by such party; (b) if disclosed orally or not marked "confidential" or with words of similar meaning, was subsequently summarized in writing by the disclosing party and marked "confidential" or with words of similar meaning; or, (c) should reasonably be recognized as confidential information of the disclosing party. The term "Confidential Information" does not include any information or documentation that was or is: (a) subject to disclosure under the Michigan Freedom of Information Act (FOIA); (b) already in the possession of the receiving party without an obligation of confidentiality; (c) developed independently by the receiving party, as demonstrated by the receiving party, without violating the disclosing party's proprietary rights; (d) obtained from a source other than the disclosing party without an obligation of confidentiality; or, (e) publicly available when received, or thereafter became publicly available (other than through any unauthorized disclosure by, through, or on behalf of, the receiving party). For purposes of this Contract, in all cases and for all matters, State Data is deemed to be Confidential Information.
- b. Obligation of Confidentiality.** The parties agree to hold all Confidential Information in strict confidence and not to copy, reproduce, sell, transfer, or otherwise dispose of, give or disclose such Confidential Information to third

parties other than employees, agents, or subcontractors of a party who have a need to know in connection with this Contract or to use such Confidential Information for any purposes whatsoever other than the performance of this Contract. The parties agree to advise and require their respective employees, agents, and subcontractors of their obligations to keep all Confidential Information confidential. Disclosure to a subcontractor is permissible where: (a) use of a subcontractor is authorized under this Contract; (b) the disclosure is necessary or otherwise naturally occurs in connection with work that is within the subcontractor's responsibilities; and (c) Contractor obligates the subcontractor in a written contract to maintain the State's Confidential Information in confidence. At the State's request, any employee of Contractor or any subcontractor may be required to execute a separate agreement to be bound by the provisions of this Section.

- c. Cooperation to Prevent Disclosure of Confidential Information.** Each party must use its best efforts to assist the other party in identifying and preventing any unauthorized use or disclosure of any Confidential Information. Without limiting the foregoing, each party must advise the other party immediately in the event either party learns or has reason to believe that any person who has had access to Confidential Information has violated or intends to violate the terms of this Contract and each party will cooperate with the other party in seeking injunctive or other equitable relief against any such person.
- d. Remedies for Breach of Obligation of Confidentiality.** Each party acknowledges that breach of its obligation of confidentiality may give rise to irreparable injury to the other party, which damage may be inadequately compensable in the form of monetary damages. Accordingly, a party may seek and obtain injunctive relief against the breach or threatened breach of the foregoing undertakings, in addition to any other legal remedies which may be available, to include, in the case of the State, at the sole election of the State, the immediate termination, without liability to the State, of this Contract or any Statement of Work corresponding to the breach or threatened breach.
- e. Surrender of Confidential Information upon Termination.** Upon termination of this Contract or a Statement of Work, in whole or in part, each party must, within 5 calendar days from the date of termination, return to the other party any and all Confidential Information received from the other party, or created or received by a party on behalf of the other party, which are in such party's possession, custody, or control; provided, however, that Contractor must return State Data to the State following the timeframe and procedure described further in this Contract. Should Contractor or the State determine that the return of any Confidential Information is not feasible, such party must destroy the Confidential Information and must certify the same in writing within 5 calendar days from the date of termination to the

other party. However, the State's legal ability to destroy Contractor data may be restricted by its retention and disposal schedule, in which case Contractor's Confidential Information will be destroyed after the retention period expires.

36. Reserved.

37. Reserved.

38. Records Maintenance, Inspection, Examination, and Audit. Pursuant to MCL 18.1470, the State or its designee may audit Contractor to verify compliance with this Contract. Contractor must retain and provide to the State or its designee and the auditor general upon request, all records related to the Contract through the term of the Contract and for 4 years after the latter of termination, expiration, or final payment under this Contract or any extension ("**Audit Period**"). If an audit, litigation, or other action involving the records is initiated before the end of the Audit Period, Contractor must retain the records until all issues are resolved.

Within 10 calendar days of providing notice, the State and its authorized representatives or designees have the right to enter and inspect Contractor's premises or any other places where Contract Activities are being performed, and examine, copy, and audit all records related to this Contract. Contractor must cooperate and provide reasonable assistance. If financial errors are revealed, the amount in error must be reflected as a credit or debit on subsequent invoices until the amount is paid or refunded. Any remaining balance at the end of the Contract must be paid or refunded within 45 calendar days.

This Section applies to Contractor, any parent, affiliate, or subsidiary organization of Contractor, and any subcontractor that performs Contract Activities in connection with this Contract.

39. Representations and Warranties. Contractor represents and warrants: (a) Contractor is the owner or licensee of any Contract Activities that it licenses, sells, or develops and Contractor has the rights necessary to convey title, ownership rights, or licensed use; (b) all Contract Activities are delivered free from any security interest, lien, or encumbrance and will continue in that respect; (c) the Contract Activities will not infringe the patent, trademark, copyright, trade secret, or other proprietary rights of any third party; (d) Contractor must assign or otherwise transfer to the State or its designee any manufacturer's warranty for the Contract Activities; (e) the Contract Activities are merchantable and fit for the specific purposes identified in the Contract; (f) the Contract signatory has the authority to enter into this Contract; (g) all information furnished by Contractor in connection with the Contract fairly and accurately represents Contractor's business, properties, finances, and operations as of the dates covered by the information, and Contractor will inform the State of any

material adverse changes;(h) all information furnished and representations made in connection with the award of this Contract is true, accurate, and complete, and contains no false statements or omits any fact that would make the information misleading; and that (i) Contractor is neither currently engaged in nor will engage in the boycott of a person based in or doing business with a strategic partner as described in 22 USC 8601 to 8606. A breach of this Section is considered a material breach of this Contract, which entitles the State to terminate this Contract under Section 24, Termination for Cause.

- 40. Conflicts and Ethics.** Contractor will uphold high ethical standards and is prohibited from: (a) holding or acquiring an interest that would conflict with this Contract; (b) doing anything that creates an appearance of impropriety with respect to the award or performance of the Contract; (c) attempting to influence or appearing to influence any State employee by the direct or indirect offer of anything of value; or (d) paying or agreeing to pay any person, other than employees and consultants working for Contractor, any consideration contingent upon the award of the Contract. Contractor must immediately notify the State of any violation or potential violation of these standards. This Section applies to Contractor, any parent, affiliate, or subsidiary organization of Contractor, and any subcontractor that performs Contract Activities in connection with this Contract.
- 41. Compliance with Laws.** Contractor must comply with all federal, state and local laws, rules and regulations.
- 42. Prevailing Wage.** Contractor must comply with prevailing wage requirements, to the extent applicable to this Contract.
- 43. Reserved.**
- 44. Nondiscrimination.** Under the Elliott-Larsen Civil Rights Act, 1976 PA 453, MCL 37.2101, *et seq.*, the Persons with Disabilities Civil Rights Act, 1976 PA 220, MCL 37.1101, *et seq.*, and [Executive Directive 2019-09](#). Contractor and its subcontractors agree not to discriminate against an employee or applicant for employment with respect to hire, tenure, terms, conditions, or privileges of employment, or a matter directly or indirectly related to employment, because of race, color, religion, national origin, age, sex (as defined in Executive Directive 2019-09), height, weight, marital status, partisan considerations, any mental or physical disability, or genetic information that is unrelated to the person's ability to perform the duties of a particular job or position. Breach of this covenant is a material breach of this Contract.
- 45. Unfair Labor Practice.** Under MCL 423.324, the State may void this Contract if the name of the Contractor, or the name of a subcontractor, manufacturer, or supplier of the Contractor, subsequently appears on the Unfair Labor Practice register compiled under MCL 423.322.

- 46. Governing Law.** This Contract is governed, construed, and enforced in accordance with Michigan law, excluding choice-of-law principles, and all claims relating to or arising out of this Contract are governed by Michigan law, excluding choice-of-law principles. Any dispute arising from this Contract must be resolved in the Michigan Court of Claims. Contractor waives any objections, such as lack of personal jurisdiction or *forum non conveniens*. Contractor must appoint an agent in Michigan to receive service of process.
- 47. Non-Exclusivity.** Nothing contained in this Contract is intended nor is to be construed as creating any requirements contract with Contractor, nor does it provide Contractor with a right of first refusal for any future work. This Contract does not restrict the State or its agencies from acquiring similar, equal, or like Contract Activities from other sources.
- 48. Force Majeure.** Neither party will be in breach of this Contract because of any failure arising from any disaster or acts of god that are beyond their control and without their fault or negligence. Each party will use commercially reasonable efforts to resume performance. Contractor will not be relieved of a breach or delay caused by its subcontractors. If immediate performance is necessary to ensure public health and safety, the State may immediately contract with a third party.
- 49. Dispute Resolution.** The parties will endeavor to resolve any Contract dispute in accordance with this provision. The dispute will be referred to the parties' respective Contract Administrators or Program Managers. Such referral must include a description of the issues and all supporting documentation. The parties must submit the dispute to a senior executive if unable to resolve the dispute within 15 business days. The parties will continue performing while a dispute is being resolved, unless the dispute precludes performance. A dispute involving payment does not preclude performance.
- Litigation to resolve the dispute will not be instituted until after the dispute has been elevated to the parties' senior executive and either concludes that resolution is unlikely or fails to respond within 15 business days. The parties are not prohibited from instituting formal proceedings: (a) to avoid the expiration of statute of limitations period; (b) to preserve a superior position with respect to creditors; or (c) where a party makes a determination that a temporary restraining order or other injunctive relief is the only adequate remedy. This Section does not limit the State's right to terminate the Contract.
- 50. Media Releases.** News releases (including promotional literature and commercial advertisements) pertaining to the Contract or project to which it relates must not be made without the prior written approval of the State, and then only in accordance with the explicit written instructions of the State.

- 52. Entire Agreement and Order of Precedence.** This Contract, which includes Statement of Work, and schedules and exhibits, is the entire agreement of the parties related to the Contract Activities. This Contract supersedes and replaces all previous understandings and agreements between the parties for the Contract Activities. If there is a conflict between documents, the order of precedence is: (a) first, this Contract, excluding its schedules, exhibits, and Statement of Work; (b) second, Statement of Work as of the Effective Date; and (c) third, schedules expressly incorporated into this Contract as of the Effective Date. NO TERMS ON CONTRACTOR’S INVOICES, ORDERING DOCUMENTS, WEBSITE, BROWSE-WRAP, SHRINK-WRAP, CLICK-WRAP, CLICK-THROUGH OR OTHER NON-NEGOTIATED TERMS AND CONDITIONS PROVIDED WITH ANY OF THE CONTRACT ACTIVITIES, OR DOCUMENTATION HEREUNDER, EVEN IF ATTACHED TO THE STATE’S DELIVERY OR PURCHASE ORDER, WILL CONSTITUTE A PART OR AMENDMENT OF THIS CONTRACT OR IS BINDING ON THE STATE OR ANY AUTHORIZED USER FOR ANY PURPOSE. ALL SUCH OTHER TERMS AND CONDITIONS HAVE NO FORCE AND EFFECT AND ARE DEEMED REJECTED BY THE STATE AND THE AUTHORIZED USER, EVEN IF ACCESS TO OR USE OF THE CONTRACT ACTIVITIES REQUIRES AFFIRMATIVE ACCEPTANCE OF SUCH TERMS AND CONDITIONS.
- 53. Severability.** If any part of this Contract is held invalid or unenforceable, by any court of competent jurisdiction, that part will be deemed deleted from this Contract and the severed part will be replaced by agreed upon language that achieves the same or similar objectives. The remaining Contract will continue in full force and effect.
- 54. Waiver.** Failure to enforce any provision of this Contract will not constitute a waiver.
- 55. Survival.** Any right, obligation or condition that, by its express terms or nature and context is intended to survive, will survive the termination or expiration of this Contract; such rights, obligations, or conditions include, but are not limited to, those related to transition responsibilities; indemnification; disclaimer of damages and limitations of liability; State Data; non-disclosure of Confidential Information; representations and warranties; insurance and bankruptcy.
- 56. Contract Modification.** This Contract may not be amended except by signed agreement between the parties (a “**Contract Change Notice**”). Notwithstanding the foregoing, no subsequent Statement of Work or Contract Change Notice executed

after the Effective Date will be construed to amend this Contract unless it specifically states its intent to do so and cites the section or sections amended.

SCHEDULE A – STATEMENT OF WORK

CONTRACT ACTIVITIES

SCOPE

This contract is for a wide range and variety of seating products to include, but not be limited to: Highly Ergonomic Chairs, Full or Part Mesh Ergonomic Task Chairs, Upholstered Side/Guest Chairs, Stackable Polypropylene Chairs, XL Chairs, Conference Room Chairs, Executive Chairs, Stools and/or Fully Upholstered Lounge Seating and Occasional Tables. Additionally, services, including but not limited to all warranty service, customer services, installation services, and sales services, are also included in this contract.

REQUIREMENTS

1. General Requirements

1.1. Product Specifications

All proposed seating lines are standard products that the Contractor currently offers.

Seating offered on this contract conforms to the following industry standards:

- ANSI/BIFMA X5.1-2017(R2022) General Purpose Office Seating
- ANSI/BIFMA X5.11-2015 (R2020) General-Purpose Large-Occupant Office Chairs
- ANSI/BIFMA X5.41-2021 Large Occupant Public and Lounge Seating
- ANSI/BIFMA X5.4-2020 Public and Lounge Seating
- ANSI/BIFMA X6.4-2021 Occasional-Use Seating
- ANSI/BIFMA X7.1-2011 (R2021) Standard for Formaldehyde & TVOC Emissions of Low-emitting Office Furniture and Seating
- ANSI/BIFMA M7.1-2011 (R2021) Standard Test Method for Determining VOC Emissions from Seating
- CALIFORNIA TB 117 – Flame Retardance of Resilient Filling Materials

1.1.1. Range of Product Offering

The State reserves the right to add or subtract products from the contract throughout the term of the contract.

1.1.1.1. The State requests that contractors provide a “primary” chair within a product line. Contractors may elect to propose multiple product lines or families of seating solutions that they feel will best meet the needs and applications of

the State. The State prefers that Contractors offer an entire family or product line of proposed seating options as opposed to only a single chair solution.

1.1.1.2. The Contractors seating lines proposed to the State must meet the latest BIFMA G1 Ergonomic standards so that 1 chair can accommodate over 90% of the population without the need for multiple chairs. **1.1.1.3.** The State reserves the right to limit the offerings within a product line available for purchase.

1.1.1.4. Other types of seating applications, in addition to the mandatory highly ergonomic chair that should be represented in the Contractors proposal, are as follows:

1. Upholstered side or guest chairs that are compatible in style and, trim finishes
2. Executive and Task chairs with multiple armrest options, i.e., no arms, fixed arms, height adjustable arms or multi-functional arms
3. Stackable polypropylene multipurpose chairs, with optional ganging and multiple arm options: tablet arm, book rack, stackable with cart
4. Ergonomic task stools available in fabric and vinyl
5. XL chair (formerly known as Big and Tall chair) with a maximum weight requirement of 500 pounds
6. Conference room chairs
7. Fully upholstered Lounge seating and occasional tables

1.1.1.5. Contractor must be able to offer a product line to the Michigan Department of Corrections (MDOC) that conforms to the guidelines given by the Correctional Facility Administration (see also Exhibit 2 – MDOC Vendor Rules & Regulations (PROGRAM A, Correctional Facilities Administration (CFA) Security Regulations). Requirements include flame retardant furnishings and welded, concealed or limited chair controls.

1.1.1.6. Contractor must provide information on their Healthcare line if applicable for potential use for Michigan Department of Health and Human Services (MDHHS), Michigan Department of Corrections (MDOC), Department of Military and Veterans Affairs (DMVA).

1.1.2. Ergonomic Requirements

At least one of the seating product lines proposed by the Contractor must reflect a highly ergonomic chair(s) to include the following ergonomic adjustment features as

described in “Schedule B Pricing, Ergonomic Guidelines” as the State of Michigan Ergonomic Guidelines.

1. Adjustable seat height
2. Adjustable seat pan angle
3. Adjustable backrest height
4. Adjustable back lumbar support
5. Adjustable seat pan depth
6. Adjustable forward and rearward tilt
7. Front waterfall edge on seat cushion
8. Multi-functional adjustable (width, height and/or range) armrests
9. Back lock/unlock adjustment
10. Synchronized tilt (seat pan simultaneously drops at 2:1 ratio when chair is reclined)

1.1.3. Fabric and Trim Color

The State reserves the right to limit fabric and trim color available for purchase. Please see the fabric matrix below for Grade A seating fabrics:

Grade: Pattern (Surface Code)	Series/ Model

The Contractor may be required to provide to the Program Manager, at no additional cost to the State, additional fabric and trim color binders for mailing and distribution to the State agencies. The State may need up to 25 sets of these binders throughout the term of the Contract.

The Contractor's fabric samples must include all pertinent fabric manufacturer information that shows the material used and the double rubs for ALL Grade A / Grade 1 fabrics offered.

1.1.4. Seating Product Catalogs

Seating Pricing is located in the Haworth North American Price List - February 2023

https://stateofmichigan.sharepoint.com/:b:/r/sites/SOM-SPC-Procurement/Shared%20Documents/Contract%20Categories/CATALOG_24000000497%20-%20Haworth%20Seating.pdf

1.2.1. Obsolescence Policy

The State prefers that chair parts be available for a minimum of five (5) years after the specified warranty period has expired on the chairs proposed.

If the seating product line is still a current/ available product at the end of the warranty period, parts will be available for purchase without question. If the seating product line has been discontinued at any point before or after the warranty expiration, the Contractor will take reasonable steps to keep parts available for a determined length of time depending on supplier availability and other relevant circumstances.

In the event that a supplier discontinues a fabric or trim color, the Contractor will notify the respective dealers, DBI and Interphase, Inc. The dealers will work with the State of Michigan to determine an appropriate course of action for pending and/or anticipated orders. If fulfillment is not optional, then the Contractor will make reasonable efforts to find coordinating solutions and/or offer substitutions.

1.2.2. Warranty

All of the Contractor's manufactured seating products are warranted to be free of any defect in design or workmanship for twelve (12) years for 24/7 multiple-shift use by persons up to 325 pounds (400 pounds for Zody II and LX models, 500 pounds for Soji XL and Improv HE XL) and includes the framework, mechanisms, seating foam, seat & back mesh and seating glides & casters.

The warranty for fabric scrims, and fabrics rated Heavy Duty (A) under the Association of Contract Textiles Guidelines, leather, and gel arm caps, is five (5) years.

All service parts are warranted for two years or the remaining balance of the assembly's original warranty period, whichever is longer.

The State reserves the right to require additional warranties other than those identified by the Contractor.

1.2.3. Reporting Warranty Issues

Warranty Service may be requested by emailing or calling your dedicated Customer Service Representative, or through the State of Michigan Contracts Ceros Experience Webpage. Include photos and chair labels with your submission.

In the event that a particular issue with a chair is not covered under warranty, the State may communicate the service request in the same manner outlined above for warranty related services. If parts that are not covered under warranty are required to complete the service, the State of Michigan dedicated CSR would prepare a pricing quote for parts and labor associated with the repair.

1.2.4. Service Notification Replacement Process

Per the requirements of this contract, the dealer will place an order for chargeable parts or perform chargeable services only upon receipt of a valid Delivery Order referencing the contract.

When warranty needs arise DBI's Customer Service Representative will reach out to the State's onsite contact within 48 hours. DBI's Service Technician will be scheduled to come to the site on a date and time that is agreeable to the State's

onsite contact and will cause the least amount of disruption within the space. The Contractor's dealers' typical on site response time is approximately three to five business days from the date of notification unless requested otherwise by the customer.

PLEASE NOTE: Issues, warranty or non-warranty, that present a safety risk to the occupant(s) of the space will be responded to immediately.

If the issue can be diagnosed without a site visit and parts need to be ordered, the order will be placed within 24 hours of the determination of need. The dealer will stock parts that are common to various seating products or items that the State frequently needs in order to minimize overall completion timeframe. The list of stocked items may be developed and revised over the course of the contract.

Standard lead time for shipment of service parts is four (4) weeks. Upon receipt of parts, the dealer Service Technician will be scheduled to install them at a time that is most convenient to the end user. This scenario represents the maximum turn-around time to repair a defective chair.

The majority of chair repairs can be done on site with little disruption to the work environment. If a chair cannot be repaired on site, or at the request of the State agency, the chair will be removed to the dealer Service Department and a demo chair of equal quality and functionality will be provided by the dealer at no cost to the State until the defective chair can be repaired.

The dealer will maintain a stock of Haworth chairs at its warehouse location(s) to be utilized in these situations.

In the event that a chair cannot be repaired and is still under warranty, the contractor will replace the chair at no charge to the State. If a loaner chair is needed until the new chair is received, one will be provided by the dealer at no charge to the State.

1.2.5. Warranty Work

The Contractor must be certified to make repairs for all warranty work required. Upon request of State, Contractor must provide documentation of Certification.

1.2.6. Installation by State

All warranties must apply if product is installed by State employees that are trained in the manufacturer's recommended installation methods. Regardless of the installer utilized, the Contractor will honor our warranty with regard to defective product. The warranty does not apply if the issue is determined to be a result of improper installation by a State employee.

1.2.7. Damaged or Defective Replacement Process

The State requires Contractor to handle any repairs that need to be made during installation due to damaged or defective product and rectify problems that arise because of this during installation at no cost to the State. The Contractor will correct any product and/or installation defects appearing within the warranty period, in a manner acceptable to the State's Project Manager, at no charge to the State.

1.2.8. Product Line Requirements

Contractor must have the ability to make the product line and the colors in each product line that the State selects available and/or compatible for minimum of 1 (one) year after expiration of the Contract, subject to vendor base viability or material availability. The Contractor will provide adequate notice of vendor issues and material availability through the normal course of business.

1.3. Recall Requirements and Procedures

The Contract Administrator and Program Managers must be contacted via email within 5 calendar days, and by mail within 10 calendar days, of the knowledge of any recall or defect. The plan must include recall and replacement procedures for all defective seating. All recalls and replacements must be at the Contractor's expense. The Contractor must be capable of replacing all defective seating within a 30 calendar day period.

1.4. Quality Assurance Program

All products or materials installed under this contract are subject to the approval of the purchasing entity. Any rejected items, goods, materials or installation resulting from noncompliance, defect or performance failure for any reason whether held or returned, must be at the Contractor's expense.

1.5. Incentives

The State reserves the right to negotiate a mutually agreeable modification for return policies, trade-in programs, quantity and/or tiered discounts, and any other programs it deems beneficial to the State.

1.6. Transition

Refer to Standard Contract Terms and Conditions, Section 26. Transition Responsibilities.

2. Service Requirements

2.1. Delivery

2.1.1. Delivery Program

The Contractor must have an established Delivery Program to service locations throughout the State of Michigan.

2.1.2. Standard Delivery Program

The Contractor must provide a Standard Delivery Program. Delivery location may be requested to any State facility within Michigan. Delivery location must be specified on the delivery order release. Standard delivery programs must include a description addressing delivery of product to installer locations, State owned warehouses, and/or directly to jobsite on a just in time basis.

2.1.2.1. Transportation Methods

1. Inside Delivery

- a) When "Inside Delivery" is specified and Inside Delivery charges are included on the Delivery Order, upon delivery, the chair(s) will be removed from the truck by the carrier's driver and placed just inside the loading dock or just inside the front door of the building.
- b) This delivery option does not include delivery to the work area or floor or unpackaging. Upon acceptance and signing the appropriate delivery forms, the Contractor is not responsible for any further services pertaining to delivery.
- c) Incorrect product, visible or concealed damage and shortages must be recorded and reported to the servicing Dealer in accordance with *Schedule A – Statement of Work, Section 2.1.2.2. Receiving Standards*.
- d) Freight claim shall be handled in accordance with *Schedule A – Statement of Work, Section 2.1.2.2. Receiving Standards*.
- e) Delivery Order must include the on-site receiving contact name and phone number to be processed.

2. Drop Ship

- a) When no chargeable delivery services are included on the Delivery Order, the servicing Dealer will assume the chairs are to be drop shipped to the address listed as the "Ship To" on the Delivery Order.
- b) Upon delivery, the chair(s) shall be moved to the end of the trailer by the carrier personnel.
- c) The State is responsible for unloading or making arrangements to have it unloaded.
- d) Upon acceptance and signing the appropriate delivery forms, the

Contractor is not responsible for any further services pertaining to delivery.

- e) Incorrect product, visible or concealed damage and shortages must be recorded and reported to the servicing Dealer in accordance with *Schedule A – Statement of Work, Section 2.1.2.2. Receiving Standards*.
- f) Freight claim shall be handled in accordance with *Schedule A – Statement of Work, Section 2.1.2.2. Receiving Standards*. Note: There are no freight charges for Drop Ship delivery since this contract specifies F.O.B. Delivered.

3. Inside Delivery (Delivery Only)

- a) All chair orders designated and appropriately funded on the Delivery Order for the “Delivery Only” service level will be delivered by uniformed Dealer personnel.
- b) Chairs will be received at the dealership warehouse location, transported to the SHIP TO location indicated on the State Delivery Order, unboxed, placed in the individual stations or designated area as requested by the on-site contact, and all packaging will be removed for recycling.
- c) Pricing does not include round trip travel to SHIP TO location (see *Schedule B – Pricing, Travel*).
- d) *Note: "Delivery Only" does not include a brief overview of the chair operations.
- e) *Note: Delivery Order must include the on-site receiving contact name, phone number and email address to be processed. This assists in Dealer Schedulers delivering chairs when the on-site contact is in the office to receive delivery.

4. Installation (Delivery & Set-Up)

- a) All chair orders designated and appropriately funded on the Delivery Order for the “Installation - Delivery and Set-Up” service level will be delivered by the servicing Dealer.
- b) Chairs will be received at the dealership warehouse location, transported to the SHIP TO location indicated on the State Delivery Order, unboxed, placed in the individual station, and all packaging will be removed for recycling.
- c) The installer will provide the user with a general overview of the chair operations.

- d) *Note: Delivery Order must include the name, phone number and email address as well as a name, phone number and email address for each end user requiring chair instruction to be processed. This assists in Dealer Schedulers scheduling delivery of chairs when the end users are in the office and available for this instruction.
- e) This unit rate is also used to price the delivery and set up of the following lounge seating products that require assembly as a part of installation: (*Proposed lines include Cabana, Resonate, and Riverbend*). For a definition of “Assembly” see *Schedule B – Pricing, Glossary of Terms*.

5. Chair Delivery Instruction (Delivery, Set-Up, and Fitting)

- a) All chair orders designated and appropriately funded on the Delivery Order for the “Instruction - Fitting” service level will be delivered by the servicing Dealer.
- b) Chairs will be received at the dealership warehouse location, transported to the SHIP TO location indicated on the State Delivery Order, unboxed, placed in the individual station of the individual needing chair instruction/fitting, and all packaging will be removed for recycling.
- c) The installer will provide the end-user with a detailed overview of the chair operations and demonstrate the ergonomic features of the chair within their workstation.
- d) *Note: Delivery Order must include the name, phone number and email address as well as a name, phone number and email address for each end user requiring Fitting Services to be processed. This assists in Dealer Schedulers scheduling delivery of chairs when the end users are in the office and available for this instruction.
- e) Please note: *The service rates listed on Schedule B - Pricing Services do not include round trip travel.*

1. Missing Carton, Missing Within Carton or Incorrect Products - Receiving Party Responsibilities:

- d) Missing Cartons –Receiving party must include signed short BOL and circle sheet indicating the missing carton(s) to Dealer. Provided documentation must include missing carton number, signature of driver, and date. Receiving party must communicate shortage to Dealer within 10 business days of delivery date on original order.
- e) Missing Within Carton- Receiving party must communicate shortage to Dealer within 20 business days of delivery date on original order and provide a photo of the carton label.
- f) For Incorrect product within cartons – Receiving party must include pictures of incorrect product and carton labels.
- g) If incorrect cartons should have delivered to another entity, further information and coordination may be required by the Dealer.

2. Bulk-loaded (Uncartoned/Skidded and Shrink Wrapped) product damage– Receiving Party Responsibilities:

- a) Inspect product and report damages (visible and concealed) immediately upon receipt.
- b) Delivery must be accepted and all copies of BOL (dealer and carrier copy) must be signed by driver as “damaged at receipt”.
- c) Claims not supported with BOL with damage noted will not be accepted.
- d) Damaged product must be communicated by the Receiving party to Dealer within 10 business days of delivery date on original order.
- e) Pictures of damaged product prior to installation and BOL with damage noted must be included. Pictures of damaged packaging prior to unwrapping should also be included for visible damage.

3. Visible Carton Damage Product – Receiving Party Responsibilities:

- a) Delivery must be accepted and all copies of BOL (dealer and carrier copy) must be signed by driver as “damaged at receipt”.
- b) Product with carton damage must be opened and inspected while driver is on site. If product within damaged carton is also damaged, the BOL must be noted as “damaged at receipt” and a signature from the driver must be obtained.
- c) Damaged product must be communicated by the Receiving party to Dealer within 10 business days of delivery date on original order.
- d) Pictures of damaged product and BOL with damage noted must be included. Pictures of damaged packaging should also be included. Pictures of damaged products should be taken as soon as the damage is noted. Claims supported by pictures taken after the products have been installed will not be accepted.

4. Concealed Damage Product – Receiving Party Responsibilities:

- a) Damaged product must be communicated by the Receiving party to Dealer within 20 business days of delivery date on original order.
- b) Pictures of damaged product and product labels prior to installation are required to process. Pictures of damaged packaging must also be included.
- c) Pictures of damaged products must be taken as soon as the damage is noted prior to installation. Claims supported by pictures taken after the products have been installed will not be accepted.

2.1.3. Quick Ship Delivery Program

The Contractor must provide a Quick Ship Delivery Program. The Contractor must include the allowable quantity under the quick ship delivery program. Contractor must also include the selection of standard products available under the quick ship delivery program. Contractor must also be willing to modify their quick ship delivery program throughout the Contract period in order to accommodate State of Michigan standard product and color requirements.

The receipt of order date is pursuant to Section 2, Notices, of the Standard Contract Terms.

- a) Proper communication and coordination between the Contractor and the State will be necessary to ensure ordered products are scheduled for installation schedule in a “Quick Ship” timeframe.

- b) The Contractor's Haworth NOW is a stock program that includes a wide breadth of products. Task and Lounge seating are included as well as occasional and ancillary products. There is a MAXIMUM order of 24 pieces. Most products ship between 3-10 business days.

2.1.4. Delivery/Storage

Contractor must be committed to providing the maximum flexibility for scheduled delivery of product when required by the State. This may involve the Contractor to closely monitor the project and to communicate on regular basis with the State, specific to the scheduling of product delivery and installation. This may also involve the Contractor to participate in State construction meetings, to provide shorter delivery lead times, to provide compressed manufacturing times, and to provide for either delay of product delivery or to provide storage up to a maximum of thirty (30) calendar days or agreed upon timeframe at no cost to the State, when a building for a certain project is not ready for product to be received. The timeframe must begin from the date the product is scheduled to be received at the specified location. The goal for this Contract is to provide for a JUST IN TIME (JIT) delivery process, as deemed possible.

The State may determine a need for storage beyond (30) thirty days or agreed upon timeframe. Contractors are to include pricing for this optional program in **Schedule B - Pricing, Tab 7 Services, Storage**. The State reserves the right to include these programs in any Contract awarded to a Contractor; however, the State is not obligated to use these programs.

2.1.4.1. The managing dealer will participate in State construction meetings as needed to ensure that the required product delivery schedule is in line with the anticipated project timeline without the need for extended storage time. If the project schedule is delayed after the product had been ordered and delivery dates can't be pushed out according to Haworth's change policies (*refer to Schedule A – Statement of Work, Section 2.1.6. Cancellations>Returns below*), the managing dealer will hold product at their warehouse for 30 days after receipt at no charge to the State. If the project is delayed beyond 30 days, storage charges may be assessed.

2.1.5. Delays and/or Late Shipment/Deliveries

2.1.5.1. Contractor must provide written notice to applicable State Project Manager, and Agency Point of Contact listed on the purchase order within 48 hours of known delay, if the situation delays or threatens to delay the timely performance of any order. The notification must include the Contractor's best possible delivery time for the State's approval. If the State does not approve the alternate delivery date (s) (with or without obtaining consideration from the

Contractor), the State must have the right to cancel the order (s) in whole or in part without further liability on the State's part. The State also has the right to purchase the goods elsewhere and/or hold the Contractor accountable for all damages and direct costs resulting from the Contractor's unacceptable delivery date (s).

2.1.5.2. If unapproved late deliveries are made, the state may cancel the order (s) in whole or in part, may refuse shipment, purchase the goods elsewhere, and/or hold the Contractor accountable for all damages and direct costs resulting from the Contractor's failure to deliver on schedule. Acceptance of a late delivery by the State must not constitute a waiver of the State's claim for any damage that the late delivery may have caused.

2.1.6. Cancellations/Returns

The State may cancel and/or change an order per the Contractor's procedure outlined below. ****Note: the dealer must have the information entered into Haworth's system by the time frames noted.**

2.1.7. Incorrect Shipment and Procedures

If an incorrect shipment is made, State must notify the Contractor in writing. The Contractor must remove the incorrect product from State’s facility, at no charge to State within 14 business days from the date of notice. If the product is not removed, the State will dispose of the product and will not be liable for any cost.

2.2. Programming and Design Services

- A. The Contractor must use AutoCAD and a Specification Software that aligns with the State’s systems (the State currently uses ProjectSpec and Canvas), and at no charge to the State for the software, licenses, and any maintenance of software and licenses. Upon State request, the Contractor must be able to create 3 dimensional drawings using Building Information Modeling (BIM) software. 3 dimensional drawings should illustrate product placement and building interface for client and user review during design phase. Designs are to conform to state standards.

- B. Programming and Design services will be defined as needed throughout the duration of the contract and Contractor must respond with a detailed pricing estimate for services.
- C. State space planning and facilities strategy must be incorporated into all programming and design services and drawings. State approved standards for fabric and finishes will be available electronically.
- D. The State Project Manager or designee, or the assigned State Agency Point of Contact, must approve the final plan, specifications, and parts prior to ordering. The State requires that the final plan/design, including the specifications, must be approved prior to order placement.
- F. Final proposed drawings in AutoCAD must be available at project close-out.
- G. The Contractor must produce field verifications of all spaces to be furnished, using architectural plans as the basis for product layouts. (Note: if construction has not been completed prior to specification development, rooms must be verified by Contractor for fit and quantities). ***The Contractor remains responsible for verifying room dimensions, electrical and data availability and connections, fire systems, thermostats, windows, windowsills, and any other characteristics that would need to be considered in the furniture layout, to ensure fit and quantities of product being ordered. If the State allows, photos will also be taken to document existing conditions of the space. After this verification is complete, the designer will update or create an AutoCAD drawing of the space(s). If construction has not been completed prior to specification development due to a delay in construction or a condensed build schedule, the Contractor may request adherence to critical dimensions during construction with a Hold To Document. To be valid the Hold To Document must be submitted in written and graphic format and be approved by the State Program Manager or designee.*** All revisions are to be made prior to production and be documented to the State in both written and graphic format using AutoCAD.

Only in the case a Dealer designer is used and the design and specification of a new installation does not fit properly due to inaccurate floor plans, dimensions, attributes identified by the Contractor, it is the responsibility of the Contractor to resolve to the satisfaction of the State. No payment for services will be made until the issue is fully resolved and approved by the State Project Manager or designee.

- H. For projects that require DTMB oversight and approval for connectivity to a building, the Contractor must agree to use DTMB approved project plans for development of specifications, track changes to those plans, and revise connections and specifications if required to obtain DTMB approval for the State.
- I. Only in the case a Dealer designer is used, the Contractor is responsible for specifying all necessary products including parts, components, connectors, brackets, trim pieces, etc. to build the approved design to the manufacturer's structural guidelines as well as the State's design and aesthetic standards.
- J. Only in the case a Dealer designer is used, the Contractor must accept responsibility of specifications and accuracy of quotations provided to the State for purchase. The Contractor is responsible for overages, shortages, or ordering errors resulting from orders based on the provided design services. Approval of design work and estimates by the State does not constitute responsibility for the design or ordering process. When shortages are due to an incorrect specification by a dealer designer, orders are entered into Haworth's Lynx ordering system as "Completion Orders." Completion Orders are defined as orders for product that is required to complete an installation that has already started, and they are given priority manufacturing timelines. As a rule of thumb, the lead time for Completion Orders is approximately half of the standard lead time for the product. For example, if the lead time for a standard order is four weeks, a Completion Order for that same product would ship in approximately two weeks.

2.3. Installation

Installation is expected to begin upon delivery of the product to the agreed upon job site and should be completed within two weeks unless other arrangements have been made with the State Program and/or Project Manager. Installation will be considered complete when all seating parts have been installed, e.g., casters, legs, tablets, headrests, etc.; items are placed as indicated on furniture plan; packaging is removed from all seating and disposed of; and the work area is clean, with all refuse and debris removed to the designated trash area.

2.3.1. Installation Process

- A. **Delivery to Site** (*Also see Section 2.1.2.1. Transportation Methods, 4. Installation (Delivery & Set-Up).*)
- Contractor responsible for receiving product and delivering to site
 - Contractor must be on-site to receive product, **or** must receive product at their warehouse and deliver to the site

- Contractor must report any freight damage, shortages, etc. within 48 hours of receipt of product to the manufacturer and start the resolution process.
- Contractor is responsible for unloading, unpacking, disposal of packing materials.
- Provide general overview of chair functionality. See “installation” in Schedule B – Pricing Glossary of Terms.

B. Fitting (installation process, A&B refer to delivery) (Also see Section 2.1.2.1. *Transportation Methods, 5. Chair Delivery Instruction (Delivery, Set-Up, and Fitting)*).

- Contractor responsible for receiving product and delivering to site
- Contractor must be on-site to receive product, or must receive product at their warehouse and deliver to the site
- Contractor must handle any freight damage, shortages, etc.
- Contractor is responsible for unloading, unpacking, disposal of packing materials
- Contractor must provide user instructions, explanation of chair adjustments, and final fitting of chair to the end user.

2.3.2. Manufacturer’s Installation Guidelines

The Contractor’s standard installation process at a minimum must adhere to the manufacturer’s installation guidelines. The dealer designers and installers are trained with Haworth Best Practices in mind. Therefore, product application and installation processes must adhere to Haworth’s guidelines. Haworth has installation instructions for every product line readily available for installers to reference.

2.3.2.1. The Contractor must provide installation training, equivalent to that of Haworth Dealer installers, to State of Michigan employees at no charge to the State.

2.3.3. Disposal of Old Seating:

Upon request from the State, the Contractor must properly dispose of old seating as instructed by the State Program Manager and/or State Project Manager. If the old chairs are not being reused or warehoused, the Contractor will disassemble and recycle all parts that can be recycled per the process agreed upon by the State Program Manager and/or State Project Manager. *Please see Schedule B – Pricing, Prevailing Wage Rates.*

2.3.4. Cleaning

The Contractor's standard cleaning process at a minimum must adhere to the manufacturer's cleaning guidelines. This is an optional service that the State may invoke at a future date as desired. *Please see Schedule B – Pricing, Cleaning.*

2.4. Technical Support and Repairs

The Contractor must provide contact information to the State for technical support, repairs and maintenance. The Contractor must be available for calls and service during the hours of 8:30 am to 5:00 pm EST. Please refer to **Section 3.7 Customer Service** for contact information.

When providing technical support, the Call Center must address the caller's issue within 24 hours. If the caller's issue cannot be resolved within 24 hours, on-site service must be scheduled within a mutually agreed upon time. The on-site service must be performed within 24 hours of the time the issue was scheduled for service.

3. Staffing

- A.** The Contractor must provide the State Program Manager or designee with contact information for all Contractor support members (Key and Non-Key Personnel), including cell phone and email address prior to Contract Effective Date.
 - i. If staff changes are made in any area directly affecting this contract with either Haworth or the managing dealer, Haworth will notify the Contract Administrator of the effective date of the change and provide the new contact information for that support member role. The Contract Administrator may choose to create a Contract Change Notice to include the new contact information in the contract, which is made public through the State's SIGMA system.
 - ii. Additionally, DBI and/or Haworth will announce any contract support member contact changes in the quarterly meetings that are held between Haworth, DBI and the State Agency Representatives.
 - iii. If the State would like Haworth to notify specific Agency Contacts of staff changes, the State may provide a list of those individuals and their email addresses and Haworth would be happy to send the communication to them.

- B.** Contractor's Key and Non-Key Personnel must be on-site as needed or requested by the State Project Manager or designee for various Contract related activities. Key Personnel who are NOT located in Michigan must be made available to the State at various Michigan offices on a reasonably frequent basis as determined or scheduled by the State Project Manager or

designee for various meetings, site visits or walk-throughs as described throughout this Contract.

3.1. Contract Administrator

3.9. State Facility Security

The Contractor’s staff may be required to make deliveries to or enter State facilities. The Contractor must ensure the security of State Facilities. The Contractor staff must have company ID on them at all times while on-site at any State location. The State may require the Contractor’s personnel to wear State issued identification badges.

The Contractor will employ the following additional procedures to ensure security of State facilities and employees include:

- a. Preemptively gathering information regarding the State Facilities Managers’ requirements concerning the security of the specific building

and/or agency affected by the project. This also would include any current MIOSHA and/or State of Michigan Facilities' regulations regarding the use of masks while in a State facility. This information is typically collected during the pre-construction meetings and then disseminated to the project team during the internal Pre-installation meeting.

- b. Background checks are completed on all installation crew members who will work within State of Michigan buildings prior to a job beginning.
- c. Installer names, driver license numbers, dates of birth and license numbers are submitted to DTMB security personnel to be placed on the approved contractors list for entry into State of Michigan buildings.
- d. All employees follow the State's check-in process with the appointed security teams in each building prior to entry.
- e. The installers wear uniform shirts and khaki pants. The Dealer logo is displayed on the shirts of the Crew Leaders for easy identification while Dealer's contractors wear plain color or high visibility shirts. All shirts are tucked in and pants are belted at the waist. Only company issued hats are permitted and all shoes have a closed toe. Dealer employed and contracted installation crew members will wear a photo ID that identifies them as a Dealer installer or Dealer contracted installer. ID badges will always be displayed clearly and in plain sight.
- f. Throughout the installation process, Dealer employees will use only entryways and loading areas designated by the Program Manager and/or Facilities Manager. Doors will not be propped open and left unattended. If a door would need to be propped open, it would be attended and monitored by a crew member. When it is necessary and approved for work to be performed in a State building after hours and/or after security staff have left, Dealer will make sure that all doors are closed and secured per the Building Manager's directions. Tools that are not in use are kept secure in toolboxes/tool bags.

3.9.1. Michigan Department of Corrections (MDOC) Specific Security

The Contractor, its staff, and any subcontractor staff will be subject to the following security procedures if entering a MDOC facility:

- c)** May not be under Federal, State or local jurisdiction as a prisoner. Must be off of Federal, State or local jurisdiction for five years from the date of discharge. Felony ex-prisoners will not be considered as contracted staff until they have been discharged from all sentences, including parole and probation, and are approved by the Deputy Director of the Correctional Facilities Administration (CFA). MDOC reserves the right to approve or decline applicants who have been involved in the criminal justice system depending on the circumstances.
- d)** Not under investigation or under disciplinary action of the Michigan Department of Licensing and Regulatory Affairs.
- e)** Has not engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility or other institution as defined in 42 U.S.C. 1997;
- f)** Has not been convicted of engaging in, attempting to engage in or conspiracy to engage in sexual activity facilitated by force, overt or implied threats of force or coercion, or if the victim did not consent or was unable to consent or refuse.
- g)** Has not been civilly or administratively adjudicated to have engaged in the activity described in letter f above.
- h)** The MDOC may investigate the Contractor's and subcontractor's personnel before they may have access to MDOC facilities and systems. The scope of the background check is at the discretion of the MDOC and the results will be used to determine Contractor personnel eligibility for working within MDOC facilities and systems. The investigations will include Michigan State Police Background checks (ICHAT) and the Law Enforcement Information Network (LEIN) and may include the National Crime Information Center (NCIC) Finger Prints. Proposed Contractor personnel may be required to complete and submit an RI-8 Fingerprint Card for the NCIC Finger Print Check. Any request for background checks will be initiated by the MDOC and will be reasonably related to the type of work requested.
- i)** All delivery drivers, Contractor's and subcontractor's staff and technicians that are entering an MDOC facility must be LEIN cleared by MDOC at least 72 hours prior to facility entry. The Contractor's personnel must be LEIN cleared and received written approval from the MDOC's Contract Manager initially and annually by MDOC prior to any work with MDOC prisoners. The Contractor

should attempt to get any and all staff/inspectors that potentially could go into a secure facility during the life of the contract pre-cleared through LEIN before a need is recognized. Should an emergency arise, MDOC may be able to LEIN clear individuals less than 72 hours if approved by the Contract Manager.

1. The Contractor must ensure that drivers are LEIN cleared when delivering Full Truck Load or multi-stop deliveries. They are not able to guarantee such clearances for Less than Truck Load and single drop shipments due the nature of contracting those drivers.
- j) The Contractor and subcontractor personnel must request LEIN clearance in writing. The completed LEIN Information Form must be sent to and approved by MDOC prior to Contractor's personnel working with MDOC prisoners and annually following approval. There is no cost associated with the LEIN. The LEIN form will be provided to the Contractor as needed. LEIN forms should be submitted to MDOC for review by submission to mdoc-pmcd-cfa-leins@michigan.gov.
- k) The Contractor must document if a Contractor's or subcontractor's personnel assigned to the Contract is related to or acquainted with a prisoner incarcerated and under the jurisdiction of the MDOC. For Contractor's personnel who are related to or acquainted with a prisoner, the Contractor's staff member must complete the Offender Contact Disclosure for Contractors form and submit it to the MDOC Program Manager or designee. The Contractor must ensure its personnel complete the form and notify the MDOC Program Manager of any changes throughout the contract term.
- l) The Contractor/subcontractor's personnel will be required to enter State facilities. The State may require the Contractor/subcontractor's personnel to wear State-issued identification badges.
- m) All vehicles entering a correctional facility must be inspected before entry of the secure perimeter.
- n) The Contractor's and subcontractor's personnel must anticipate delays when visiting any correctional facility due to issues within the facility.
- o) The Contractor/subcontractor's personnel must comply with the State's security and acceptable use policies for State IT equipment and resources. Contractor/subcontractor personnel must also agree to the State's security and acceptable use policies before the Contractor/subcontractor personnel will be accepted as a resource to perform work for the State. The Contractor must

present these documents to prospective Contractor/subcontractor personnel before the Contractor/subcontractor presents the individual to the State as a proposed resource. Contractor/subcontractor personnel must comply with all physical security procedures in place within the facilities where they are working.

- p)** The MDOC reserves the right to deny access to any correctional facility to anyone who fails to comply with any applicable State, Federal or local law, ordinance or regulation or whose presence may compromise the security of the facility, its members or staff. Weapons, alcoholic beverages, poison, and prescription drugs and controlled substances without written certification of needs from a licensed physician (does not include medical supplies for the facility), cellular devices, cameras, and audio or visual recording devices are prohibited from being brought into all MDOC correctional facilities. Tobacco products and smoking also are prohibited both inside a correctional facility and on facility grounds except as specifically authorized by MDOC policy. Wardens may prohibit other items from being brought into their respective correctional facilities. Smoking is prohibited.
- q)** Security is the facility's first priority and the Contractor and Contractor Personnel must be responsive and respectful of these needs.
- r)** The Contractor, Contractor's, and subcontractor's personnel must comply with and cooperate with all correctional facility rules, procedures and processes as well as State and federal laws. Contractor personnel must ensure that they are complying with all facility rules and regulations including, but not limited to, dress code and items allowed to be possessed.
- s)** The Contractor's and subcontractor's personnel must follow the facility entry, exit, manifest process, to include the following:
 - 1. The Contractor/subcontractor personnel will receive an orientation and training by the MDOC on security, procedures, etc., inside the correctional facility. The Contractor must maintain a copy of the Contractor personnel's training certificates in the appropriate file for auditing purposes.
 - 2. The Contractor/subcontractor personnel must follow all MDOC rules, procedures and security processes at all times.
 - 3. The Contractor/subcontractor must ensure that all Contractor personnel working in a correctional facility are familiar and in compliance with the necessary routines and increased awareness of working inside a facility. Working inside the facility requires that the Contractor personnel develop positive and cooperative relationships with MDOC facility staff.

4. The Contractor/subcontractor personnel must report any concerns, issues, or rule violations to the MDOC facility staff immediately.
5. The Contractor/subcontractor personnel must use the MDOC facility staff as a resource for questions and guidance working with prisoners and inside a correctional facility.
6. The Contractor/subcontractor personnel must defer to MDOC correctional facility staff for directions. The Contractor personnel must remember they are a guest in the facility and that security is the first priority of the facility.

3.9.2. MDOC Prison Rape Elimination Act of 2003 (PREA), 42 U.S.C. § 15601

- a) The Contractor and the Contractor Personnel shall comply with the Final Rule implementing PREA, all applicable PREA standards (Exhibit 1A- PREA Standards) and the agency's policies. The Contractor and Contractor Personnel shall make itself familiar with and at all times shall observe and comply with all PREA regulations that in any manner affect the performance under this Contract. Failure to comply with the PREA standards and related policies of the MDOC will be considered a breach of contract and may result in termination of the contract.
- b) Contract Personnel who may have contact with prisoners must complete PREA training Program A - Correctional Facilities Administration (CFA) Security Regulations (Exhibit 1B- CFA Security Regulations) prior to entrance in any MDOC Facility. Upon completion, Contractor Personnel shall submit a signed memorandum (via the State of Michigan's MI-TRAIN site) to the Contract Administrator documenting completion of the training and date of completion.
- c) As is deemed necessary, the MDOC Contract Monitor or Program Manager will provide the Contractor with current copies of all PREA documents via email or the MI-TRAIN web site. Any revisions to the documents will be emailed to the Contractor throughout the Contract period, and the Contractor must comply with all documentation provided. The MDOC is moving document reviews to the MI-TRAIN site as part of annual training.
- d) Also refer to the following Exhibits:
 - i. Exhibit 1A – Schedule A – PREA Standards
 - ii. Exhibit 1B – Schedule A – Program_A_CFA_August_2014

3.9.3. MDOC Vendor Rules and Regulations

- a) The Contractor will require all contractual staff, including temporary and subcontractor staff, working inside an MDOC correctional facility to review and

verify acceptance of the MDOC Vendor Rules and Regulations (Exhibit 2-MDOC Vendor Rules and Regulations (PROGRAM A, Correctional Facilities Administration (CFA) Security Regulations) upon award of Contract. The purpose of the MDOC Vendor Rules and Regulations is to provide the Contractor with general information regarding basic requirements of providing services to the MDOC and provide notice of work rules. Any revisions to the document will be provided to the Contractor throughout the Contract period, and all contractual staff, including temporary and subcontractor staff, must comply with all documentation provided. The Contractor must maintain copies of their staff's completion certificates for auditing purposes.

- b) Also refer to Exhibit 2 to Schedule A – Vendor Rules and Regulations (PROGRAM A, Correctional Facilities Administration (CFA) Security Regulations)

3.9.4. MDOC Procurement, Monitoring and Compliance Division

- a) The Procurement, Monitoring, and Compliance Division (PMCD) provides oversight of MDOC contracts and ensures contractors are delivering services according to contract requirements. The Contract Manager or assigned Contract Monitor will serve as the lead for all contract related issues. They will ensure the contractual requirements are being met through monitoring activities such as: scheduling kick off meetings, developing monitoring plans, managing service level agreements and transition timelines, and partnering with the MDOC program manager to ensure deliverables are met.
- b) Should any issue(s) arise with a contractor's performance, PMCD is engaged to document the issue(s) and may pursue a model of progressive discipline that leverages tools such as meetings, Corrective Action Plan Requests, and Vendor Performance letters. When a Corrective Action Plan Request is issued, the State requires that the Contractor confirm receipt and submit their Plan of Action within the timeframe outlined in the request. The State also requires that the Contractor must cure, at no additional cost to the State, any deficiency identified in a Corrective Action Plan Request. The Plan of Action must include a solution that resolves the issue so that it does not reoccur.
- c) PMCD utilizes a progressive correction process for unsatisfactory vendor performance. PMCD reserves the right to utilize any of its contract compliance tools to address contract deficiency(cies) whether progressive or not. PMCD will utilize corrective action tools according to the significance of the contract deficiency.

3.10. Drug Testing

- A. The Contractor and/or its subcontractors who will be completing work on site, must have drug testing policies and processes in place. These policies must:
- 1) Include pre-employment, and random or reasonable suspicion testing.
 - 2) Address screening for prospective and current employees, including frequency
 - 3) Include screening tests and panel thresholds.
 - 4) Specify the length of time drug testing records are retained.

3.11. Background Checks

- A. The Contractor must perform background checks on all employees, subcontractors and subcontractor employees prior to their assignment and completing onsite work. Contractor is responsible for all costs associated with processing the background checks. The State, in its sole discretion, may also perform background checks. The State reserves the right to request additional background checks at the discretion of State agencies or branches of State government as outlined in the Standard Contract Terms document
- B. The Contract is contingent upon the Contractor's ability to supply workers capable of passing a criminal background check. The Contractor must demonstrate the worker(s) has no convictions or pending felony charges that are substantially related to the contracted activities or services.
- C. The Contractor must have policies and processes in place for background checks. The Contractor's policies and processes must:
- 1) Address screening for prospective and current employees, including frequency and disqualification criteria.
 - 2) Include Screening criteria used to determine whether an applicant qualifies to be in the Contractor's employee, including sub-contractor employees.
 - 3) Specify length of time background check records are retained.
- E. The Contractor must ensure background checks and drug testing requirements of Sub-Contractors employees are adhered to as if the workers were under the Contractor's employment when engaged in State projects.

3.12. Identification Badges: All Contractor personnel, including sub-contractor staff, that routinely work in State facilities will display State issued credentials while performing work on State premises. Others will display Vendor credentials.

3.13. State Employee Responsibilities: State employees are required to report any potential concerns regarding security, theft, requests for reasonable suspicion testing,

or substance abuse issues regarding the Contractor's employees to their authorities for review and to proceed with any needed corrective action.

4. Project Management

The Contractor must carry out all services for this Contract, and implementation, under the direction and control of the State Program Manager. All transition and implementation plans are subject to the approval of the State Program Manager.

- 4.1.** The Contractor must obtain the State Program Manager's and State Contractor Administrator's prior approval of any administrative changes in the Contractor's systems or procedures that impact the State and services performed under this Contract.

- 4.2.** There must be continuous liaising between the State Program Manager and Contractor's Program Manager during the Implementation Period and over the course of this Contract. Liaising between Contractor, State Program Manager, State Project Managers and designees, and the State's other Contractors will also be required. The Contractor's Program Manager must meet with the State Program Manager for initial review of the Contractor's work plan prior to beginning service delivery and then periodically, as needed. The meetings will provide for reviewing progress and providing necessary guidance to the Contractor regarding the timing of activities and solving issues or problems.

4.3. Project Plan/Implementation Plan

The Contractor must provide a draft implementation plan (also referred to as the project plan or the work plan) in order to commence Services by the Contract Effective date. The implementation plan and corresponding timeline or calendar must describe in detail:

1. All major project milestones, the anticipated outcomes for each milestone and all tasks, duties or responsibilities to be completed during the Implementation.
2. A detailed discussion on how to manage a transition from the current Contractor, if applicable.
3. A detailed discussion on how Contractor will integrate with other vendors providing services to the State (e.g., furniture installers, construction trades).
4. All tasks, duties, or responsibilities associated with implementation and complete Contract administration.
5. The Contractor's project management approach, including identifying methods, tools, and processes intended for oversight and completion of the implementation.

6. Any anticipated issues/changes, when they may arise, and how those issues will be conveyed to the State Program Manager and include suggested resolution or risk mitigation strategies to the issue(s).
7. A detailed protocol and escalation communication process; the plan must also provide escalation procedures and contact information for issues that may need to be escalated above the Contractor's Representative/Program Manager and Back-up Program Manager.
8. Any additional information or considerations for Services to begin by the Contract Effective date and continue thereafter for the Contract term.

4.3.1. Final Implementation Plan

The Contractor must submit a Final Implementation Plan to State Program Manager within 5 State-business days from Contract Effective date (Contract is signed), including Contractor's project plan management approach and detailed explanation of any identifying methods, tools, and processes intended for oversight and completion of the implementation. The State Program Manager will provide final approval of the Implementation Plan.

4.4. Reporting

The Contractor must be able to provide various reports when requested by the State. Examples include itemized reports of total items (and services if applicable) purchased by all agencies or individual agencies.

4.4.1. Service Level Agreement Report

Annual Service Level Agreement (SLA) Performance Report submitted to the State Program Manager by March 15 of next calendar year. The Contractor will work with the State Program Manager to develop the format for this report.

4.4.2. Purchasing Activity Report

The Contractor must provide a purchasing activity report which separates product, installation, and any other services per Schedule B – Pricing.

- Reports shall include, at a minimum, an itemized listing of purchasing activities by each agency (including sold to and ship to locations), with the agency name, and the total value of purchases for each agency, and a grand total of all purchases. Ship to locations means where it is delivered to and prepped for the install, whether it is a State warehouse or Contractor warehouse.
- Report must have product specific detail and associated product line.

- Reports must have service specific detail for installation.
- Report must be provided in sequential order.
- Report must also have a high-level summary table that shows total annual State spend in the following categories: New Product, Services (installation, cleaning, repair, disposal), etc.
- This report is to be provided on an annual basis, within 30 days of year-end to the State Program Manager and State Contract Administrator.

4.4.3. Lead Time Report

The State may require lead time reports which should provide order specific performance data. Data should be summarized to illustrate On-Time and Complete shipments, average lead times by product line, days to process and enter orders, and how close to requested ship dates the actual shipment takes place.

4.4.4. Additional Reports

The Contractor must provide any additional reports requested by the State pertaining to the Contract and associated data at no additional cost to the State.

4.5. Meetings

The Contractor must attend the following meetings:

- 4.5.1.** A contract kick-off meeting within 30 calendar days of the Effective Date of the contract.
- 4.5.2.** Annual Performance Review of Service Level Compliance. See also Section 11 Service Level Agreement and Section 4.4.1.1
- 4.5.3.** The State may request other meetings as it deems appropriate.

5. Pricing

5.1. Price Term

Pricing is firm for the entire length of the Contract. See Schedule B, Pricing. All installation rates must include prevailing wage as applicable. Installation should be bid at the carpenter rate provided in **Schedule B Pricing Tab 7 Services** and billed at for the duration of the contract. Current Carpenter Prevailing wage rates can be found on the Licensing and Regulatory Affairs (LARA) website here:

<https://www.michigan.gov/leo/bureaus-agencies/ber/wage-and-hour/dtmb-prevailing-wage>

Prevailing wage rates provided will be updated, if necessary, at Contract integration.

5.2. Price Changes

- a. Adjustments will be based on changes in actual Contractor costs. Any request must be supported by written evidence documenting the change in costs. The State may consider sources, such as the Consumer Price Index; Producer Price Index; other pricing indices as needed; economic and industry data; manufacturer or supplier letters noting the increase in pricing; and any other data the State deems relevant.
- b. Following the presentation of supporting documentation, both parties will have 30 days to review the information and prepare a written response. If the review reveals no need for modifications, pricing will remain unchanged unless mutually agreed to by the parties. If the review reveals that changes are needed, both parties will negotiate such changes, for no longer than 30 days, unless extended by mutual agreement.
- c. The Contractor remains responsible for Contract Activities at the current price for all orders received before the mutual execution of a Change Notice indicating the start date of the new Pricing Period.

5.3. Project Prevailing Wage Requirements, applicable only if construction or installation is required as part of Contract Activities

The Contractor (and its Subcontractors) must pay all mechanics and laborers employed directly on the site of the work, unconditionally and at their organization's payment schedule/cadence, and without subsequent deduction or rebate on any account, the full amounts accrued at time of payment, computed at wage rates not less than those stated in the advertised specifications as prevailing wages based on locality, regardless of any contractual relationship which may be alleged to exist between the Contractor or subcontractor and the laborers and mechanics.

Contractor must post the scale of wages to be paid in a prominent and easily accessible place at the site of the work.

5.4. Premium-Priced Services

Premium Services are defined as services performed during evenings (between 5:00 p.m. and 7:00 a.m.) and weekends (Saturday and Sunday). Premium service charges are only applicable when requested by the State. Premium services are applicable to State holidays which are as follows:

New Year's Day; Martin Luther King Day; Presidents' Day; Memorial Day; Juneteenth, Fourth of July; Labor Day; Election Day on even-numbered years; Veterans' Day; Thanksgiving Day; Friday after Thanksgiving; Christmas Eve Day; Christmas Day; and New Year's Eve Day

6. Electronic Catalog

The Contractor must provide electronic product and pricing catalog(s) for the seating products placed on a Contract. The intention of an electronic form of product and pricing catalogs would be to create a more effective and efficient means of contract product and pricing distribution throughout the State agencies and end users. These catalog(s) must be in Web and PDF format and must include the Manufacturers List Unit Pricing. The Contractor must supply the State with updated product and pricing information over the duration of the Contract using the then - current catalog template provided by the State. Product and price changes provided in this manner will not take effect until the catalog is updated in the State's procurement system.

7. Ordering

7.1. Authorizing Document

The appropriate authorizing document for the Contract will be a Signed Contract/Master Agreement and issuance of Delivery Orders (DO).

7.2. Order Verification

The Contractor must have internal controls approved by Program Manager to verify abnormal orders and to ensure that only authorized individuals place orders.

- a. The dealer placing the State's orders will receive all Delivery Orders and review them before they are forwarded to Haworth to be processed. The dealers will only process orders that are received from Purchasing personnel or any other persons the State indicates in writing as Authorized Personnel. Haworth will not process Delivery Orders that are not sent through the servicing dealer.
- b. Delivery Orders that may be of concern will be brought to the attention of the appropriate State personnel before they are processed. Items of concern may include, but are not limited to, a) unsigned delivery orders, b) delivery orders that do not reference the contract number, c) delivery orders for large quantities of product that are not accompanied by a dealer quote summary, specification sign offs, and/or SIF file as proposed for a design project.
- c. The Contractor's electronic ordering system, **Lynx**, flags orders that are placed with duplicate purchase order numbers. These orders must be reviewed and authorized by the dealer to be processed.

7.3. Minimum Order

There are no minimum order requirements allowed in this Contract.

7.4. Packaging and Palletizing

Packaging must be optimized to permit the lowest freight rate. Shipments must be palletized whenever possible using manufacturer's standard 4-way shipping pallets.

- a. The Contractor ships all freight FOB to the “Ship to” destination on the State’s Delivery Order.
- b. Loads that require palletizing, single stacking, street offload, double stacking or tapered double stack are to be designated by the dealer at the point of order entry. Additional charges may apply.

8. Acceptance

See also **Standard Contract Terms, Section 17. Acceptance** for additional Acceptance Terms.

8.1. Acceptance, Inspection and Testing

The State Agency Representative, State Project Manager, or State designee will review and inspect the order shipment documents and approve acceptance of goods upon delivery.

The Shipment Document must include product details.

8.2. Acceptance of Installation

The State Agency Representative, State Project Manager, or State designee will review and inspect installation and approve acceptance of services upon installation completion.

9. Invoice and Payment

9.1. Invoice Requirements

All invoices submitted to the State must include:

- a. The contract number,
- b. The Delivery Order (DO) number,
- c. Date,
- d. Description of product or service provided,
- e. Project reference,
- f. Labor hours (separate out installation labor, removal labor, cleaning labor, floor preparation labor, etc.),
- g. The service location,
- h. Delivery dates,
- i. Quantities,
- j. Unit prices,
- k. Total price
- l. Prompt Payment Discount if applicable.

The State may require alterations to invoice details at any point throughout the contract term.

9.2. Payment Methods

The State will make payment for Contract Activities via Electronic Funds Transfer (EFT). Users of this contract could potentially place orders via Procurement Card (PCard). Please explain your process for ordering and accepting this payment method. If an account needs to be created on your purchasing platform, please submit documentation that shows the steps for completing this process.

10. Additional Requirements

10.1. Environmental and Energy Efficiency Product Standards

The Contractor must identify any energy efficient, bio-based, or otherwise environmentally friendly products used in the products. Contractor must include any relevant third-party certification, including the verification of a United States Department of Agriculture certified bio-based product label. Contractor must describe how products that meet these requirements are identified or otherwise labelled.

- a. The Contractor uses Life Cycle Assessments (LCA) to understand our product embodied carbon and to inform our design strategies. The Contractor's products' life cycle impacts, including embodied carbon, are communicated through their product environmental data sheets (PEDS) and their Ecomedes platform.
- b. The Contractor recertified 97% of North American sales to the 2019 version of the ANSI/BIFMA e3 Furniture Sustainability Standard, via the LEVEL® thus achieving LEVEL 3 certification in 14 product lines.

10.2. Mercury Content

Pursuant to MCL 18.1261d, mercury-free products must be procured when possible.

- a. The Contractor's products do not contain Red List chemicals, including mercury. This is confirmed through their products' certifications to GREENGUARD, GREENGUARD GOLD, and BIFMA.

10.3. Brominated Flame Retardants

The State prefers to purchase products that do not contain brominated flame retardants (BFRs) whenever possible. The Contractor must disclose whether the products contain BFRs.

- a. The Contractors seating products do not contain any flame retardants other than what is required by code. The contractor regularly updates and publishes Product Environmental Data (PEDs) on its website (haworth.com).

10.3. Perfluoroalkyl and Polyfluoroalkyl Substances (PFAS)

The Contractor must disclose whether a product or its components contain intentionally added PFAS. If the product or its components contain intentionally added PFAS the Contractor must:

- a. provide an explanation with respect to the intentionally added PFAS contents, including the purpose for which PFAS are used in the product or its components, the types of PFAS used in the product or its components, and the amount of each PFAS used in the product or its components.
- b. indicate whether the product will be labeled or packaged with information about the intentionally added PFAS contents.
- c. identify any alternative products that do not contain intentionally added PFAS.
- d. provide any additional information that would further the Department’s implementation of [ED 2021-08](#).

11. Service-Level Agreements (SLAs)

11.1 The Contractor will be held accountable to meet the requirements and the service level requirements established in this Contract.

Service Level Agreements for this Contract will be as follows:

SLA Metric 1. Timely Deliveries	
Definition and Purpose	<p>The Contractor must ensure that items and quantities delivered are exactly the items, brands, and quantities on the Order Confirmation. No substitutions will be allowed without prior written permission by Program Manager and a Change Notice executed by the Contract Administrator.</p> <p>The entire order will be received on the same day unless a partial delivery has been approved in advance by the Program Manager.</p>

Failure to complete the site visit within 10 business days will result in an account credit of \$500.

SCHEDULE B - PRICING

The Contractor must provide a pricing schedule for the proposed Contract Activities using this document. The pricing schedule should be submitted in a modifiable format (e.g., Microsoft Word or Excel); however, you may also submit an additional pricing schedule in a non-modifiable format (e.g., PDF). Failure to complete the pricing schedule as requested may result in disqualification of your proposal.

1. Price proposals must include all costs, including but not limited to, any one-time or set-up charges, fees, and potential costs that Contractor may charge the State (e.g., shipping and handling, per piece pricing, and palletizing).
2. The Contractor is encouraged to offer quick payment terms. The number of days must not include processing time for payment to be received by the Contractor's financial institution.
3. By submitting its proposal, the Contractor certifies that the prices were arrived at independently, and without consultation, communication, or agreement with any other Contractor.

SCHEDULE C – INSURANCE REQUIREMENTS

- 1. General Requirements.** Contractor, at its sole expense, must maintain the insurance coverage as specified herein for the duration of the Term. Minimum limits may be satisfied by any combination of primary liability, umbrella or excess liability, and self-insurance coverage. To the extent damages are covered by any required insurance, Contractor waives all rights against the State for such damages. Failure to maintain required insurance does not limit this waiver.
- 2. Qualification of Insurers.** Except for self-insured coverage, all policies must be written by an insurer with an A.M. Best rating of A- VII or higher unless otherwise approved by DTMB Enterprise Risk Management.
- 3. Primary and Non-Contributory Coverage.** All policies for which the State of Michigan is required to be named as an additional insured must be on a primary and non-contributory basis.
- 4. Claims-Made Coverage.** If any required policies provide claims-made coverage, Contractor must:
 - a. Maintain coverage and provide evidence of coverage for at least 3 years after the later of the expiration or termination of the Contract or the completion of all its duties under the Contract;
 - b. Purchase extended reporting coverage for a minimum of 3 years after completion of work if coverage is cancelled or not renewed, and not replaced with another claims-made policy form with a retroactive date prior to the Effective Date of this Contract.
- 5. Proof of Insurance.**
 - a. Insurance certificates showing evidence of coverage as required herein must be submitted to DTMB-RiskManagement@michigan.gov within 10 days of the contract execution date.
 - b. Renewal insurance certificates must be provided on annual basis or as otherwise commensurate with the effective dates of coverage for any insurance required herein.
 - c. Insurance certificates must be in the form of a standard ACORD Insurance Certificate unless otherwise approved by DTMB Enterprise Risk Management.
 - d. All insurance certificates must clearly identify the Contract Number (e.g., notated under the Description of Operations on an ACORD form).

- e. In the event any required coverage is cancelled or not renewed, Contractor must provide written notice to DTMB Enterprise Risk Management no later than 5 business days following such cancellation or nonrenewal.
- 6. **Subcontractors.** Contractor is responsible for ensuring its subcontractors carry and maintain insurance coverage.
- 7. **Limits of Coverage & Specific Endorsements.**

SCHEDULE G – WARRANTY

Great Expectations

You have them as a Haworth customer and so do we. And because we value our customers, we cover our products with this **Product Compatibility and Limited Warranty Policy**.

OUR COMMITMENT TO PRODUCT COMPATIBILITY – INTEGRATED PRODUCT PLATFORMS - OBSOLESCENCE POLICY

As a market leader in the design and manufacture of workspaces that adapt to change, we strive to maintain product compatibility within our various generations of integrated product platforms. As we develop new products there is an emphasis to provide solutions that are compatible yet allow for enhancement of previous generations of products. This benefits the customer who desires to leverage their existing products but enhance their work environment at the same time. With this mindset, under our obsolescence policy, Haworth takes reasonable steps to provide our customers with products of comparable form, fit, and function. As with any material or component, supply chain challenges can impact our ability to offer previous or existing products. In addition, fabrics and finishes are significantly impacted by design trends resulting in shorter life cycles. In these situations, we will make reasonable efforts to find coordinating solutions.

OUR COMMITMENT TO PRODUCT QUALITY – THE HAWORTH NORTH AMERICA LIMITED WARRANTY

To ensure customer satisfaction and peace of mind, we stand behind our products with the following Haworth North America Limited Warranty ("Limited Warranty").

What Products are Covered?

This Limited Warranty applies to new products manufactured by Haworth, Inc. or Haworth, Ltd. (individually, "Haworth") after August 1, 2022, that are sold to an end-user purchaser by Haworth or an Authorized Haworth Dealer ("Covered Products"). Covered Products also include new products manufactured by a company other than Haworth after August 1, 2022, that are sold to an end-user purchaser by Haworth or an Authorized Haworth Dealer as part of the Haworth Collection line of products, but only if such products are specifically listed below in the "What are the Warranty Periods? - Haworth Collection of Products" section of this Limited Warranty. For products manufactured on or before January 1, 2019, please refer to the applicable Haworth warranty published in the Haworth North America Price List when the product was purchased, for products manufactured after January 1, 2019 please refer to www.haworth.com for the applicable Haworth warranty or contact your local Authorized Haworth Dealer.

In this Limited Warranty, the terms "us," "we," "our" and similar terms refer to Haworth, and an end-user purchaser refers to the first person who purchases a Covered Product for such person's own internal use and not for resale or distribution.

The following products are excluded from the definition of "Covered Product" and not covered by this Limited Warranty, and neither Haworth nor its affiliates will have any obligation or liability relating to them: (a) software; (b) consumable items, such as batteries and bulbs/lamps; (c) the customer's own material (COM), or any material specified by the purchaser that is not a standard Haworth product offering, such as Haworth Alliance fabrics; (d) other than Haworth Collection products not manufactured by Haworth as described above, any item manufactured by a third party from whom Haworth purchases the item for resale without incorporating it into a Haworth product as a component or part (in those situations, if the purchaser is not a direct beneficiary of the manufacturer's warranty, then Haworth will assign to the purchaser any warranty that the manufacturer provides, to the extent the warranty is assignable); (e) Ergotron® products included in the Accessories North American Price List, regardless of whether incorporated into a Haworth product as a component or part (if the purchaser is not a direct beneficiary of any applicable Ergotron® warranty, Haworth will assign such warranty to the purchaser, to the extent assignable); and (f) field painted walls and Pergola products.

What Problems are Covered?

Subject to the terms of this Limited Warranty, Haworth warrants to the end-user purchaser of a Covered Product that the Covered Product, at the time of purchase, will be free of any defect in design or workmanship that materially impairs the performance or functionality of the Covered Product under normal use (a "Defect"). This warranty is for 24-hour / 7-day multiple shift use of the applicable Covered Product; for seating products, such use is by individuals up to 325 lbs., 400 lbs. for Zody II and LX models. In this Limited Warranty, normal use means use of a Covered Product in accordance with all the following: (a) Haworth's standards instructions, guidelines, and recommendations for that Covered Product; (b) if the Covered Product is part of the Haworth Collection and not manufactured by Haworth, then the applicable manufacturer's standard instructions, guidelines, and recommendations for that Covered Product; and (c) applicable laws, rules, regulations, and ordinances.

A Defect excludes, and Haworth and its affiliates will not have any responsibility or liability for, the following: (a) normal wear and tear; (b) any damage, wear or failure of the Covered Product that occurs during transport of the Covered Product, or that is caused by improper use, care or maintenance of the Covered Product or by an act of God or other event outside of Haworth's reasonable control; (c) the natural variation of color, grain or texture found in wood and leather; (d) the natural aging of materials such as wood, fabric and leather which results in colors changing over time or during use; (e) dye lot variations in fabric, leather or wall coverings; (f) the natural patina of leather during use; (g) "puddling" or wrinkling of fabrics, leather, or faux leather; (h) reverse crocking of dyes from clothing onto seating materials; (i) change in color (including fading) or other surface effects resulting from exposure to chemicals (such as chemicals in cleaning solutions) or exposure to sunlight or other sources of ultraviolet rays; (j) any damage, wear or failure of the Covered Product caused by the integration or use of any non-Haworth materials, components, devices or other products into or with any Covered Product; or (k) any damage, wear, or scratching to flooring from glides, casters, or other components.

What Remedies are Available?

If a purchaser makes a valid claim under this Limited Warranty for a Defect to a Covered Product, Haworth, at its option, will either (a) repair the Covered Product at Haworth's cost, (b) replace the Covered Product at Haworth's cost with a new or refurbished product with comparable function and performance, or (c) refund or credit the purchase price of the Covered Product (excluding taxes, duties, fees, and other amounts). All repair and replacement work will be performed by Haworth or a third party engaged by Haworth to perform the specific repair or replacement work relating to the Defect; repair or replacement work performed by any other person will void this Warranty. Haworth will not be responsible for any cost or expenses incurred by the purchaser relating to repair or replacement of a Covered Product due to a Defect, including without limitation freight, insurance, inspection, storage and similar costs and expenses. Any Covered Product that is replaced or whose purchase price is refunded or credited will become the sole and exclusive property of Haworth.

What Conditions Apply?

All the following conditions must be satisfied to make a valid claim under this Limited Warranty for a Defect to a Covered Product:

- the purchaser must have notified Haworth in writing of the Defect within 30 days after the purchaser first learns or has notice of the Defect, and in any event not later than three (3) business days after the last day of the applicable warranty period; all such notices must be sent to Haworth at One Haworth Center, Holland, Michigan 49423, Attention: Customer Service/ Warranty Claims;
- the purchaser must provide original Haworth order number and have fully complied with all instructions, requirements, and directions provided by Haworth, an Authorized Haworth Dealer or their respective agents regarding (a) the inspection, preservation or safeguarding of the Covered Product and (b) the transportation and delivery of the Covered Product to Haworth or, if directed by Haworth, to an Authorized Haworth Dealer or other party;
- the Covered Product must have been installed by Haworth or an installer certified by Haworth to install that Covered Product;
- all prior repairs of the Covered Product must have been performed by Haworth or an installer certified by Haworth to install that Covered Product;
- the repair of the Defect of the Covered Product pursuant to this Warranty must be performed by Haworth or a third party engaged by Haworth to perform the specific warranty-repair work;
- at all times the Covered Product must have been in a building that is (a) dry, fully closed-in and protected from the natural elements, and (b) adequately heated, ventilated and air conditioned to maintain an internal temperature between 40°F and 90°F (4°C and 32°C) and relative humidity levels between 25% and 55%;
- the Covered Product must not have been modified, and the purchaser must have used and maintained the Covered Product in full conformity with all of Haworth's written specifications, instructions and guides regarding use, care, and maintenance.

- if the Covered Product is replaced or its purchase price is refunded, all bills of sale, assignments, releases, consents, approvals, and other documents and/or actions required by Haworth to assign and transfer to Haworth sole and exclusive title in the Covered Product, free and clear of all liens, claims and encumbrances, must have been executed, delivered and/or made, as applicable; and
- all other conditions and requirements in or arising under this Limited Warranty, applicable law or a written agreement between Haworth and the purchaser, must have been fully satisfied.

What are the Warranty Periods?

A Covered Product's warranty period begins on the Covered Product's date of manufacture and ends on the expiration of the time period identified below for that particular Covered Product. In addition, the warranty period will automatically terminate at the time that the end-user purchaser ceases to solely own, possess, control, and use the Covered Product.

- **Lifetime.** Except for those Covered Products or related components or materials identified below as having a different warranty period, the warranty period of a Covered Product is as long as the end-user purchaser continues to solely own the Covered Product.
- **Twelve (12) Years.** The following Covered Products have a 12-year warranty period:
 - seating products (excluding fabrics, tablet arms, and gel arm caps)
 - thermally fused laminates (Be_Hold Be_Hold Be)
 - Premium Textured HPL
 - wood or wood-framed products

 - Pergola PET tiles
 - Belong Power Cube and Power Suite

¹ Troubleshooting procedures provided by Haworth must be used to determine if a mechanism is defective, the associated error code needs to be included in the Service Notification. Programmable handsets required to read error codes.

² The tempering process for glass results in stronger glass and allows it to fracture into smaller, less harmful pieces when it breaks. Tempered glass often is referred to as "safety glass" because of this breakage feature. Although stronger, it is still important to handle tempered glass with care and avoid impact damage. Small impurities introduced during the tempering process or damage to edges during handling or use can result in spontaneous glass breakage at unpredictable times and are excluded from warranty coverage.

- **Three (3) Years.** The following Covered Products have a 3-year warranty period:
 - Power Base AI Electrical product
 - painted MDF product
 - USB retrofit kits or products incorporating USB charging outlets (Except Power Base)
 - wall product locksets
 - fabrics rated General Contract (a) under the Association of Contract Textiles Guideline
- **Two (2) Years.** The following Covered Products have a 2-year warranty period:
 - walls door closer mechanisms
 - Pergola drapes and associated track hardware
 - products manufactured of Polyethylene Terephthalate (PET) excluding Pergola tiles
- **One (1) Year.** The following Covered Products have a 1-year warranty period:

 - soft palm rests
 - electronic locks and components
 - tablet markerboards
 - mouse pad inserts
 - Translucent edging
 - glass used in walls product (see note ² above for more details and exclusions)
 - Openest™ Plume Screens
- **No Warranty.** The following Products and conditions are excluded from the definition of "Covered Product" and not covered by this Limited Warranty:
 - acrylic or corrugated screens
 - exclusions noted or defined in sections "What Products are Covered" and "What Problems are Covered"
- **Specific Product Lines.**
 - **Tailored Solutions™.** A Covered Product that is modified under Haworth's "Tailored Solutions" program will have a warranty period that is the same as the standard catalog product that is modified; however, any material modification of the standard catalog product's features, construction, function, or aesthetics will have a 1-year warranty period.
 - **Haworth Healthcare Products.** The warranty period of a Covered Product within the Haworth Healthcare line of products is as follows (textiles and coverings are not covered by this Limited Warranty):

GENERAL TERMS

This Product Compatibility and Limited Warranty Policy extends solely to end-user purchasers of Covered Products and not to their successors, assigns, employees, agents, or affiliates. This Policy is not assignable or transferable in whole or in part, whether voluntarily, by operation of law or otherwise, and any purported assignment or transfer will be void.

All determinations regarding the scope, applicability, and interpretation of this Policy, including without limitation the satisfaction of and compliance with any of its conditions and requirements, will be made solely by Haworth in its discretion. All such determinations made by Haworth will be final, non-appealable and binding on all persons.

EXCEPT FOR THE EXPRESS LIMITED WARRANTY STATED ABOVE, TO THE EXTENT ALLOWED BY LAW, HAWORTH DOES NOT MAKE, AND IT EXPRESSLY DISCLAIMS, ANY WARRANTY OR REPRESENTATION, EXPRESS OR IMPLIED, STATUTORY OR OTHERWISE, AS TO ANY PRODUCT OR SERVICE AND, IN PARTICULAR, DOES NOT MAKE, AND EXPRESSLY DISCLAIMS, ANY WARRANTY OR REPRESENTATION OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE. ANY LEGALLY REQUIRED WARRANTY THAT MAY NOT BE DISCLAIMED WILL BE LIMITED IN DURATION TO ONE (1) YEAR FROM THE DATE OF MANUFACTURE.

AS SET FORTH IN THIS POLICY, REPAIR OR REPLACEMENT, OR REFUND/CREDIT OF THE PURCHASE PRICE, AT HAWORTH'S OPTION, OF A COVERED PRODUCT ARE THE EXCLUSIVE REMEDIES FOR ANY DEFECT TO THAT COVERED PRODUCT OR ANY OTHER ISSUE RELATING TO ITS MANUFACTURE OR INSTALLATION. IN NO EVENT SHALL HAWORTH OR ANY OF ITS AFFILIATES HAVE ANY LIABILITY IN TORT OR FOR ANY CONSEQUENTIAL, ECONOMIC, INDIRECT, SPECIAL, PUNITIVE, OR INCIDENTAL DAMAGES, OR FOR LOSS OF PROFITS, REVENUES, USE OR REPUTATION, WITH RESPECT TO ANY COVERED PRODUCT OR ANY OTHER PRODUCT, WHETHER CAUSED BY, ARISING FROM OR RELATING TO A DEFECT OR OTHERWISE.

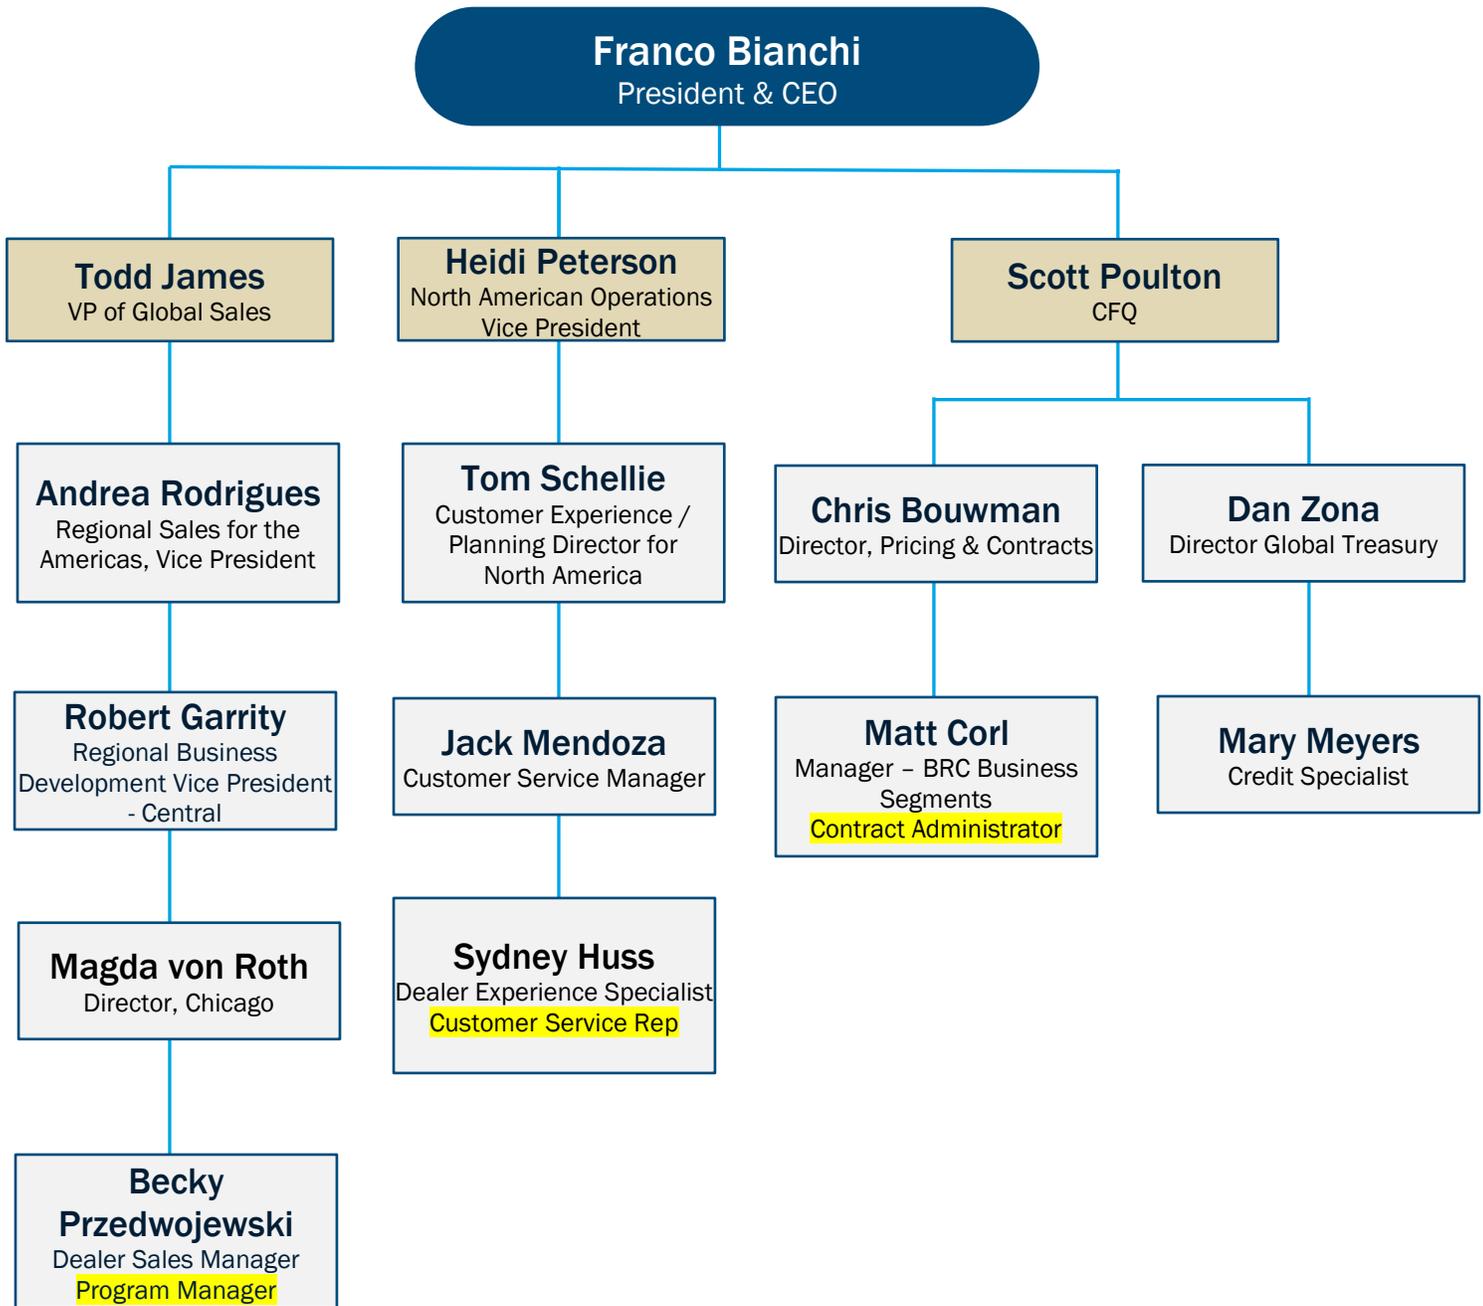

Applies to U.S. only: Some states do not allow limitations on how long an implied warranty lasts or do not allow the exclusion or limitation of incidental or consequential damages, so the limitations or exclusions in the immediately preceding paragraph may not apply to a purchaser. This Limited Warranty gives the purchaser specific legal rights, and the purchaser may also have other rights which vary from state to state.

§ 115.5 General definitions.

For purposes of this part, the term—

Agency means the unit of a State, local, corporate, or nonprofit authority, or of the Department of Justice, with direct responsibility for the operation of any facility that confines inmates, detainees, or residents, including the implementation of policy as set by the governing, corporate, or nonprofit authority.

Agency head means the principal official of an agency.

Community confinement facility means a community treatment center, halfway house, restitution center, mental health facility, alcohol or drug rehabilitation center, or other community correctional facility (including residential re-entry centers), other than a juvenile facility, in which individuals reside as part of a term of imprisonment or as a condition of pre-trial release or post-release supervision, while participating in gainful employment, employment search efforts, community service, vocational training, treatment, educational programs, or similar facility-approved programs during nonresidential hours.

Contractor means a person who provides services on a recurring basis pursuant to a contractual agreement with the agency.

Detainee means any person detained in a lockup, regardless of adjudication status.

Direct staff supervision means that security staff are in the same room with, and within reasonable hearing distance of, the resident or inmate.

Employee means a person who works directly for the agency or facility.

Exigent circumstances means any set of temporary and unforeseen circumstances that require immediate action in order to combat a threat to the security or institutional order of a facility.

Facility means a place, institution, building (or part thereof), set of buildings, structure, or area (whether or not enclosing a building or set of buildings) that is used by an agency for the confinement of individuals.

Facility head means the principal official of a facility.

Full compliance means compliance with all material requirements of each standard except for *de minimis* violations, or discrete and temporary violations during otherwise sustained periods of compliance.

Gender nonconforming means a person whose appearance or manner does not conform to traditional societal gender expectations.

Inmate means any person incarcerated or detained in a prison or jail.

Intersex means a person whose sexual or reproductive anatomy or chromosomal pattern does not seem to fit typical definitions of male or female. Intersex medical conditions are sometimes referred to as disorders of sex development.

Jail means a confinement facility of a Federal, State, or local law enforcement agency whose primary use is to hold persons pending adjudication of criminal charges, persons committed to confinement after

adjudication of criminal charges for sentences of one year or less, or persons adjudicated guilty who are awaiting transfer to a correctional facility.

Juvenile means any person under the age of 18, unless under adult court supervision and confined or detained in a prison or jail.

Juvenile facility means a facility primarily used for the confinement of juveniles pursuant to the juvenile justice system or criminal justice system.

Law enforcement staff means employees responsible for the supervision and control of detainees in lockups.

Lockup means a facility that contains holding cells, cell blocks, or other secure enclosures that are:
(1) Under the control of a law enforcement, court, or custodial officer; and
(2) Primarily used for the temporary confinement of individuals who have recently been arrested, detained, or are being transferred to or from a court, jail, prison, or other agency.

Medical practitioner means a health professional who, by virtue of education, credentials, and experience, is permitted by law to evaluate and care for patients within the scope of his or her professional practice. A “qualified medical practitioner” refers to such a professional who has also successfully completed specialized training for treating sexual abuse victims.

Mental health practitioner means a mental health professional who, by virtue of education, credentials, and experience, is permitted by law to evaluate and care for patients within the scope of his or her professional practice. A “qualified mental health practitioner” refers to such a professional who has also successfully completed specialized training for treating sexual abuse victims.

Pat-down search means a running of the hands over the clothed body of an inmate, detainee, or resident by an employee to determine whether the individual possesses contraband.

Prison means an institution under Federal or State jurisdiction whose primary use is for the confinement of individuals convicted of a serious crime, usually in excess of one year in length, or a felony.

Resident means any person confined or detained in a juvenile facility or in a community confinement facility.

Secure juvenile facility means a juvenile facility in which the movements and activities of individual residents may be restricted or subject to control through the use of physical barriers or intensive staff supervision. A facility that allows residents access to the community to achieve treatment or correctional objectives, such as through educational or employment programs, typically will not be considered to be a secure juvenile facility.

Security staff means employees primarily responsible for the supervision and control of inmates, detainees, or residents in housing units, recreational areas, dining areas, and other program areas of the facility.

Staff means employees.

Strip search means a search that requires a person to remove or arrange some or all clothing so as to permit a visual inspection of the person’s breasts, buttocks, or genitalia.

Transgender means a person whose gender identity (*i.e.*, internal sense of feeling male or female) is different from the person's assigned sex at birth.

Substantiated allegation means an allegation that was investigated and determined to have occurred.

Unfounded allegation means an allegation that was investigated and determined not to have occurred.

Unsubstantiated allegation means an allegation that was investigated and the investigation produced insufficient evidence to make a final determination as to whether or not the event occurred.

Volunteer means an individual who donates time and effort on a recurring basis to enhance the activities and programs of the agency.

Youthful inmate means any person under the age of 18 who is under adult court supervision and incarcerated or detained in a prison or jail.

Youthful detainee means any person under the age of 18 who is under adult court supervision and detained in a lockup.

§ 115.6 Definitions related to sexual abuse.

For purposes of this part, the term—

Sexual abuse includes—

- (1) Sexual abuse of an inmate, detainee, or resident by another inmate, detainee, or resident; and
- (2) Sexual abuse of an inmate, detainee, or resident by a staff member, contractor, or volunteer.

Sexual abuse of an inmate, detainee, or resident by another inmate, detainee, or resident includes any of the following acts, if the victim does not consent, is coerced into such act by overt or implied threats of violence, or is unable to consent or refuse:

- (1) Contact between the penis and the vulva or the penis and the anus, including penetration, however slight;
- (2) Contact between the mouth and the penis, vulva, or anus;
- (3) Penetration of the anal or genital opening of another person, however slight, by a hand, finger, object, or other instrument; and
- (4) Any other intentional touching, either directly or through the clothing, of the genitalia, anus, groin, breast, inner thigh, or the buttocks of another person, excluding contact incidental to a physical altercation.

Sexual abuse of an inmate, detainee, or resident by a staff member, contractor, or volunteer includes any of the following acts, with or without consent of the inmate, detainee, or resident:

- (1) Contact between the penis and the vulva or the penis and the anus, including penetration, however slight;
- (2) Contact between the mouth and the penis, vulva, or anus;
- (3) Contact between the mouth and any body part where the staff member, contractor, or volunteer has the intent to abuse, arouse, or gratify sexual desire;
- (4) Penetration of the anal or genital opening, however slight, by a hand, finger, object, or other instrument, that is unrelated to official duties or where the staff member, contractor, or volunteer has the intent to abuse, arouse, or gratify sexual desire;

- (5) Any other intentional contact, either directly or through the clothing, of or with the genitalia, anus, groin, breast, inner thigh, or the buttocks, that is unrelated to official duties or where the staff member, contractor, or volunteer has the intent to abuse, arouse, or gratify sexual desire;
- (6) Any attempt, threat, or request by a staff member, contractor, or volunteer to engage in the activities described in paragraphs (1)-(5) of this section;
- (7) Any display by a staff member, contractor, or volunteer of his or her uncovered genitalia, buttocks, or breast in the presence of an inmate, detainee, or resident, and
- (8) Voyeurism by a staff member, contractor, or volunteer.

Voyeurism by a staff member, contractor, or volunteer means an invasion of privacy of an inmate, detainee, or resident by staff for reasons unrelated to official duties, such as peering at an inmate who is using a toilet in his or her cell to perform bodily functions; requiring an inmate to expose his or her buttocks, genitals, or breasts; or taking images of all or part of an inmate's naked body or of an inmate performing bodily functions.

Sexual harassment includes—

- (1) Repeated and unwelcome sexual advances, requests for sexual favors, or verbal comments, gestures, or actions of a derogatory or offensive sexual nature by one inmate, detainee, or resident directed toward another; and
- (2) Repeated verbal comments or gestures of a sexual nature to an inmate, detainee, or resident by a staff member, contractor, or volunteer, including demeaning references to gender, sexually suggestive or derogatory comments about body or clothing, or obscene language or gestures.

<i>Prevention Planning</i> <i>§ 115.11 Zero tolerance of sexual abuse and sexual harassment; PREA coordinator.</i>
(a) An agency shall have a written policy mandating zero tolerance toward all forms of sexual abuse and sexual harassment and outlining the agency’s approach to preventing, detecting, and responding to such conduct.
(b) An agency shall employ or designate an upper-level, agency-wide PREA coordinator with sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards in all of its facilities.
(c) Where an agency operates more than one facility, each facility shall designate a PREA compliance manager with sufficient time and authority to coordinate the facility’s efforts to comply with the PREA standards.
<i>Prevention Planning</i> <i>§ 115.12 Contracting with other entities for the confinement of inmates.</i>
(a) A public agency that contracts for the confinement of its inmates with private agencies or other entities, including other government agencies, shall include in any new contract or contract renewal the entity’s obligation to adopt and comply with the PREA standards.
(b) Any new contract or contract renewal shall provide for agency contract monitoring to ensure that the contractor is complying with the PREA standards.
<i>Prevention Planning</i> <i>§ 115.13 Supervision and monitoring.</i>
(a) The agency shall ensure that each facility it operates shall develop, document, and make its best efforts to comply on a regular basis with a staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect inmates against sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring, facilities shall take into consideration: (1) Generally accepted detention and correctional practices; (2) Any judicial findings of inadequacy; (3) Any findings of inadequacy from Federal investigative agencies; (4) Any findings of inadequacy from internal or external oversight bodies; (5) All components of the facility’s physical plant (including “blind-spots” or areas where staff or inmates may be isolated); (6) The composition of the inmate population; (7) The number and placement of supervisory staff; (8) Institution programs occurring on a particular shift; (9) Any applicable State or local laws, regulations, or standards; (10) The prevalence of substantiated and unsubstantiated incidents of sexual abuse; and (11) Any other relevant factors.
(b) In circumstances where the staffing plan is not complied with, the facility shall document and justify all deviations from the plan.
(c) Whenever necessary, but no less frequently than once each year, for each facility the agency operates, in consultation with the PREA coordinator required by § 115.11, the agency shall assess, determine, and document whether adjustments are needed to: (1) The staffing plan established pursuant to paragraph (a) of this section; (2) The facility’s deployment of video monitoring systems and other monitoring technologies; and (3) The resources the facility has available to commit to ensure adherence to the staffing plan.
(d) Each agency operating a facility shall implement a policy and practice of having intermediate-level or higher-level supervisors conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. Such policy and practice shall be implemented for night shifts as well as day shifts. Each agency shall have a policy to prohibit staff from alerting other staff members

that these supervisory rounds are occurring, unless such announcement is related to the legitimate operational functions of the facility.

Prevention Planning
§ 115.14 Youthful inmates.

(a) A youthful inmate shall not be placed in a housing unit in which the youthful inmate will have sight, sound, or physical contact with any adult inmate through use of a shared dayroom or other common space, shower area, or sleeping quarters.

(b) In areas outside of housing units, agencies shall either:
(1) maintain sight and sound separation between youthful inmates and adult inmates, or
(2) provide direct staff supervision when youthful inmates and adult inmates have sight, sound, or physical contact.

(c) Agencies shall make best efforts to avoid placing youthful inmates in isolation to comply with this provision. Absent exigent circumstances, agencies shall not deny youthful inmates daily large-muscle exercise and any legally required special education services to comply with this provision. Youthful inmates shall also have access to other programs and work opportunities to the extent possible.

Prevention Planning
§ 115.15 Limits to cross-gender viewing and searches.

(a) The facility shall not conduct cross-gender strip searches or cross-gender visual body cavity searches (meaning a search of the anal or genital opening) except in exigent circumstances or when performed by medical practitioners.

(b) As of [INSERT DATE 3 YEARS PLUS 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER], or [INSERT DATE 5 YEARS PLUS 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER] for a facility whose rated capacity does not exceed 50 inmates, the facility shall not permit cross-gender pat-down searches of female inmates, absent exigent circumstances. Facilities shall not restrict female inmates' access to regularly available programming or other out-of-cell opportunities in order to comply with this provision.

(c) The facility shall document all cross-gender strip searches and cross-gender visual body cavity searches, and shall document all cross-gender pat-down searches of female inmates.

(d) The facility shall implement policies and procedures that enable inmates to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Such policies and procedures shall require staff of the opposite gender to announce their presence when entering an inmate housing unit.

(e) The facility shall not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate's genital status. If the inmate's genital status is unknown, it may be determined during conversations with the inmate, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner.

(f) The agency shall train security staff in how to conduct cross-gender pat-down searches, and searches of transgender and intersex inmates, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs.

Prevention Planning
§ 115.16 Inmates with disabilities and inmates who are limited English proficient.

(a) The agency shall take appropriate steps to ensure that inmates with disabilities (including, for example, inmates who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Such steps shall include, when necessary to ensure effective communication with inmates who are deaf or hard of hearing, providing access to interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. In addition, the agency shall ensure that written materials are provided in formats or through methods that ensure effective communication with inmates with disabilities, including inmates

who have intellectual disabilities, limited reading skills, or who are blind or have low vision. An agency is not required to take actions that it can demonstrate would result in a fundamental alteration in the nature of a service, program, or activity, or in undue financial and administrative burdens, as those terms are used in regulations promulgated under title II of the Americans With Disabilities Act, 28 CFR 35.164.

(b) The agency shall take reasonable steps to ensure meaningful access to all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment to inmates who are limited English proficient, including steps to provide interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary.

(c) The agency shall not rely on inmate interpreters, inmate readers, or other types of inmate assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the inmate's safety, the performance of first-response duties under § 115.64, or the investigation of the inmate's allegations.

Prevention Planning
§ 115.17 Hiring and promotion decisions.

(a) The agency shall not hire or promote anyone who may have contact with inmates, and shall not enlist the services of any contractor who may have contact with inmates, who—

- (1) Has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution (as defined in 42 U.S.C. 1997);
- (2) Has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or
- (3) Has been civilly or administratively adjudicated to have engaged in the activity described in paragraph (a)(2) of this section.

(b) The agency shall consider any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with inmates.

(c) Before hiring new employees who may have contact with inmates, the agency shall:

- (1) Perform a criminal background records check; and
- (2) Consistent with Federal, State, and local law, make its best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse.

(d) The agency shall also perform a criminal background records check before enlisting the services of any contractor who may have contact with inmates.

(e) The agency shall either conduct criminal background records checks at least every five years of current employees and contractors who may have contact with inmates or have in place a system for otherwise capturing such information for current employees.

(f) The agency shall ask all applicants and employees who may have contact with inmates directly about previous misconduct described in paragraph (a) of this section in written applications or interviews for hiring or promotions and in any interviews or written self-evaluations conducted as part of reviews of current employees. The agency shall also impose upon employees a continuing affirmative duty to disclose any such misconduct.

(g) Material omissions regarding such misconduct, or the provision of materially false information, shall be grounds for termination.

(h) Unless prohibited by law, the agency shall provide information on substantiated allegations of sexual abuse or sexual harassment involving a former employee upon receiving a request from an institutional employer for whom such employee has applied to work.

Prevention Planning
§ 115.18 Upgrades to facilities and technologies.

(a) When designing or acquiring any new facility and in planning any substantial expansion or modification of existing facilities, the agency shall consider the effect of the design, acquisition, expansion, or modification upon the agency's ability to protect inmates from sexual abuse.

(b) When installing or updating a video monitoring system, electronic surveillance system, or other monitoring technology, the agency shall consider how such technology may enhance the agency's ability to protect inmates from sexual abuse.

Responsive Planning

§ 115.21 Evidence protocol and forensic medical examinations.

(a) To the extent the agency is responsible for investigating allegations of sexual abuse, the agency shall follow a uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative proceedings and criminal prosecutions.

(b) The protocol shall be developmentally appropriate for youth where applicable, and, as appropriate, shall be adapted from or otherwise based on the most recent edition of the U.S. Department of Justice's Office on Violence Against Women publication, "A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents," or similarly comprehensive and authoritative protocols developed after 2011.

(c) The agency shall offer all victims of sexual abuse access to forensic medical examinations, whether on-site or at an outside facility, without financial cost, where evidentiarily or medically appropriate. Such examinations shall be performed by Sexual Assault Forensic Examiners (SAFEs) or Sexual Assault Nurse Examiners (SANEs) where possible. If SAFEs or SANEs cannot be made available, the examination can be performed by other qualified medical practitioners. The agency shall document its efforts to provide SAFEs or SANEs.

(d) The agency shall attempt to make available to the victim a victim advocate from a rape crisis center. If a rape crisis center is not available to provide victim advocate services, the agency shall make available to provide these services a qualified staff member from a community-based organization, or a qualified agency staff member. Agencies shall document efforts to secure services from rape crisis centers. For the purpose of this standard, a rape crisis center refers to an entity that provides intervention and related assistance, such as the services specified in 42 U.S.C. 14043g(b)(2)(C), to victims of sexual assault of all ages. The agency may utilize a rape crisis center that is part of a governmental unit as long as the center is not part of the criminal justice system (such as a law enforcement agency) and offers a comparable level of confidentiality as a nongovernmental entity that provides similar victim services.

(e) As requested by the victim, the victim advocate, qualified agency staff member, or qualified community-based organization staff member shall accompany and support the victim through the forensic medical examination process and investigatory interviews and shall provide emotional support, crisis intervention, information, and referrals.

(f) To the extent the agency itself is not responsible for investigating allegations of sexual abuse, the agency shall request that the investigating agency follow the requirements of paragraphs (a) through (e) of this section.

(g) The requirements of paragraphs (a) through (f) of this section shall also apply to:

(1) Any State entity outside of the agency that is responsible for investigating allegations of sexual abuse in prisons or jails; and

(2) Any Department of Justice component that is responsible for investigating allegations of sexual abuse in prisons or jails.

(h) For the purposes of this section, a qualified agency staff member or a qualified community-based staff member shall be an individual who has been screened for appropriateness to serve in this role and has received education concerning sexual assault and forensic examination issues in general.

Responsive Planning

§ 115.22 Policies to ensure referrals of allegations for investigations.

- (a) The agency shall ensure that an administrative or criminal investigation is completed for all allegations of sexual abuse and sexual harassment.
- (b) The agency shall have in place a policy to ensure that allegations of sexual abuse or sexual harassment are referred for investigation to an agency with the legal authority to conduct criminal investigations, unless the allegation does not involve potentially criminal behavior. The agency shall publish such policy on its website or, if it does not have one, make the policy available through other means. The agency shall document all such referrals.
- (c) If a separate entity is responsible for conducting criminal investigations, such publication shall describe the responsibilities of both the agency and the investigating entity.
- (d) Any State entity responsible for conducting administrative or criminal investigations of sexual abuse or sexual harassment in prisons or jails shall have in place a policy governing the conduct of such investigations.
- (e) Any Department of Justice component responsible for conducting administrative or criminal investigations of sexual abuse or sexual harassment in prisons or jails shall have in place a policy governing the conduct of such investigations.

Training and Education
 § 115.31 Employee training.

- (a) The agency shall train all employees who may have contact with inmates on:
 - (1) Its zero-tolerance policy for sexual abuse and sexual harassment;
 - (2) How to fulfill their responsibilities under agency sexual abuse and sexual harassment prevention, detection, reporting, and response policies and procedures;
 - (3) Inmates' right to be free from sexual abuse and sexual harassment;
 - (4) The right of inmates and employees to be free from retaliation for reporting sexual abuse and sexual harassment;
 - (5) The dynamics of sexual abuse and sexual harassment in confinement;
 - (6) The common reactions of sexual abuse and sexual harassment victims;
 - (7) How to detect and respond to signs of threatened and actual sexual abuse;
 - (8) How to avoid inappropriate relationships with inmates;
 - (9) How to communicate effectively and professionally with inmates, including lesbian, gay, bisexual, transgender, intersex, or gender nonconforming inmates; and
 - (10) How to comply with relevant laws related to mandatory reporting of sexual abuse to outside authorities.
- (b) Such training shall be tailored to the gender of the inmates at the employee's facility. The employee shall receive additional training if the employee is reassigned from a facility that houses only male inmates to a facility that houses only female inmates, or vice versa.
- (c) All current employees who have not received such training shall be trained within one year of the effective date of the PREA standards, and the agency shall provide each employee with refresher training every two years to ensure that all employees know the agency's current sexual abuse and sexual harassment policies and procedures. In years in which an employee does not receive refresher training, the agency shall provide refresher information on current sexual abuse and sexual harassment policies.
- (d) The agency shall document, through employee signature or electronic verification, that employees understand the training they have received.

Training and Education
 § 115.32 Volunteer and contractor training.

- (a) The agency shall ensure that all volunteers and contractors who have contact with inmates have been trained on their responsibilities under the agency's sexual abuse and sexual harassment prevention, detection, and response policies and procedures.
- (b) The level and type of training provided to volunteers and contractors shall be based on the services they provide and level of contact they have with inmates, but all volunteers and contractors who have

contact with inmates shall be notified of the agency's zero-tolerance policy regarding sexual abuse and sexual harassment and informed how to report such incidents.

(c) The agency shall maintain documentation confirming that volunteers and contractors understand the training they have received.

Training and Education
§ 115.33 Inmate education.

(a) During the intake process, inmates shall receive information explaining the agency's zero-tolerance policy regarding sexual abuse and sexual harassment and how to report incidents or suspicions of sexual abuse or sexual harassment.

(b) Within 30 days of intake, the agency shall provide comprehensive education to inmates either in person or through video regarding their rights to be free from sexual abuse and sexual harassment and to be free from retaliation for reporting such incidents, and regarding agency policies and procedures for responding to such incidents.

(c) Current inmates who have not received such education shall be educated within one year of the effective date of the PREA standards, and shall receive education upon transfer to a different facility to the extent that the policies and procedures of the inmate's new facility differ from those of the previous facility.

(d) The agency shall provide inmate education in formats accessible to all inmates, including those who are limited English proficient, deaf, visually impaired, or otherwise disabled, as well as to inmates who have limited reading skills.

(e) The agency shall maintain documentation of inmate participation in these education sessions.

(f) In addition to providing such education, the agency shall ensure that key information is continuously and readily available or visible to inmates through posters, inmate handbooks, or other written formats.

Training and Education
§ 115.34 Specialized training: Investigations.

(a) In addition to the general training provided to all employees pursuant to § 115.31, the agency shall ensure that, to the extent the agency itself conducts sexual abuse investigations, its investigators have received training in conducting such investigations in confinement settings.

(b) Specialized training shall include techniques for interviewing sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collection in confinement settings, and the criteria and evidence required to substantiate a case for administrative action or prosecution referral.

(c) The agency shall maintain documentation that agency investigators have completed the required specialized training in conducting sexual abuse investigations.

(d) Any State entity or Department of Justice component that investigates sexual abuse in confinement settings shall provide such training to its agents and investigators who conduct such investigations.

Training and Education
§ 115.35 Specialized training: Medical and mental health care.

(a) The agency shall ensure that all full- and part-time medical and mental health care practitioners who work regularly in its facilities have been trained in:

- (1) How to detect and assess signs of sexual abuse and sexual harassment;
 - (2) How to preserve physical evidence of sexual abuse;
 - (3) How to respond effectively and professionally to victims of sexual abuse and sexual harassment;
- and
- (4) How and to whom to report allegations or suspicions of sexual abuse and sexual harassment.

(b) If medical staff employed by the agency conduct forensic examinations, such medical staff shall receive the appropriate training to conduct such examinations.

(c) The agency shall maintain documentation that medical and mental health practitioners have received the training referenced in this standard either from the agency or elsewhere.

(d) Medical and mental health care practitioners shall also receive the training mandated for employees under § 115.31 or for contractors and volunteers under § 115.32, depending upon the practitioner's status at the agency.

Screening for Risk of Sexual Victimization and Abusiveness
§ 115.41 Screening for risk of victimization and abusiveness.

(a) All inmates shall be assessed during an intake screening and upon transfer to another facility for their risk of being sexually abused by other inmates or sexually abusive toward other inmates.

(b) Intake screening shall ordinarily take place within 72 hours of arrival at the facility.

(c) Such assessments shall be conducted using an objective screening instrument.

(d) The intake screening shall consider, at a minimum, the following criteria to assess inmates for risk of sexual victimization:

(1) Whether the inmate has a mental, physical, or developmental disability;

(2) The age of the inmate;

(3) The physical build of the inmate;

(4) Whether the inmate has previously been incarcerated;

(5) Whether the inmate's criminal history is exclusively nonviolent;

(6) Whether the inmate has prior convictions for sex offenses against an adult or child;

(7) Whether the inmate is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming;

(8) Whether the inmate has previously experienced sexual victimization;

(9) The inmate's own perception of vulnerability; and

(10) Whether the inmate is detained solely for civil immigration purposes.

(e) The initial screening shall consider prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse, as known to the agency, in assessing inmates for risk of being sexually abusive.

(f) Within a set time period, not to exceed 30 days from the inmate's arrival at the facility, the facility will reassess the inmate's risk of victimization or abusiveness based upon any additional, relevant information received by the facility since the intake screening.

(g) An inmate's risk level shall be reassessed when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the inmate's risk of sexual victimization or abusiveness.

(h) Inmates may not be disciplined for refusing to answer, or for not disclosing complete information in response to, questions asked pursuant to paragraphs (d)(1), (d)(7), (d)(8), or (d)(9) of this section.

(i) The agency shall implement appropriate controls on the dissemination within the facility of responses to questions asked pursuant to this standard in order to ensure that sensitive information is not exploited to the inmate's detriment by staff or other inmates.

Screening for Risk of Sexual Victimization and Abusiveness
§ 115.42 Use of screening information.

(a) The agency shall use information from the risk screening required by § 115.41 to inform housing, bed, work, education, and program assignments with the goal of keeping separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive.

(b) The agency shall make individualized determinations about how to ensure the safety of each inmate.

(c) In deciding whether to assign a transgender or intersex inmate to a facility for male or female inmates, and in making other housing and programming assignments, the agency shall consider on a case-by-case basis whether a placement would ensure the inmate's health and safety, and whether the placement would present management or security problems.

(d) Placement and programming assignments for each transgender or intersex inmate shall be reassessed at least twice each year to review any threats to safety experienced by the inmate.

(e) A transgender or intersex inmate's own views with respect to his or her own safety shall be given serious consideration.

(f) Transgender and intersex inmates shall be given the opportunity to shower separately from other inmates.

(g) The agency shall not place lesbian, gay, bisexual, transgender, or intersex inmates in dedicated facilities, units, or wings solely on the basis of such identification or status, unless such placement is in a dedicated facility, unit, or wing established in connection with a consent decree, legal settlement, or legal judgment for the purpose of protecting such inmates.

Screening for Risk of Sexual Victimization and Abusiveness
§ 115.43 Protective custody.

(a) Inmates at high risk for sexual victimization shall not be placed in involuntary segregated housing unless an assessment of all available alternatives has been made, and a determination has been made that there is no available alternative means of separation from likely abusers. If a facility cannot conduct such an assessment immediately, the facility may hold the inmate in involuntary segregated housing for less than 24 hours while completing the assessment.

(b) Inmates placed in segregated housing for this purpose shall have access to programs, privileges, education, and work opportunities to the extent possible. If the facility restricts access to programs, privileges, education, or work opportunities, the facility shall document:

- (1) The opportunities that have been limited;
- (2) The duration of the limitation; and
- (3) The reasons for such limitations.

(c) The facility shall assign such inmates to involuntary segregated housing only until an alternative means of separation from likely abusers can be arranged, and such an assignment shall not ordinarily exceed a period of 30 days.

(d) If an involuntary segregated housing assignment is made pursuant to paragraph (a) of this section, the facility shall clearly document:

- (1) The basis for the facility's concern for the inmate's safety; and
- (2) The reason why no alternative means of separation can be arranged.

(e) Every 30 days, the facility shall afford each such inmate a review to determine whether there is a continuing need for separation from the general population.

Reporting
§ 115.51 Inmate reporting.

(a) The agency shall provide multiple internal ways for inmates to privately report sexual abuse and sexual harassment, retaliation by other inmates or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to such incidents.

(b) The agency shall also provide at least one way for inmates to report abuse or harassment to a public or private entity or office that is not part of the agency, and that is able to receive and immediately forward inmate reports of sexual abuse and sexual harassment to agency officials, allowing the inmate to remain anonymous upon request. Inmates detained solely for civil immigration purposes shall be provided information on how to contact relevant consular officials and relevant officials at the Department of Homeland Security.

(c) Staff shall accept reports made verbally, in writing, anonymously, and from third parties and shall promptly document any verbal reports.

(d) The agency shall provide a method for staff to privately report sexual abuse and sexual harassment of inmates.

Reporting
§ 115.52 Exhaustion of administrative remedies.

(a) An agency shall be exempt from this standard if it does not have administrative procedures to address inmate grievances regarding sexual abuse.

(b)(1) The agency shall not impose a time limit on when an inmate may submit a grievance regarding an allegation of sexual abuse.

(2) The agency may apply otherwise-applicable time limits to any portion of a grievance that does not allege an incident of sexual abuse.

(3) The agency shall not require an inmate to use any informal grievance process, or to otherwise attempt to resolve with staff, an alleged incident of sexual abuse.

(4) Nothing in this section shall restrict the agency's ability to defend against an inmate lawsuit on the ground that the applicable statute of limitations has expired.

(c) The agency shall ensure that—

(1) An inmate who alleges sexual abuse may submit a grievance without submitting it to a staff member who is the subject of the complaint, and

(2) Such grievance is not referred to a staff member who is the subject of the complaint.

(d)(1) The agency shall issue a final agency decision on the merits of any portion of a grievance alleging sexual abuse within 90 days of the initial filing of the grievance.

(2) Computation of the 90-day time period shall not include time consumed by inmates in preparing any administrative appeal.

(3) The agency may claim an extension of time to respond, of up to 70 days, if the normal time period for response is insufficient to make an appropriate decision. The agency shall notify the inmate in writing of any such extension and provide a date by which a decision will be made.

(4) At any level of the administrative process, including the final level, if the inmate does not receive a response within the time allotted for reply, including any properly noticed extension, the inmate may consider the absence of a response to be a denial at that level.

(e)(1) Third parties, including fellow inmates, staff members, family members, attorneys, and outside advocates, shall be permitted to assist inmates in filing requests for administrative remedies relating to allegations of sexual abuse, and shall also be permitted to file such requests on behalf of inmates.

(2) If a third party files such a request on behalf of an inmate, the facility may require as a condition of processing the request that the alleged victim agree to have the request filed on his or her behalf, and may also require the alleged victim to personally pursue any subsequent steps in the administrative remedy process.

(3) If the inmate declines to have the request processed on his or her behalf, the agency shall document the inmate's decision.

(f)(1) The agency shall establish procedures for the filing of an emergency grievance alleging that an inmate is subject to a substantial risk of imminent sexual abuse.

(2) After receiving an emergency grievance alleging an inmate is subject to a substantial risk of imminent sexual abuse, the agency shall immediately forward the grievance (or any portion thereof that alleges the substantial risk of imminent sexual abuse) to a level of review at which immediate corrective action may be taken, shall provide an initial response within 48 hours, and shall issue a final agency decision within 5 calendar days. The initial response and final agency decision shall document the agency's determination whether the inmate is in substantial risk of imminent sexual abuse and the action taken in response to the emergency grievance.

(g) The agency may discipline an inmate for filing a grievance related to alleged sexual abuse only where the agency demonstrates that the inmate filed the grievance in bad faith.

Reporting

§ 115.53 Inmate access to outside confidential support services.

(a) The facility shall provide inmates with access to outside victim advocates for emotional support services related to sexual abuse by giving inmates mailing addresses and telephone numbers, including toll-free hotline numbers where available, of local, State, or national victim advocacy or rape crisis organizations, and, for persons detained solely for civil immigration purposes, immigrant services agencies. The facility shall enable reasonable communication between inmates and these organizations and agencies, in as confidential a manner as possible.

(b) The facility shall inform inmates, prior to giving them access, of the extent to which such communications will be monitored and the extent to which reports of abuse will be forwarded to authorities in accordance with mandatory reporting laws.

(c) The agency shall maintain or attempt to enter into memoranda of understanding or other agreements with community service providers that are able to provide inmates with confidential emotional support services related to sexual abuse. The agency shall maintain copies of agreements or documentation showing attempts to enter into such agreements.

Reporting

§ 115.54 Third-party reporting.

The agency shall establish a method to receive third-party reports of sexual abuse and sexual harassment and shall distribute publicly information on how to report sexual abuse and sexual harassment on behalf of an inmate.

Official Response Following an Inmate Report

§ 115.61 Staff and agency reporting duties.

(a) The agency shall require all staff to report immediately and according to agency policy any knowledge, suspicion, or information regarding an incident of sexual abuse or sexual harassment that occurred in a facility, whether or not it is part of the agency; retaliation against inmates or staff who reported such an incident; and any staff neglect or violation of responsibilities that may have contributed to an incident or retaliation.

(b) Apart from reporting to designated supervisors or officials, staff shall not reveal any information related to a sexual abuse report to anyone other than to the extent necessary, as specified in agency policy, to make treatment, investigation, and other security and management decisions.

(c) Unless otherwise precluded by Federal, State, or local law, medical and mental health practitioners shall be required to report sexual abuse pursuant to paragraph (a) of this section and to inform inmates of the practitioner's duty to report, and the limitations of confidentiality, at the initiation of services.

(d) If the alleged victim is under the age of 18 or considered a vulnerable adult under a State or local vulnerable persons statute, the agency shall report the allegation to the designated State or local services agency under applicable mandatory reporting laws.

(e) The facility shall report all allegations of sexual abuse and sexual harassment, including third-party and anonymous reports, to the facility's designated investigators.
<i>Official Response Following an Inmate Report § 115.62 Agency protection duties.</i>
When an agency learns that an inmate is subject to a substantial risk of imminent sexual abuse, it shall take immediate action to protect the inmate.
<i>Official Response Following an Inmate Report § 115.63 Reporting to other confinement facilities.</i>
(a) Upon receiving an allegation that an inmate was sexually abused while confined at another facility, the head of the facility that received the allegation shall notify the head of the facility or appropriate office of the agency where the alleged abuse occurred.
(b) Such notification shall be provided as soon as possible, but no later than 72 hours after receiving the allegation.
(c) The agency shall document that it has provided such notification.
(d) The facility head or agency office that receives such notification shall ensure that the allegation is investigated in accordance with these standards.
<i>Official Response Following an Inmate Report § 115.64 Staff first responder duties.</i>
(a) Upon learning of an allegation that an inmate was sexually abused, the first security staff member to respond to the report shall be required to: (1) Separate the alleged victim and abuser; (2) Preserve and protect any crime scene until appropriate steps can be taken to collect any evidence; (3) If the abuse occurred within a time period that still allows for the collection of physical evidence, request that the alleged victim not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating; and (4) If the abuse occurred within a time period that still allows for the collection of physical evidence, ensure that the alleged abuser does not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating.
(b) If the first staff responder is not a security staff member, the responder shall be required to request that the alleged victim not take any actions that could destroy physical evidence, and then notify security staff.
<i>Official Response Following an Inmate Report § 115.65 Coordinated response.</i>
The facility shall develop a written institutional plan to coordinate actions taken in response to an incident of sexual abuse, among staff first responders, medical and mental health practitioners, investigators, and facility leadership.
<i>Official Response Following an Inmate Report § 115.66 Preservation of ability to protect inmates from contact with abusers.</i>
(a) Neither the agency nor any other governmental entity responsible for collective bargaining on the agency's behalf shall enter into or renew any collective bargaining agreement or other agreement that limits the agency's ability to remove alleged staff sexual abusers from contact with any inmates pending the outcome of an investigation or of a determination of whether and to what extent discipline is warranted.
(b) Nothing in this standard shall restrict the entering into or renewal of agreements that govern: (1) The conduct of the disciplinary process, as long as such agreements are not inconsistent with the provisions of §§ 115.72 and 115.76; or

(2) Whether a no-contact assignment that is imposed pending the outcome of an investigation shall be expunged from or retained in the staff member's personnel file following a determination that the allegation of sexual abuse is not substantiated.

*Official Response Following an Inmate Report
§ 115.67 Agency protection against retaliation.*

(a) The agency shall establish a policy to protect all inmates and staff who report sexual abuse or sexual harassment or cooperate with sexual abuse or sexual harassment investigations from retaliation by other inmates or staff, and shall designate which staff members or departments are charged with monitoring retaliation.

(b) The agency shall employ multiple protection measures, such as housing changes or transfers for inmate victims or abusers, removal of alleged staff or inmate abusers from contact with victims, and emotional support services for inmates or staff who fear retaliation for reporting sexual abuse or sexual harassment or for cooperating with investigations.

(c) For at least 90 days following a report of sexual abuse, the agency shall monitor the conduct and treatment of inmates or staff who reported the sexual abuse and of inmates who were reported to have suffered sexual abuse to see if there are changes that may suggest possible retaliation by inmates or staff, and shall act promptly to remedy any such retaliation. Items the agency should monitor include any inmate disciplinary reports, housing, or program changes, or negative performance reviews or reassignments of staff. The agency shall continue such monitoring beyond 90 days if the initial monitoring indicates a continuing need.

(d) In the case of inmates, such monitoring shall also include periodic status checks.

(e) If any other individual who cooperates with an investigation expresses a fear of retaliation, the agency shall take appropriate measures to protect that individual against retaliation.

(f) An agency's obligation to monitor shall terminate if the agency determines that the allegation is unfounded.

*Official Response Following an Inmate Report
§ 115.68 Post-allegation protective custody.*

Any use of segregated housing to protect an inmate who is alleged to have suffered sexual abuse shall be subject to the requirements of § 115.43.

*Investigations
§ 115.71 Criminal and administrative agency investigations.*

(a) When the agency conducts its own investigations into allegations of sexual abuse and sexual harassment, it shall do so promptly, thoroughly, and objectively for all allegations, including third-party and anonymous reports.

(b) Where sexual abuse is alleged, the agency shall use investigators who have received special training in sexual abuse investigations pursuant to § 115.34.

(c) Investigators shall gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data; shall interview alleged victims, suspected perpetrators, and witnesses; and shall review prior complaints and reports of sexual abuse involving the suspected perpetrator.

(d) When the quality of evidence appears to support criminal prosecution, the agency shall conduct compelled interviews only after consulting with prosecutors as to whether compelled interviews may be an obstacle for subsequent criminal prosecution.

(e) The credibility of an alleged victim, suspect, or witness shall be assessed on an individual basis and shall not be determined by the person's status as inmate or staff. No agency shall require an inmate who alleges sexual abuse to submit to a polygraph examination or other truth-telling device as a condition for proceeding with the investigation of such an allegation.

(f) Administrative investigations:

(1) Shall include an effort to determine whether staff actions or failures to act contributed to the abuse; and

(2) Shall be documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings.
(g) Criminal investigations shall be documented in a written report that contains a thorough description of physical, testimonial, and documentary evidence and attaches copies of all documentary evidence where feasible.
(h) Substantiated allegations of conduct that appears to be criminal shall be referred for prosecution.
(i) The agency shall retain all written reports referenced in paragraphs (f) and (g) of this section for as long as the alleged abuser is incarcerated or employed by the agency, plus five years.
(j) The departure of the alleged abuser or victim from the employment or control of the facility or agency shall not provide a basis for terminating an investigation.
(k) Any State entity or Department of Justice component that conducts such investigations shall do so pursuant to the above requirements.
(l) When outside agencies investigate sexual abuse, the facility shall cooperate with outside investigators and shall endeavor to remain informed about the progress of the investigation.
<i>Investigations</i> <i>§ 115.72 Evidentiary standard for administrative investigations.</i>
The agency shall impose no standard higher than a preponderance of the evidence in determining whether allegations of sexual abuse or sexual harassment are substantiated.
<i>Investigations</i> <i>§ 115.73 Reporting to inmates.</i>
(a) Following an investigation into an inmate's allegation that he or she suffered sexual abuse in an agency facility, the agency shall inform the inmate as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded.
(b) If the agency did not conduct the investigation, it shall request the relevant information from the investigative agency in order to inform the inmate.
(c) Following an inmate's allegation that a staff member has committed sexual abuse against the inmate, the agency shall subsequently inform the inmate (unless the agency has determined that the allegation is unfounded) whenever: (1) The staff member is no longer posted within the inmate's unit; (2) The staff member is no longer employed at the facility; (3) The agency learns that the staff member has been indicted on a charge related to sexual abuse within the facility; or (4) The agency learns that the staff member has been convicted on a charge related to sexual abuse within the facility.
(d) Following an inmate's allegation that he or she has been sexually abused by another inmate, the agency shall subsequently inform the alleged victim whenever: (1) The agency learns that the alleged abuser has been indicted on a charge related to sexual abuse within the facility; or (2) The agency learns that the alleged abuser has been convicted on a charge related to sexual abuse within the facility.
(e) All such notifications or attempted notifications shall be documented.
(f) An agency's obligation to report under this standard shall terminate if the inmate is released from the agency's custody.
<i>Discipline</i> <i>§ 115.76 Disciplinary sanctions for staff.</i>
(a) Staff shall be subject to disciplinary sanctions up to and including termination for violating agency sexual abuse or sexual harassment policies.
(b) Termination shall be the presumptive disciplinary sanction for staff who have engaged in sexual abuse.

(c) Disciplinary sanctions for violations of agency policies relating to sexual abuse or sexual harassment (other than actually engaging in sexual abuse) shall be commensurate with the nature and circumstances of the acts committed, the staff member's disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories.
(d) All terminations for violations of agency sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, shall be reported to law enforcement agencies, unless the activity was clearly not criminal, and to any relevant licensing bodies.
<i>Discipline</i> <i>§ 115.77 Corrective action for contractors and volunteers.</i>
(a) Any contractor or volunteer who engages in sexual abuse shall be prohibited from contact with inmates and shall be reported to law enforcement agencies, unless the activity was clearly not criminal, and to relevant licensing bodies.
(b) The facility shall take appropriate remedial measures, and shall consider whether to prohibit further contact with inmates, in the case of any other violation of agency sexual abuse or sexual harassment policies by a contractor or volunteer.
<i>Discipline</i> <i>§ 115.78 Disciplinary sanctions for inmates.</i>
(a) Inmates shall be subject to disciplinary sanctions pursuant to a formal disciplinary process following an administrative finding that the inmate engaged in inmate-on-inmate sexual abuse or following a criminal finding of guilt for inmate-on-inmate sexual abuse.
(b) Sanctions shall be commensurate with the nature and circumstances of the abuse committed, the inmate's disciplinary history, and the sanctions imposed for comparable offenses by other inmates with similar histories.
(c) The disciplinary process shall consider whether an inmate's mental disabilities or mental illness contributed to his or her behavior when determining what type of sanction, if any, should be imposed.
(d) If the facility offers therapy, counseling, or other interventions designed to address and correct underlying reasons or motivations for the abuse, the facility shall consider whether to require the offending inmate to participate in such interventions as a condition of access to programming or other benefits.
(e) The agency may discipline an inmate for sexual contact with staff only upon a finding that the staff member did not consent to such contact.
(f) For the purpose of disciplinary action, a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred shall not constitute falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation.
(g) An agency may, in its discretion, prohibit all sexual activity between inmates and may discipline inmates for such activity. An agency may not, however, deem such activity to constitute sexual abuse if it determines that the activity is not coerced.
<i>Medical and Mental Care</i> <i>§ 115.81 Medical and mental health screenings; history of sexual abuse.</i>
(a) If the screening pursuant to § 115.41 indicates that a prison inmate has experienced prior sexual victimization, whether it occurred in an institutional setting or in the community, staff shall ensure that the inmate is offered a follow-up meeting with a medical or mental health practitioner within 14 days of the intake screening.
(b) If the screening pursuant to § 115.41 indicates that a prison inmate has previously perpetrated sexual abuse, whether it occurred in an institutional setting or in the community, staff shall ensure that the inmate is offered a follow-up meeting with a mental health practitioner within 14 days of the intake screening.
(c) If the screening pursuant to § 115.41 indicates that a jail inmate has experienced prior sexual victimization, whether it occurred in an institutional setting or in the community, staff shall ensure that

<p>the inmate is offered a follow-up meeting with a medical or mental health practitioner within 14 days of the intake screening.</p>
<p>(d) Any information related to sexual victimization or abusiveness that occurred in an institutional setting shall be strictly limited to medical and mental health practitioners and other staff, as necessary, to inform treatment plans and security and management decisions, including housing, bed, work, education, and program assignments, or as otherwise required by Federal, State, or local law.</p>
<p>(e) Medical and mental health practitioners shall obtain informed consent from inmates before reporting information about prior sexual victimization that did not occur in an institutional setting, unless the inmate is under the age of 18.</p>
<p><i>Medical and Mental Care</i> § 115.82 Access to emergency medical and mental health services.</p>
<p>(a) Inmate victims of sexual abuse shall receive timely, unimpeded access to emergency medical treatment and crisis intervention services, the nature and scope of which are determined by medical and mental health practitioners according to their professional judgment.</p>
<p>(b) If no qualified medical or mental health practitioners are on duty at the time a report of recent abuse is made, security staff first responders shall take preliminary steps to protect the victim pursuant to § 115.62 and shall immediately notify the appropriate medical and mental health practitioners.</p>
<p>(c) Inmate victims of sexual abuse while incarcerated shall be offered timely information about and timely access to emergency contraception and sexually transmitted infections prophylaxis, in accordance with professionally accepted standards of care, where medically appropriate.</p>
<p>(d) Treatment services shall be provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident.</p>
<p><i>Medical and Mental Care</i> § 115.83 Ongoing medical and mental health care for sexual abuse victims and abusers.</p>
<p>(a) The facility shall offer medical and mental health evaluation and, as appropriate, treatment to all inmates who have been victimized by sexual abuse in any prison, jail, lockup, or juvenile facility.</p>
<p>(b) The evaluation and treatment of such victims shall include, as appropriate, follow-up services, treatment plans, and, when necessary, referrals for continued care following their transfer to, or placement in, other facilities, or their release from custody.</p>
<p>(c) The facility shall provide such victims with medical and mental health services consistent with the community level of care.</p>
<p>(d) Inmate victims of sexually abusive vaginal penetration while incarcerated shall be offered pregnancy tests.</p>
<p>(e) If pregnancy results from the conduct described in paragraph (d) of this section, such victims shall receive timely and comprehensive information about and timely access to all lawful pregnancy-related medical services.</p>
<p>(f) Inmate victims of sexual abuse while incarcerated shall be offered tests for sexually transmitted infections as medically appropriate.</p>
<p>(g) Treatment services shall be provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident.</p>
<p>(h) All prisons shall attempt to conduct a mental health evaluation of all known inmate-on-inmate abusers within 60 days of learning of such abuse history and offer treatment when deemed appropriate by mental health practitioners.</p>
<p><i>Data Collection and Review</i> § 115.86 Sexual abuse incident reviews.</p>
<p>(a) The facility shall conduct a sexual abuse incident review at the conclusion of every sexual abuse investigation, including where the allegation has not been substantiated, unless the allegation has been determined to be unfounded.</p>
<p>(b) Such review shall ordinarily occur within 30 days of the conclusion of the investigation.</p>

(c) The review team shall include upper-level management officials, with input from line supervisors, investigators, and medical or mental health practitioners.

(d) The review team shall:

(1) Consider whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse;

(2) Consider whether the incident or allegation was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status; or gang affiliation; or was motivated or otherwise caused by other group dynamics at the facility;

(3) Examine the area in the facility where the incident allegedly occurred to assess whether physical barriers in the area may enable abuse;

(4) Assess the adequacy of staffing levels in that area during different shifts;

(5) Assess whether monitoring technology should be deployed or augmented to supplement supervision by staff; and

(6) Prepare a report of its findings, including but not necessarily limited to determinations made pursuant to paragraphs (d)(1)-(d)(5) of this section, and any recommendations for improvement and submit such report to the facility head and PREA compliance manager.

(e) The facility shall implement the recommendations for improvement, or shall document its reasons for not doing so.

Data Collection and Review
§ 115.87 Data collection.

(a) The agency shall collect accurate, uniform data for every allegation of sexual abuse at facilities under its direct control using a standardized instrument and set of definitions.

(b) The agency shall aggregate the incident-based sexual abuse data at least annually.

(c) The incident-based data collected shall include, at a minimum, the data necessary to answer all questions from the most recent version of the Survey of Sexual Violence conducted by the Department of Justice.

(d) The agency shall maintain, review, and collect data as needed from all available incident-based documents, including reports, investigation files, and sexual abuse incident reviews.

(e) The agency also shall obtain incident-based and aggregated data from every private facility with which it contracts for the confinement of its inmates.

(f) Upon request, the agency shall provide all such data from the previous calendar year to the Department of Justice no later than June 30.

Data Collection and Review
§ 115.88 Data review for corrective action.

(a) The agency shall review data collected and aggregated pursuant to § 115.87 in order to assess and improve the effectiveness of its sexual abuse prevention, detection, and response policies, practices, and training, including by:

(1) Identifying problem areas;

(2) Taking corrective action on an ongoing basis; and

(3) Preparing an annual report of its findings and corrective actions for each facility, as well as the agency as a whole.

(b) Such report shall include a comparison of the current year's data and corrective actions with those from prior years and shall provide an assessment of the agency's progress in addressing sexual abuse.

(c) The agency's report shall be approved by the agency head and made readily available to the public through its website or, if it does not have one, through other means.

(d) The agency may redact specific material from the reports when publication would present a clear and specific threat to the safety and security of a facility, but must indicate the nature of the material redacted.

Data Collection and Review
§ 115.89 Data storage, publication, and destruction.

(a) The agency shall ensure that data collected pursuant to § 115.87 are securely retained.
(b) The agency shall make all aggregated sexual abuse data, from facilities under its direct control and private facilities with which it contracts, readily available to the public at least annually through its website or, if it does not have one, through other means.
(c) Before making aggregated sexual abuse data publicly available, the agency shall remove all personal identifiers.
(d) The agency shall maintain sexual abuse data collected pursuant to § 115.87 for at least 10 years after the date of the initial collection unless Federal, State, or local law requires otherwise.
<i>Audits</i> <i>§ 115.93 Audits of standards.</i>
The agency shall conduct audits pursuant to §§ 115.401–.405.
<i>Auditing and Corrective Action</i> <i>§ 115.401 Frequency and scope of audits.</i>
(a) During the three-year period starting on [INSERT DATE ONE YEAR PLUS 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER], and during each three-year period thereafter, the agency shall ensure that each facility operated by the agency, or by a private organization on behalf of the agency, is audited at least once.
(b) During each one-year period starting on [INSERT DATE ONE YEAR PLUS 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER], the agency shall ensure that at least one-third of each facility type operated by the agency, or by a private organization on behalf of the agency, is audited.
(c) The Department of Justice may send a recommendation to an agency for an expedited audit if the Department has reason to believe that a particular facility may be experiencing problems relating to sexual abuse. The recommendation may also include referrals to resources that may assist the agency with PREA-related issues.
(d) The Department of Justice shall develop and issue an audit instrument that will provide guidance on the conduct of and contents of the audit.
(e) The agency shall bear the burden of demonstrating compliance with the standards.
(f) The auditor shall review all relevant agency-wide policies, procedures, reports, internal and external audits, and accreditations for each facility type.
(g) The audits shall review, at a minimum, a sampling of relevant documents and other records and information for the most recent one-year period.
(h) The auditor shall have access to, and shall observe, all areas of the audited facilities.
(i) The auditor shall be permitted to request and receive copies of any relevant documents (including electronically stored information).
(j) The auditor shall retain and preserve all documentation (including, e.g., video tapes and interview notes) relied upon in making audit determinations. Such documentation shall be provided to the Department of Justice upon request.
(k) The auditor shall interview a representative sample of inmates, residents, and detainees, and of staff, supervisors, and administrators.
(l) The auditor shall review a sampling of any available videotapes and other electronically available data (e.g., Watchtour) that may be relevant to the provisions being audited.
(m) The auditor shall be permitted to conduct private interviews with inmates, residents, and detainees.
(n) Inmates, residents, and detainees shall be permitted to send confidential information or correspondence to the auditor in the same manner as if they were communicating with legal counsel.
(o) Auditors shall attempt to communicate with community-based or victim advocates who may have insight into relevant conditions in the facility.

Auditing and Corrective Action
§ 115.402 Auditor qualifications.

- (a) An audit shall be conducted by:
- (1) A member of a correctional monitoring body that is not part of, or under the authority of, the agency (but may be part of, or authorized by, the relevant State or local government);
 - (2) A member of an auditing entity such as an inspector general's or ombudsperson's office that is external to the agency; or
 - (3) Other outside individuals with relevant experience.
- (b) All auditors shall be certified by the Department of Justice. The Department of Justice shall develop and issue procedures regarding the certification process, which shall include training requirements.
- (c) No audit may be conducted by an auditor who has received financial compensation from the agency being audited (except for compensation received for conducting prior PREA audits) within the three years prior to the agency's retention of the auditor.
- (d) The agency shall not employ, contract with, or otherwise financially compensate the auditor for three years subsequent to the agency's retention of the auditor, with the exception of contracting for subsequent PREA audits.

Auditing and Corrective Action
§ 115.403 Audit contents and findings.

- (a) Each audit shall include a certification by the auditor that no conflict of interest exists with respect to his or her ability to conduct an audit of the agency under review.
- (b) Audit reports shall state whether agency-wide policies and procedures comply with relevant PREA standards.
- (c) For each PREA standard, the auditor shall determine whether the audited facility reaches one of the following findings: Exceeds Standard (substantially exceeds requirement of standard); Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period); Does Not Meet Standard (requires corrective action). The audit summary shall indicate, among other things, the number of provisions the facility has achieved at each grade level.
- (d) Audit reports shall describe the methodology, sampling sizes, and basis for the auditor's conclusions with regard to each standard provision for each audited facility, and shall include recommendations for any required corrective action.
- (e) Auditors shall redact any personally identifiable inmate or staff information from their reports, but shall provide such information to the agency upon request, and may provide such information to the Department of Justice.
- (f) The agency shall ensure that the auditor's final report is published on the agency's website if it has one, or is otherwise made readily available to the public.

Auditing and Corrective Action
§ 115.404 Audit corrective action plan.

- (a) A finding of "Does Not Meet Standard" with one or more standards shall trigger a 180-day corrective action period.
- (b) The auditor and the agency shall jointly develop a corrective action plan to achieve compliance.
- (c) The auditor shall take necessary and appropriate steps to verify implementation of the corrective action plan, such as reviewing updated policies and procedures or re-inspecting portions of a facility.
- (d) After the 180-day corrective action period ends, the auditor shall issue a final determination as to whether the facility has achieved compliance with those standards requiring corrective action.
- (e) If the agency does not achieve compliance with each standard, it may (at its discretion and cost) request a subsequent audit once it believes that it has achieved compliance.

Auditing and Corrective Action
§ 115.405 Audit appeals.

(a) An agency may lodge an appeal with the Department of Justice regarding any specific audit finding that it believes to be incorrect. Such appeal must be lodged within 90 days of the auditor's final determination.

(b) If the Department determines that the agency has stated good cause for a re-evaluation, the agency may commission a re-audit by an auditor mutually agreed upon by the Department and the agency. The agency shall bear the costs of this re-audit.

(c) The findings of the re-audit shall be considered final.

State Compliance

§ 115.501 State determination and certification of full compliance.

(a) In determining pursuant to 42 U.S.C. 15607(c)(2) whether the State is in full compliance with the PREA standards, the Governor shall consider the results of the most recent agency audits.

(b) The Governor's certification shall apply to all facilities in the State under the operational control of the State's executive branch, including facilities operated by private entities on behalf of the State's executive branch.

Module Description: This module provides standardized training and orientation training required for all contractors, vendors, skilled trades, construction workers, student interns and volunteers providing services at Correctional Facility Administration work sites. Topics included in this training program are searches, vehicles, tool control, contraband, prisoner contact, discriminatory harassment and emergencies.

Original Module Developers: *Contractual Workers Committee* Bonita Hoffner, Deputy Warden, LCF – Chairperson; Bryan Watson, Deputy Warden, ATF; Janette Price, Deputy Warden, MTU; Aaron Wemple, Assistant Deputy Warden, JCS; Steve Parks, Central Office Physical Plant; Joe Lemke, Central Office Training

Date Originally Developed - December 1998

Revisions Completed By: The Office of New Employee Training & Professional Development, Curriculum Unit with the assistance of Bonita Hoffner, Kevin Lindsey, Joe Lemke and Tom Mullaly.

Revised: August 2007; September 2010, April 2014

Target Audience: All contractors, vendors, skilled trades, construction workers, student interns and volunteers providing services at Correctional Facilities Administration work sites. Vendors who are under direct continuous supervision and/or escort are not required to attend this program.

Time Frame: Training time is 1 hour.

Materials Needed and Provided by The Facility: Computer with On-Line Training Access, Applicable Policies, Procedures and DOM's; Facility Operating Procedures.

Program Objective: At the completion of this training participants will have an understanding of security regulations necessary and that shall be followed when working in Michigan Department of Corrections work sites.

Overview of the Michigan Department of Corrections

THE MICHIGAN DEPARTMENT OF CORRECTIONS RESPONSIBILITY

The goal of the Michigan Department of Corrections is to provide the greatest amount of public protection while making the most efficient use of the State's resources. It meets its goal by ensuring that the state's judges and other criminal justice administrators have the broadest possible array of viable sentencing and sanctioning options, and by ensuring that appropriate supervision is maintained so that Michigan's neighborhoods, families and citizens can be protected.

Our vision is to protect the public and build trust within Michigan communities.

Our mission is to create a safer Michigan through effective offender management and supervision in our facilities and communities while holding offenders accountable and promoting their rehabilitation.

THE STRUCTURE

The Department gets its authority and the sources of influence on Department operations through the U.S. Constitution; Michigan Constitution and Michigan Compiled Law.

The Departments structure and direction for operations is provided through:

Administrative Rules, which interpret the laws for State Agencies.

Policy Directives (PD), which provide the Departments direction and focus.

Director's Office Memorandum (DOM), which are implemented as temporary policies when an immediate response is necessary in providing direction.

Operating Procedures (OP), which are written statements on how the policies are to be implemented.

The Director is the chief administrative officer of the Department and thus is responsible for the overall operation of the Department. The Director is appointed by the Governor.

The Department of Corrections is divided into Administrations. All correctional institutions operated by the Department are under the Correctional Facilities Administration (CFA), which is headed by a Deputy Director, who reports to the Chief Deputy Director and is responsible for the operation of all correctional institutions.

Each institution within the Correctional Facilities Administration (CFA) is administered by a Warden. The Warden is responsible for the overall operation of their institution.

In the absence of the Warden a designee will maintain responsibility over the operation of the institution.

For the purposes of this training we will refer to the Warden and their designee as the Facility Head.

Throughout this training we will frequently refer to the facility head, and policies. You know now that we are referring to the Warden or designee and the documents that give us our direction.

Approval Prior to Entering A Correctional Facility

APPROVAL PRIOR TO ENTERING A CORRECTIONAL FACILITY

Regardless of the purpose for entering a correctional facility, entry is only allowed when explicit approval has been given by the facility head. Paperwork should be filled out prior to coming on site.

Training must be completed in accordance with PD 02.05.100 New Employee Training Program and the current New Employee Training Plan.

The business that is being conducted, along with the type of contact that you will have with the offenders at a CFA facility will determine the necessary training that is required.

This program (Program A) is orientation training which is required for all contractors, vendors, skilled trades, construction workers, student interns and volunteers providing intermittent services.

Law Enforcement Information Network (LEIN) application and personal information is necessary in order to complete the approval process.

When applicable, an ID card is generated after being LEIN cleared by using the information from the form.

Regardless of the purpose for entering a correctional facility, only allowable items will be carried into and out of the facility. See OP

04.04.100 Gate Manifests and Attachment A, Allowable Items Without Gate Manifest.

According to PD 04.04.110, Contraband is property (items) which is not allowed on facility grounds by State law, Administrative Rule or Department policy or procedure.

Proper dress and equipment for duty while inside of a correctional facility is just as important as what is brought onto facility grounds and when left unattended can become contraband. Be sure not to leave items unattended and take everything out with you that you brought in.

Drugs and Alcohol are not to be brought onto state property, whether it is intended to be left in a vehicle or not.

Individuals who staff have a reasonable suspicion of their being under the influence of drugs and/or alcohol will not be allowed to enter into the facility.

Being “under the influence” is any behavior, actions, words, odor or other evidence which is indicative of an individual who is or has been using drugs and/or alcoholic beverages.

Reasonable suspicion is suspicion based on a specific fact or facts and rational inferences drawn from those facts, based upon the knowledge and experience of corrections staff.

Prescription and/or over the counter medications may be authorized to bring onto facility grounds as follows:

The allowable items list (Attachment A, OP 04.04.100) will describe what and how much over the counter medications are authorized.

Prescription medications may be allowable on facility grounds, but only with authorization as given by the facility head and an Administrative Manifest is required (See OP 04.04.100 – Gate Manifests).

Prescribed **medical marijuana is not** an allowable item even though it is prescribed.

All individuals entering onto correctional facility property are subject to search (See PD 04.04.110 Search and Arrests in Correctional Facilities). Anyone refusing to be searched will not be allowed entrance into the facility and will be asked to leave the property.

The Department's responsibility to manage and control the State's correctional facilities includes the duty to prevent contraband from entering those facilities.

Pursuant to MCL 800.281 et seq., it is a felony to bring any of the following items into a correctional facility or onto facility property where prisoners may have access to them without prior written permission of the Warden:

Any weapon, including a pocket knife, or other implement which may be used to injure another person or which may be used in aiding a prisoner to escape;

Any alcoholic beverage or poison, except that not more than two ounces of wine may be brought into a facility for use by a clergy member during religious ceremonies;

Any prescription drug or controlled substance without written certification of need from a licensed physician, except that prescription drugs and controlled substances may be brought into a correctional facility as medical supplies for that facility. The physician's written certification must include the name of the person prescribed the drug or controlled substance, the prescribed dosage and frequency, and the reason it was prescribed.

Controlled Substance is defined as a drug, substance, or immediate precursor as set forth in MCL 333.7201 to 333.7231, including heroin, cocaine, LSD, and marijuana.

In addition to those items prohibited by State law, Department policy prohibits other items from being brought into a correctional facility or on facility grounds.

Personal cellular telephones and pagers are prohibited.

Personal cellular telephones (PD 04.04.100 paragraph L.) are not permitted on facility grounds or regional offices except in a locked motor vehicle in designated parking areas and in secured areas designated by the Warden or the highest ranking supervisor of the regional office for this purpose (e.g., locked locker).

In the State of Michigan it is a felony to provide a cell phone to a prisoner under MCL 800.283a.

Audio or visual recording devices, including cameras, are prohibited unless approved by the Warden.

Tobacco products also are prohibited both inside a correctional facility and on facility grounds.

Visitors also are prohibited from bringing money into a correctional facility, except where allowed for use of vending machines.

Wardens may prohibit other items from being brought into their respective facilities; however, items may not be prohibited that are otherwise specifically allowed pursuant to Department policy.

Members of the public entering a correctional facility are subject to search in order to prevent the introduction of contraband. If a member of the public refuses to be searched, s/he will not be forced to submit unless a search warrant has been obtained, but entry into the secured area of the facility on that occasion shall be denied and s/he may be

required to leave the premises. A person subject to a clothed body search who is wearing clothing which prevents a thorough clothed body search also shall be denied entry and may be required to leave the premises.

Members of the Public are defined as visitors, volunteers, attorneys, contractors, elected state officials, and anyone else who is not an employee.

A pat-down search is defined as a brief manual and visual inspection of body surfaces, clothing, briefcases, and similar items. The only clothing items that may be required to be removed are outerwear (e.g., coats, jackets, hats) and shoes. All items shall be removed from pockets.

A clothed body search is defined as a thorough manual and visual inspection of all body surfaces, hair, clothing, wigs, briefcases, prostheses, and similar items and visual inspection of the mouth, ears, and nasal cavity. The only clothing items that may be required to be removed are outerwear (e.g., coats, jackets, hats), shoes, and socks; however, all items shall be removed from pockets.

All members of the public shall be required to walk through a screening device or submit to the use of a hand-held screening device prior to entering a CFA institution; however, this requirement may be waived by the Warden for anyone personally escorted by the Warden or his/her designee. Any personal property which is taken inside the security perimeter of a CFA institution shall be searched.

Vehicles on CFA Facility Property

VEHICLES ON CFA FACILITY PROPERTY

All vehicles that enter the property of a CFA facility must be properly licensed and registered.

All vehicles that enter the property and that are operated while at a CFA facility must be operated only by properly licensed and certified individuals.

All vehicles that are brought onto CFA facility grounds must be parked in authorized areas only.

If a vehicle is discovered in an area of the facility grounds which has been posted against trespassing, the vehicle and its occupants may be detained while the appropriate law enforcement agency is summoned.

All vehicles must be properly secured.

No keys left inside or outside of the vehicle.

Lockable doors and compartments.

Securable windows.

Vehicles entering in the security perimeter must have the steering wheel secured with a “Club” security device or similar device in accordance with the CFA facility operating procedure.

No unauthorized items are to be stored in the vehicle.

The appropriate law enforcement agency shall be called whenever a person is found to be in possession of a non-authorized alcoholic beverage, poisonous substance, controlled substance, prescription drug, or weapon(s).

Absolutely no weapons are to be carried onto facility grounds or left in a vehicle regardless of whether a valid CCW allows the weapon to be carried.

Vehicles are subject to search as follows:

If it is suspected that there is contraband in a vehicle on facility grounds that does not belong to an employee, the matter shall be referred to the appropriate law enforcement agency. Employees shall not search the vehicle.

Tools and Equipment

TOOLS AND EQUIPMENT

Each Correctional Facilities Administration (CFA) institution is required to control items transported through all pedestrian and vehicle entrances in order to reduce the risk of contraband being brought into the institution, to prevent theft of state property, and to provide a record system for all packages, supplies, and materials brought into or out of the institution.

Employees, vendors, contractors, and individuals engaged in official business carrying items not listed on the list of allowable items must obtain a Gate Manifest (CSJ-404) in order to bring those items through the gates of an institution. This gate manifest is intended for a one time through use.

In the event an item is authorized to be brought through the gates on a daily basis, an Administrative Manifest (CSJ-127) shall be used for this purpose.

A Warden/Deputy Warden may issue an Administrative Manifest to employees carrying authorized items through the gates of his/her facility.

No manifest will be issued for an item specifically prohibited by Department policy or procedure (e.g. cellular telephones, personal pagers, pocket knives).

All items being brought through the gates into the facility will be searched. This includes items carried in, and those being removed, from the secure perimeter.

The person to whom the manifest is issued must present it along with the transported items when entering or departing the secure perimeter.

The Department has a specific policy for tool control which categorizes tools into two categories, critical and dangerous tools. Tools must be used, accounted for, secured, and stored in accordance with PD 4.4.120 Tool Control.

Tools, tool boxes, and equipment of contract workers performing services inside an institution shall be inventoried and inspected prior to entry into and exit from the institution. Staff designated to escort workers within the facility shall ensure tools are controlled with proper security and safety procedures and work activities are confined to authorized areas.

Critical tools are as follows: Metal cutting tools, including hacksaws, metal cutting blades, chisels, files, bolt cutters, and pipe cutters. Powered hand tools, drills and drill bits. Portable jacks and hoists. Wrenches 14" in length or longer. Acetylene torches, cutting tips, gauges, torch parts, arc welders, plasma cutting equipment. Grinders, emery wheels and abrasive discs. Tubing, pipe and conduit benders. Utility and carpet knives. Explosively driven tools (e.g., ramset guns) and

ammunition. Ladders nine feet in height or higher. Wire cutters and other hand tools primarily designed to cut wire.

Dangerous tools are as follows: Hand tools readily usable or adaptable as weapons, escape equipment or to defeat locking or security systems. Examples include screwdrivers and pliers. Wrenches less than 14" in length. Ladders less than 9' in length. Emery cloth and sandpaper.

Electric grinders not in use shall be locked in place with power positively locked out.

Safe handling of tools and equipment by authorized, licensed and certified users is necessary to ensure everyone's safety.

OSHA/MIOSHA standards must be maintained.

Tools must be properly removed from a CFA facilities secured perimeter if storage is not available inside of the facility.

It is the responsibility of a company contracted to perform work at CFA facilities to provide MSDS for all chemicals that will be utilized while working at a facility.

Entrance Into and Exit Out of the CFA Facility

ENTRANCE INTO AND EXIT OUT OF THE CFA FACILITY

The facility head will ensure all individuals who are authorized entry into a correctional facility are advised of rules that they must follow while in the facility. The facility head may order any individual who disregards facility rules or the conditions under which entry was approved to immediately leave the facility.

Access is allowable only during approved days and hours of operation for contractors and their employees.

Access that is necessary outside of the approved days and times established for conducting business or completing the work requires special authorization from the facility head.

Use only authorized entrance and exit points into and out of the facility. Individuals who enter into and out of a CFA facility should use the main gate entrance.

Vehicle traffic that enters into and out of a CFA facility will use a sally port entrance. It is at these entrances that you will be registered and/or identified for entry. You and the items you take in or are bringing out will be searched at these points as well.

Staff escorts will be assigned, when necessary, at the point of entrance. You are to remain with the escort until you exit the facilities secured perimeter.

All areas of a CFA facility are restricted access areas except those which are specifically designated and authorized to complete the work you are there to do.

Utilizing authorized entrances/exits when entering or leaving buildings and work locations will aid in keeping workers out of restricted areas.

Consequences for non-compliance include being escorted off of the facility property and possibly having authorization for future access revoked by the facility head.

Persons found in restricted areas, on CFA facility property, without authorization may be arrested for trespassing under the trespassing laws relevant to corrections.

All workers who are expected on site should be present when they are expected. In the case of a no call/no show of expected workers, access may be denied.

Contact information will be provided when it is necessary for announcing delay's or absence of workers or work crews.

Overtime that is accrued by the facility to provide escorts for expected work within the facility may be charged to the contracted company when the schedule is not adhered to.

Personal Protection Devices (PPD)

PERSONAL PROTECTION DEVICES (PPD)

The purpose of a PPD is to offer access to an alarm system that alerts staff in the Control Center of the CFA facility that there is a problem and also provides a general location of where the PPD has been activated.

There are some facilities within CFA that do not require a PPD.

When a CFA facility provides a PPD, you will receive information on how to properly operate the PPD.

Generally a PPD has push button alert activation, a pull-pin alert activation or both.

Depending on the facilities operating procedure a PPD may or may not be issued.

CFA facilities require that the PPD be properly worn so that it does not become lost and so that it is accessible by the user.

A PPD is not to be left lying around any where inside or outside of the facility.

The PPD is issued at a designated point within a facility and is returned usually at the same point where it was issued.

PPD's are considered sensitive items and are accounted for on each shift; therefore, a PPD should not be removed from facility grounds for any reason.

Proper use of a PPD requires that it is only activated when staff assistance is necessary.

An emergency type situation can occur at any time while inside of a CFA facility. The following is a list of examples which constitutes an emergency:

Injury or illness,

Assault by a prisoner,

Becoming disoriented inside of the facility.

Areas covered with the PPD's ability to activate an alarm are determined by each facilities physical plant. Not all areas may be covered by PPD access. Information of this nature will be shared with each person that is required to wear a PPD.

When Authorized Items Become Contraband

WHEN AUTHORIZED ITEMS BECOME CONTRABAND

Any item that you bring into a CFA facility, which is either on the allowable items list or has been properly authorized using a Gate Manifest/Administrative Manifest, is considered contraband when accessed by an offender.

There are specific items which are brought into the facility for offenders only by using proper channels. Consequences of improper security and control of tools and equipment can include serious physical injury and in the most extreme case even death.

Tools and equipment can be utilized by offenders to commit assaults, attempt escapes or for use in conducting unauthorized activities.

Careful cleanup and accountability of ALL items, including residual parts and pieces that occur as a result of performing proper work procedures, is essential for everyone's safety.

Pick up all nails, screws, wires.

Clean up any broken glass.

Remove and discard binding straps.

Remove every item or properly discard all items in approved disposal containers that are brought inside of a secured perimeter.

**Prisoner Contact –
Sexual Abuse,
Sexual Harassment,
Overfamiliarity and
Unauthorized Contact**

Prison Contact - Sexual Abuse, Sexual Harassment, Overfamiliarity and Unauthorized Contact

The Michigan Department of Corrections is committed to ensuring the safe and humane treatment of prisoners and a safe environment for all prisoners. An important part of a safe and humane environment includes being free from sexual abuse and sexual harassment.

The Department enforces a zero tolerance standard for staff, contractual employees, and volunteers to engage in sexual abuse, sexual harassment and overfamiliarity with prisoners.

Sexual abuse is a term used to describe certain kinds of prohibited behavior. Sexual abuse includes non-consensual sexual acts and sexual harassment. Based upon an imbalance of power, sexual relationships between staff, contractual employees, and volunteers with a prisoner are NEVER consensual.

Sexual abuse of a prisoner by a staff member, contractor, or volunteer includes any of the following acts, with or without consent of the prisoner:

Sexual Conduct with Offender or Overly-Familiar or Unauthorized Conduct/Sexual Relationship

- (1) Contact between the penis and the vulva or the penis and the anus, including penetration, however slight;
- (2) Contact between the mouth and the penis, vulva, or anus;

(3) Contact between the mouth and any body part where the staff member, contractor, or volunteer has the intent to abuse, arouse, or gratify sexual desire;

(4) Penetration of the anal or genital opening, however slight, by a hand, finger, object, or other instrument, that is unrelated to official duties or where the staff member, contractor, or volunteer has the intent to abuse, arouse, or gratify sexual desire;

(5) Any other intentional contact, either directly or through the clothing, of or with the genitalia, anus, groin, breast, inner thigh, or the buttocks, that is unrelated to official duties or where the staff member, contractor, or volunteer has the intent to abuse, arouse, or gratify sexual desire;

(6) Any attempt, threat, or request by a staff member, contractor, or volunteer to engage in the activities described in paragraphs (1) through (5) of this section;

(7) Any display by a staff member, contractor, or volunteer of his or her uncovered genitalia, buttocks, or breast in the presence of a prisoner, detainee, or resident, and (8) Voyeurism by a staff member, contractor, or volunteer which means an invasion of privacy of a prisoner for reasons unrelated to official duties, such as peering at a prisoner who is using a toilet in his or her cell to perform bodily functions; requiring a prisoner to expose his or her buttocks, genitals, or breasts; or taking images of all or part of a prisoner=s naked body or of a prisoner performing bodily functions.

Sexual Harassment

Verbal comments or gestures of a sexual nature to a prisoner by a staff member, contractor, or volunteer, including demeaning references to gender, sexually suggestive or derogatory comments about body or clothing, or obscene language or gestures.

Reporting Requirements

Anyone who observes sexual abuse/sexual harassment or receives an allegation of sexual abuse/sexual harassment, must report it to the appropriate supervisor immediately.

In addition to the Department's policy requirement that all allegations of sexual abuse, including sexual harassment, must be reported the Department is also required by federal and state law to report sexual abuse to outside authorities.

Sexual activity against a prisoner which may constitute a felony shall be reported to appropriate law enforcement authorities. For example, Michigan law MCL 750.520c provides that employees, contractual employees, or volunteers who engage in sexual contact with prisoners can be charged with a felony, Criminal Sexual Conduct in the second degree.

All reported allegations of sexual abuse/sexual harassment, shall be referred to the Internal Affairs section for investigation. All allegations shall also be referred to the Michigan State Police or other appropriate

law enforcement agency for investigation in accordance with policy and law.

In addition to reporting incidents of sexual abuse to the Michigan State Police, the Department must report all allegations of sexual abuse to the county department of social services of the county in which the abuse is suspected of having or believed to have occurred.

A contractual employee or volunteer who engages in sexual abuse/sexual harassment will be prohibited from providing services within any Department correctional facility.

Remember:

Treat any suggestion or allegation of sexual assault, abuse, or contact as serious.

A report of sexual abuse by a prisoner is to be kept confidential and shared only according to policy and law.

Overfamiliarity or Unauthorized Contact

The Department also enforces a zero tolerance standard for staff, contractual employees, and volunteers to engage in overfamiliarity with prisoners.

Overfamiliarity involves staff, contractual employees, and volunteers engaging in, or attempting to engage in conduct likely to result in intimacy or a close personal relationship with a prisoner. The following

behavior between staff, contractual employees, and volunteers and prisoners is prohibited:

- a. Exchanging personal letters or gifts.
- b. Requesting or granting special favors.
- c. Discussing personal matters, unless specifically related to a prisoners case.
- d. Engaging in horseplay.
- e. Flirting.
- f. Addressing each other by first name or a nickname.

Overfamiliarity or Unauthorized Contact with an offender includes the following types of relationships and behaviors:

Engaging in overfamiliarity with an offender, or a family member or listed visitor of an offender.

Having a personal relationship with an offender, the offender's family, or visitors at the facility you are working. Where such cases arise that there is already a personal relationship established prior to working at the facility, this information must be disclosed to include the name, number and location of the offender.

Making contact with any offender, family member of an offender or a listed visitor of an offender outside the regular performance of the job.

Giving or receiving letters, money, personal mementos, telephone numbers, legal or other services to or from an offender or a family member or a listed visitor of an offender.

Conversation of a sexual or romantic nature. Sexual abuse or sexual harassment of an offender's family members or listed visitors.

Financial involvement with offenders, family members of offenders, or listed visitors.

Giving or receiving messages, pictures or goods.

If unavoidable contact is made with an offender, a family member of an offender or a listed visitor of an offender, such contact must be reported in writing to the facility head through proper channels.

Allowable contact is defined based on the type of work you are conducting at the CFA facility. Any contact outside of the work you are doing could be inappropriate contact.

Offenders may try to have a conversation with you through a fence or by yelling across the yard. DON'T DO IT.

Generally an offender will not attempt to have an inappropriate conversation when staff are around.

Reporting contact or attempts to contact is required at any time an offender attempts to have a conversation, asks you to do something for them, asks you to bring something to them or asks you to contact someone for them.

Consequences of unauthorized contact or overfamiliarity will lead to being escorted out of the facility and possibly not being able to work at any other Department facility.

If the overfamiliarity is deemed a felony, the case will be turned over to the Michigan State Police or other appropriate Law Enforcement Agency and could lead to prosecution and incarceration for up to 15 years in prison.

Do's and Don'ts of working in a CFA facility are as follows:

DO stay with your escorting staff member.

DO dress appropriately for your job:

- Clean shirt and pants
- Under garments worn
- Clothing which is loose fitting
- Clothing which does not expose

DO consider where you are working.

DO ask questions about everything.

DO report everything unusual or questionable.

DO refer visitors to staff if they ask questions.

Don't leave tools & equipment unsecured. Make sure tools are inventoried.

Don't talk or visit with prisoners.

Don't do anything if the emergency siren sounds. You will receive direction from staff on what action to take.

Don't come to the facility without proper identification.

Don't bring any controlled items such as, butane lighters, knives, liquor, weapons, ammunition, dice, cameras or anything else into the prison.

Don't give money, cigarettes or any other items to prisoners.

Don't accept gifts or take anything from prisoners.

Don't carry any items of mail into or out of the prison for any prisoners.

Don't enter any area of the prison without staff permission or escort.

Don't forget you may be searched at any time entering, exiting or while you are inside the prison.

Don't bring any of the following items to the prison in your vehicle: firearms, weapons, ammunition, liquor or cameras.

Don't leave your keys in your vehicle.

Don't leave your vehicle unsecured (unlocked) on prison property.

Don't attempt to enter or exit the prison at any place other than where you are instructed to do so by staff.

Don't smoke or (chew tobacco) on prison property.

Don't forget to ask for staff assistance if you don't understand any of these rules.

Emergencies

EMERGENCIES

Sirens sounding inside of a CFA facility indicate a number of situations depending on what the siren sounds like.

The procedures to follow when a siren is sounded will be issued to you from the facility you are working.

Staff will direct you on what to do and where to go.

Each CFA facility is required to conduct a siren test monthly which may require non-employee's of the facility to exit the secured perimeter. This will cause a "work stop" for a couple of hours when this occurs.

When medical emergencies occur you should report it verbally to the nearest staff member, activate your PPD or use a nearby telephone. Do not attempt to leave the area unless none of the options mentioned are available.

Work Site Protocols

WORKSITE PROTOCOLS

Harassment of any kind is not tolerated at any Department facility.

The definition that the Department recognizes as being discriminatory harassment is: Unwelcome advances, requests for favors, and other verbal or non-verbal communication or conduct (e.g., comments, innuendo, threats, jokes, pictures, and gestures) based on race, color, national origin, disability, sex, sexual orientation, age, height, weight, marital status, religion, genetic information or partisan considerations.

Forms of harassment include but are not limited to: discriminatory harassment and sexual harassment.

Consequences of harassment are both personal and professional. Such actions can lead to civil suits as well as felony convictions.

Reporting harassment (i.e. victim of or witness to) should be done through proper channels. Any supervisor at a CFA facility is trained in proper reporting of complaints.

Authorized break areas/restrooms are to be the only areas utilized by non-employees of CFA facilities. This will help to ensure that restricted areas are not visited by unauthorized personnel.

Telephones for personal and business use will be as directed by the facility head.

Health care staff is not available for the purpose of providing care to anyone at CFA facilities except offenders.

Onsite care is not authorized for use unless it is a life or death emergency.

Locations that are available within the community can be utilized in accordance with their policies and ambulance services, if necessary, will be utilized in accordance with their policies as well.

CFA facilities have a Warden and Administrators assigned to act as facility heads. The Warden is the facility head and when absent assigns their designee.

The facility head has full rights to the facility. Some of those rights include and are not limited to:

Revoking permissions.

Adjusting authorities.

Alter working hours and days.

All items and personnel that are allowed inside.

Tours are not allowed without explicit authorization.

Proper authority is necessary for all activities and items as well as personnel for entrance into, exit out of and while on the grounds of any facility.

The facility Inspector is the person of contact for all questions, concerns and approvals.

Contact information for key personnel of the facility should be made available while you are working at the CFA facility.

Work place safety is covered by Civil Service Commission Rule 2-20.

Rule 2-20 prohibits employees from (1) engaging in acts of violence and threats of violence and (2) possessing or carrying firearms or explosives unless expressly authorized by the appointing authority.

Rule 2-20 requires employees to report violations involving acts or threats of violence or possessing or carrying firearms or explosives. If an employee becomes aware of an act of violence or a threat of violence, the employee shall immediately report the act or threat to the appointing authority or the appointing authority's designee.

Consequences of violating Rule 2-20 will include being escorted from facility grounds, possibly not being approved for work at any Department facility and may be referred to the Michigan State Police or other appropriate Law Enforcement Agency which could lead to a felony conviction.

Health and Safety requirements.

The Department is required by OSHA/MIOSHA standards to ensure the safety of its employees be maintained in accordance with applicable standards.

Reporting violations, hazards, emergencies and concerns should be done through proper channels which begins with the CFA facility head.

Consequences of non-compliance to MIOSHA standards, Department rules and any other applicable entity will be determined based on the circumstances and the issue at hand as well as in accordance with the stated standards.

Conclusion

CONCLUSION

After completing this training it may seem as if there are so many rules to working inside a CFA facility that it may be intimidating. To simplify things remember these keys:

You are working inside of a correctional facility (a prison) where everything you say and do will be observed.

If you have contact with offenders, offender's families etc. outside of your regular job duties report it to your supervisor.

If you are unsure about anything ask a staff member for assistance.

Don't give or leave anything for an offender and don't take anything from an offender.

The remainder of the orientation program should be used to answer and/or clarify any questions and to address other issues which may be specific to a particular work site.

ACKNOWLEDGMENT

I acknowledge that I have received a copy of, have read, understand and agree to abide by the CFA Security Regulations and PREA Federal Register. If I have any questions, I will ask my supervisor/manager.

Exhibit 2 - Vendor Rules & Regulations

MICHIGAN DEPARTMENT OF CORRECTIONS VENDOR RULES & REGULATIONS

(Rev. April 2022)

Contractors providing services to the Michigan Department of Corrections (MDOC) under a Contract, Purchase Order, Delivery Order, Memorandum of Understanding, Grant, or other agreements are subject to the following rules, standards, and procedures. Due to the sensitive nature of the involved work, Contractor and MDOC have agreed that all Contractors and Subcontractors shall abide by the following rules and regulations to ensure the safety of the Contractor, Subcontractors, Offenders, and MDOC employees. Any violation of the MDOC Vendor Rules and Regulations may result in a Stop Order being issued against the Contractor, the Contractor's removal from his/her assignment under the agreement and may result in additional sanctions from law enforcement.

Definitions

Contraband: Any article not specifically authorized by policy including Contractor personal property. (See Attachment A for permissible items allowed into a facility without a gate manifest.)

Contractor: an individual employed by a company, agency, or vendor that are contracted to provide services to the Michigan Department of Corrections or their sub-contractors.

Contractor Permitted Items:

(CFA)

See Attachment A – Allowable Items Without Gate Manifest.

(FOA)

Contractors are permitted to take the following items in a FOA office: photo ID, money, cell phone (Contractors are prohibited from recording audio or video with cellular devices).

Correctional Facilities Administration (CFA): Contractors who enter and provide services within the secure perimeter of an MDOC correctional facility are categorized as CFA Contractors.

Discriminatory Harassment: Unwelcome advances, requests for favors, other verbal or non-verbal communication or conduct based on religion, race, color, national origin, age, sex, height, weight, marital status, partisan considerations, disability, or genetic information.

Facility: Any property owned, leased, or occupied by the MDOC.

Field Operations Administration (FOA): Contractors who provide services in the community are categorized as FOA Contractors.

MDOC: Michigan Department of Corrections.

MDOC Program Manager: Individual appointed by the State to monitor and coordinate the day-to-day activities of the Contract.

Offender: A prisoner or parolee under the jurisdiction of the MDOC or housed in a MDOC facility, a probationer who is supervised by an employee of the MDOC, or any person referred to the MDOC by the courts for investigation or supervision.

Offender Contact Disclosure for Contractors Form: Form completed at the time of initial LEIN clearance and renewed as needed as circumstances change. Contractors are required to disclose relation, acquaintance, or active communication with offenders under MDOC jurisdiction at any time during their performance on the contract. Failure to disclose this information may result in disqualification from working on MDOC deliverables. Disclosure of offender contact will result in a review process which may also disqualify the disclosing contractor from working on MDOC deliverables.

Overfamiliarity: Conduct that has resulted in, or is likely to result in, a personal non-work-related association or intimacy. Establishing a friendship, mutual attraction, or intimate relationship with an offender, is strictly prohibited. Examples include, but are not limited to:

- Conduct which has resulted in or is likely to result in intimacy, a close personal or non-work-related association
- Being at the residence of an offender outside of routine work duties
- Being at the residence of an offender's family outside of routine work duties
- Giving or receiving non-work-related letters, messages, money, personal mementos, pictures, telephone numbers, to or from an offender or a family member of a listed visitor of an offender
- Exchanging hugs with an offender
- Dating or having sexual relations with an offender

Procurement, Monitoring, and Compliance Division (PMCD): Unit that provides oversight to MDOC contracts and ensures that Contractors are delivering services according to contract requirements.

Stop Order: A notice that is posted at a worksite prohibiting an individual from entering or being allowed on the grounds of an MDOC worksite.

Vendor: A company or agency who employs individuals who provide contracted services to the MDOC or their sub-contractors.

Vendor Supervisor: The Vendor's main point of contact to monitor and coordinate the day-to-day activities of the Contract.

General Requirements

MDOC Rules, Regulations, Policies, and Procedures. Contractors will comply with all rules, regulations, and policies of the State that are communicated to Contractor in writing, including security procedures concerning systems and data and remote access, building security procedures, including the restriction of access by the State to certain areas of its premises or systems, and

general health and safety practices and procedures. This Vendor Rules and Regulations document serves as the initial communication of MDOC Rules, Regulations, Policies, and Procedures with the possibility of additional communication to follow.

Background Checks. The State, in its sole discretion, may perform background checks on Contractors.

Contractor Roster. To assist PMCD in maintaining complete and accurate contractor files and identifying those who access secure correctional facilities, criminal justice information, and have contact with offenders, Contractors are required to update contact information and additional information upon request.

Training Requirements. In accordance with MDOC instruction, Contractors providing services to the MDOC must complete applicable MDOC assigned training prior to providing services under the contract and annually thereafter. The training assigned to Contractors is specific to worksite, level of offender contact, access to MDOC data, and the services provided under the contract. For Contractors who have no offender contact and no access to MDOC properties or data, training may not be a requirement.

Discrimination. Contractors shall not discriminate against a person on the basis of religion, race, color, national origin, age, sex, height, weight, marital status, partisan considerations, disability, or genetic information.

Political Activities. Contractors cannot proselytize for any political group while providing services for the MDOC or at the location of where services are provided to the MDOC.

Conflict of Interest. If a Contractor has a family member or friend who is incarcerated, on parole or probation he/she must immediately notify their Contractor Supervisor, MDOC Contract Representative, and complete the Offender Contact Disclosure for Contractors form for proper assignment to avoid a conflict of interest.

Public Information. Contractors are not authorized to make public statements on behalf of the MDOC.

Role Model. Contractors serve as role models to offenders and must act in a professional manner at all times. Any arrest, citation, issuance of a warrant for a felony or misdemeanor offense or issuance of a personal protection order against the Contractor must be immediately reported to his/her Vendor Supervisor and MDOC Program Manager. Any action or inaction by a Contractor which jeopardizes the safety or security of the facility, MDOC employees, the public or offenders is prohibited.

Fitness for Duty. Contractors are required to be physically and mentally fit to perform their job duties. If you do not believe you are mentally or physically fit, please report this issue to your Vendor Supervisor and MDOC Program Manager. Contractors shall immediately notify their Vendor Supervisor and MDOC Program Manager if they are taking medication which may interfere with their work responsibilities. Additionally, Contractors must adhere to MDOC COVID-19 protocols and testing measures.

Use of Leave/Notice of Absence. Contractors are required to obtain preapproval of leave from their immediate Vendor Supervisor and/or on site MDOC Supervisor if applicable.

Punctuality. Regular attendance and punctuality are required of all Contractors. All Contractors are expected to adhere to the work schedule approved by their supervisor and to be at their assignment at the start of their shift or workday. In addition, all Contractors must adhere to specific facility procedures for attendance accountability.

Jail Time or Other Restricted Supervision. No Contractor shall be allowed to provide services to an offender while under electronic monitoring supervision or device, house arrest, or sentenced to jail time even if granted a work release.

ADA Compliance. Contractors shall contact their employing Vendor for ADA issues and follow their Vendor's Disability Accommodation request process. Due to potential custody and security issues, the Vendor shall include the PMCD Contract Manager and MDOC Equal Employment Opportunity Officer in the interactive process. Any costs associated with the accommodation are the responsibility of the Contracting Vendor, not the MDOC. If a Vendor has approved a reasonable accommodation their staff, PMCD shall be notified.

Possession and/or Use of Medication. Contractors shall immediately notify their Vendor Supervisor and MDOC Program Manager if taking prescribed medication which may interfere with the Contractor's work responsibilities. In addition, any Contractor who has duties involving the direct management or observation of offenders shall immediately provide written notice of a prescribed medication that could reasonably be expected to affect the work performed. Such medication includes, but is not limited to narcotic pain medication, psychotropic medication, mood altering medication, and antihistamines.

Statement of Work:

We hereby submit a proposal in repair failing lateral connections in 2 sections of sanitary sewer located on Port Sheldon St. Pipe sections are between manholes M23-119 - M23-120 & M23-117 - M23-119.

We will provide the equipment and crew to install the cured in place repairs at each of the 12 laterals.

All pipeline video inspections will be performed by one of our NASSCO certified PACP inspectors. All sewers will be inspected utilizing one of our IBAK mainline tractor cameras. Inspections will be recorded and PACP coded through IKAS, a NASSCO certified software. We will provide you with a digital copy of the video inspections along with the PACP database.

Our cured in place spot repairs are manufactured by Source 1 Environmental and meet the ASTM F1216 specifications for cured in place pipe. Sectional Spot Repair materials consist of 2 or more layers of fiberglass mat reinforcement. A silicate resin is formulated and applied to all layers of the fiberglass mat. The layers of the fiberglass mat become one with the impregnation of the silicate resin. The liner is positioned into place and inflated until the resin is fully cured.

STANDARD TERMS AND CONDITIONS

In this agreement "you", "your" and the "Customer" refer to the person signing this Contract ("Contract") with Plummer's Environmental Services Inc. ("Company").

1. You agree to purchase the material and services described in this Contract from the Company at the price and according to the terms stated in this Contract.
2. A service charge of 1 1/2% per month (18% per year) will be paid on past due amounts starting thirty (30) days after the invoice date. If Customer desires to pay invoice by credit card, an additional 3% credit card processing fee will be added to Customer's invoice.
3. All material is guaranteed to be as specified. All work to be completed in a good, workmanlike manner according to standard practices and using the standard of care commonly used

by environmental professionals and by-product transporters practicing in the State of Michigan. Company's workers are fully covered by Worker's Compensation insurance. In the event of cancellation of a job in progress by Customer, Customer will reimburse Company for all labor and/or material costs. Company shall have the right to stop work if payments are not made when due. Company shall be held harmless from all liabilities related to the hold up during such period.

4. All terms and conditions in this Contract supersede any other terms and conditions, prior proposals or prior bids. This written Contract constitutes the complete integration of all statements and agreements relating to the Contract and there are no representations or warranties other than those expressly incorporated herein nor is this Contract dependent upon or subject to any conditions or approvals precedent or subsequent not herein stated. No subsequent agreement relating hereto shall be binding upon Customer or Company unless in writing and signed by the party being bound.

5. If Customer requests changes, alteration or deviation from specifications involving extra cost, such work will only be performed upon written change orders, and will become an extra charge over and above the Contract price. Company may, by giving written notice to Customer, terminate this Contract if Customer breaches this Contract and such breach is not cured within a reasonable period (in any event such period not to exceed thirty days) or such breach is not capable of being cured within a reasonable period.

6. The actual completion time is contingent upon access to Customer's facility, labor strikes, material shortages, accidents, weather, acts of God, changes caused by a body of government, and the like. Change orders will affect the time necessary for completion. Company shall not be liable for any damages suffered by Customer as a result of any delay occasioned by these contingencies.

7. EXCEPT AS EXPRESSLY STATED HEREIN, THERE ARE NO OTHER WARRANTIES, EXPRESS OR IMPLIED, BY OPERATIONS OF LAW OR OTHERWISE, OF THE MATERIALS OR SERVICES FURNISHED UNDER THIS CONTRACT BY COMPANY. COMPANY SPECIFICALLY DISCLAIMS ANY IMPLIED WARRANTY OF MERCHANTABILITY OF FITNESS FOR A PARTICULAR PURPOSE OR ARISING FROM A COURSE OF DEALING OR USAGE OR TRADE. COMPANY SHALL HAVE NO OTHER LIABILITY TO CUSTOMER IN CONNECTION WITH THE MATERIALS OR SERVICES FURNISHED UNDER THIS CONTRACT, INCLUDING WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, ANY LIABILITY FOR DIRECT, INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES OR ANY INJURY OR DAMAGES TO PERSONS AND PROPERTY.

8. Customer shall maintain at its sole cost and expense insurance policies meeting the minimum insurance levels set forth below and shall provide certificates of such insurance evidencing the limits and expiration dates upon request;

a. Worker's Compensations - in accordance with applicable statutory requirements;

b. Commercial General Liability - not less than \$1,000,000 per occurrence, \$2,000,000 general aggregate,

c. Automobile Liability - not less than \$1,000,000 per occurrence;

All policies of insurance shall name Plummer's Environmental Services, Inc. as an additional insured and will provide Plummer's thirty (30) days prior written notice of cancellation.

9. All issues concerning the construction, validity, enforcement and interpretation of this Contract shall be governed by and construed in accordance with the laws of the State of Michigan. The parties agree that venue is hereby exclusively established in the County of Kent, State of Michigan for any dispute or claim arising out of this Contract. Company, if it prevails in any action shall be entitled to all reasonable attorneys' fees, costs and other expenses incurred in such action and in any subsequent efforts to collect the amount awarded.

10. Any portion of this Contract found to be not enforceable by a court of competent jurisdiction will not invalidate the remaining portions of this Contract. Any term of this Contract which is found to be ambiguous shall not be construed against the Company. Nothing herein shall exclude any other rights or remedies to which Company is entitled by law or equity.

11. Customer agrees to indemnify and hold Company harmless, and assume any legal liability to defend Company, its agents, employees, officers and members from any claim or action by any third party arising out of the performance of work pursuant to this Contract except those claims or actions arising out of incidents caused by employees or agents of the Company.

12. All the terms and provisions of this Contract shall be binding upon, shall inure to the benefit of, and shall be enforceable by the respective heirs, beneficiaries, personal representatives, successors and assigns of the parties to this Contract. This Contract is for the benefit of the parties, their successors and assigns, and is not for the benefit of any third party.

13. Cancellations made two business days or less before a scheduled service may be subject to a charge of up to 25% of the amount quoted for service.

14. This quote may be withdrawn if not accepted within 30 days.

15. Plummer's Environmental Services is not responsible for any sewer back up on private or commercial properties while cleaning sewer lines due to inadequate ventilation on the owners sewer.
